**Postcolonialism** Tariq Jazeel, 2019-02-22 Postcolonialism is a book that examines the influence of postcolonial theory in critical geographical thought and scholarship Aimed at advanced level students and researchers the book is a lively stimulating and relevant introduction to postcolonial geography that elaborates on the critical interventions in social cultural and political life this important subfield is poised to make The book is structured around three intersecting parts Spaces Identity hybridity Knowledge that broadly follow the trajectory of postcolonial studies since the late 1970s It comprises ten main chapters each of which is situated at the intersections of postcolonialism and critical human geography In doing so Postcolonialism develops three key arguments First that postcolonialism is best conceived as an intellectually creative and practical set of methodologies or approaches for critically engaging existing manifestations of power and exclusion in everyday life and in taken as given spaces Second that postcolonialism is at its core concerned with the politics of representation both in terms of how people and space are represented but also the politics surrounding who is able to represent themselves and on what whose terms Third the book argues that postcolonialism itself is an inherently geographical intellectual enterprise despite its origins in literary theory In developing these arguments and addressing a series of relevant and international case studies and examples throughout Postcolonialism not only demonstrates the importance of postcolonial theory to the contemporary critical geographical

imagination It also argues that geographers have much to offer to continued theorizations and workings of postcolonial theory politics and intellectual debates going forward This is a book that brings critical analyses of the continued and omnipresent legacies of colonialism and imperialism to the heart of human geography but also one that returns an avowedly critical geographical disposition to the core of interdisciplinary postcolonial studies

**Collective Action in Post-colonial Societies** Sepetla Molapo, 2025-02-11 This book offers an exploration of collective action by bringing together the themes of sovereignty and solidarity in post colonial societies in Africa and beyond It does so against a common tradition of writing about collective action that assumes an opposition between the state as a legal framework of unity and social movements that express the aspirations of marginalized people The book's examination of collective action resists this binary division It states that sovereignty can be imagined beyond the confines of the law and consequently beyond the centrality of the state Power therefore appears as a construct of forces and factors that signal or gesture to a complex but fascinating way of imagining collective action These forces and factors open our eyes to the dynamics of life in post colonial societies in ways that the understanding of sovereignty centred on law conceals Brought into an intimacy with solidarity sovereignty opens collective action to nuanced complex and multiple configurations that surpass binary thinking This is an innovative approach and of

interest to students and scholars from across the social sciences
