Elephants And Ivories In South Asia:

Elephants and Ivories in South Asia Pratapaditya Pal, 1981 *Ancient Mesopotamian Materials and Industries* Peter Roger Stuart Moorey, 1999 This is the first systematic attempt to survey in detail the archaeological evidence for the crafts and craftsmanship of the Sumerians Babylonians and Assyrians in ancient Mesopotamia covering the period ca 8000 300 B C E As creators of some of the earliest farming and urban communities known to us these people were among the first pioneers of many crafts and skills that remain fundamental to modern ways of life Many of the raw materials for crafts had to be imported from outside the river valley of the Tigris and Euphrates providing an unusually sensitive indicator of the commercial and cultural contacts of Mesopotamia In this book Dr Moorey reviews briefly the textual evidence and then goes on to examine in detail the material evidence for a wide range of crafts using stones both common and ornamental animal products from hippopotamus ivory to ostrich egg shells ceramics glazed materials and glass metals and building materials With a comprehensive bibliography this will be a key work of reference for archaeologists and those interested in the early history of crafts and technology as well as for specialist historians of the ancient Near East Mega Mammals in Ancient India Shibani Bose, 2020-01-02 Since antiquity big mammals have inspired fear as well as fantasy among humans Not only do megafauna pervade the domains of religion art literature and folklore it is also now widely acknowledged that they can serve as important if not always adequate indices of environmental quality In this book Shibani Bose looks into eras bygone in order to chronicle the journeys of three mega mammals the rhinoceros elephant and tiger across millennia in early north India Carefully sifting through archaeological evidence and literary records in Sanskrit Pali Prakrit and classical Western accounts Bose documents the presence of these big mammals in diverse cultural contexts from hunter gatherer societies to the first urban civilization of India and beyond This work aims to reconstruct human interactions with these mega species through time while trying to understand the larger ecology of ancient India This book is especially well timed as the conservation of our megafaunal heritage is a major concern for biologists ecologists and conservationists It underlines the need to historicize human interactions with these mega mammals with the contention that awareness regarding their past is critical for their future The City and the Wilderness Arash Khazeni, 2020-11-17 The City and the Wilderness recounts the journeys and microhistories of Indo Persian travelers across the Indian Ocean and their encounters with the Burmese Kingdom and its littoral at the turn of the nineteenth century As Mughal sovereignty waned under British colonial rule Indo Persian travelers and intermediaries linked to the East India Company explored and surveyed the Burmese Empire inscribing it as a forest landscape and Buddhist kingdom at the crossroads of South and Southeast Asia Based on colonial Persian travel books and narratives in which Indo Persian knowledge and perceptions of the wondrous edges of the Indian Ocean merged with Orientalist pursuits The City and the Wilderness uncovers fading histories of inter Asian crossings and exchanges at the ends of the Mughal world Animal Trade Histories in the Indian Ocean World Martha Chaiklin, Philip Gooding, Gwyn

Campbell,2020-07-21 This book examines trades in animals and animal products in the history of the Indian Ocean World IOW An international array of established and emerging scholars investigate how the roles of equines ungulates sub ungulates mollusks and avians expand our understandings of commerce human societies and world systems Focusing primarily on the period 1500 1900 they explore how animals and their products shaped the relationships between populations in the IOW and Europeans arriving by maritime routes By elucidating this fundamental yet under explored aspect of encounters and exchanges in the IOW these interdisciplinary essays further our understanding of the region the environment and the material political and economic history of the world **Treasures of Lakshmi** Namita

Gokhale,Malashri Lal,2024-02-11 Treasures of Lakshmi is the culmination of the much loved goddess series brilliantly curated and edited by Namita Gokhale and Malashri Lal This trilogy which began with In Search of Sita and continued with Finding Radha examines the mystical realms of Hindu thought and practice celebrating the essence of the sacred feminine Whether it is Lakshmi s 108 names or a sahasranama of a thousand appellations her blessings are multidimensional and eternal as the third and final instalment of this remarkable trilogy Treasures of Lakshmi takes readers on a unique journey of exploration unravelling the compelling narrative of the goddess who gives *A description of the Ivories Ancient&Mediaeval in the South Kensington Museum, with a preface by W. Francis,2002-01-01 This fascinating study is the first detailed description of the ancient and enduring trade in beads that spans more than two millennia and once stretched from the Middle East to East Asia and affected areas as far apart as West Africa and the American Pacific coast Beads are universal and among the earliest art forms Made of glass semiprecious stone or precious organic materials such as amber and coral they were ubiquitous in the ancient world serving as decorations magical charms mnemonic and counting devices symbols of wealth and status Much of the ancient bead trade was incorporated in Asian maritime commerce and many of the beads involved have Asian origins Peter Francis Jr a pioneer in bead studies incorporates firsthand knowledge of beads and beadmaking in the field with years of solid scholarly research effectively eliminating much of the hearsay and speculation that so often characterizes works on beads In addition to the production use and provenance of beads he examines the importance of the bead trade for the economies of the countries involved and provides insights into the lives of its many participants artisans mariners and merchants He covers the widely dispersed Indo Pacific beads sometimes called Trade Wind beads or mutisalah Chinese glass beads Middle Eastern glass beads Indian stone beads heirloom beads in Southeast Asia and Micronesia and other minor beads and bead industries involved in the trade *The Archaeology of Seafaring in Ancient South Asia* Himanshu Prabha Ray,2003-08-14 Prior to

European expansion communities of the Indian subcontinent had a strong maritime orientation In this new archaeological study Himanshu Prabha Ray explores seafaring activity religious travel and political economy in this ancient period By using archaeological data from the Red Sea to the Indonesian archipelago she reveals how the early history of peninsular South Asia is interconnected with that of its Asian and Mediterranean partners in the Indian Ocean Region The book departs from traditional studies focusing on the communities maritime history rather than agrarian expansion and the emergence of the state Rather than being a prime mover in social economic and religious change the state is viewed as just one participant in a complex interplay of social actors including merchants guilds boat builders sailors pilgrims religious clergy and craft producers A study that will be welcomed by students of Archaeology and Ancient History particularly those interested in South Asian Studies

Conservation of Marine Archaeological Objects Colin Pearson, 2014-05-20 Over the past twenty years there has been a significant increase in underwater activities such as scuba diving which coupled with the adventure and romance always associated with shipwrecks has led to rapid developments in the discovery and excavation of shipwrecked material These shipwrecks are invaluable archaeological time capsules which in the majority of cases have

come to an equilibrium with their environment As soon as artefacts on the wreck site are moved this equilibrium is disturbed and the artefacts may commence to deteriorate sometimes in a rapid and devastating fashion In fact excavation without having conservation facilities available is vandalism the artefacts are much safer being left on the sea bed Such famous shipwrecks as the Mary Rose 1545 the Wasa 1628 and the Batabia 1629 have not only brought the world s attention to these unique finds but have also produced tremendous conservation problems The treatment of a 30 metre waterlogged wooden hull or large cast iron cannon is still causing headaches to conservators
