

M. Kay Flavell

A surrealist painting by George Grosz. The scene is set on a floor with a large, stylized red and yellow geometric pattern. In the center, a light-colored dog stands on a yellow rectangular patch. To the left, a figure in a dark suit is seated, leaning forward. To the right, a figure in a dark suit is seated, looking towards the center. In the background, a figure in a military uniform with a red sash and medals is seated, holding a brush to their face. Another figure is visible in the upper right corner. Various objects, including a small table with a cross on it, a box, and some papers, are scattered around. The overall style is characteristic of Grosz's satirical and expressionist work.

*Communism and the Avant-Garde in Weimar Germany* Ben Fowkes, 2022-11-14. How did the revolutionary Left view cultural modernists? Their uneasy relationship is illustrated in this book with quotations ranging from Alexander's 'Dada is merely an impertinence' through Trotsky's 'There cannot be a proletarian culture' to Averbakh's 'Tear off the masks' and Becher's 'There can only be one kind of genuine art: fighting art'. This book covers communist attitudes to the whole field of cultural innovation from the art of the left abstractionists to the literature of the worker correspondent movement and the music of Weill and Eisler through to proletarian film theatre and photography and takes full account of the impact on Weimar left culture of external events such as the First World War, the Great Change in the Soviet Union and internal German developments such as the failure of revolution after 1918 and the rise of Nazism. Each chapter starts with an introduction that provides a context to the documents and indicates the current state of research.

**Hitler Youth** Michael H. Kater, 2009-06-30. In modern times the recruitment of children into a political organization and ideology reached its boldest embodiment in the Hitler Youth founded in 1933 soon after the Nazi Party assumed power in Germany. Determining that by age ten children's minds could be turned from play to politics the regime inducted nearly all German juveniles between the ages of ten and eighteen into its state-run organization. The result was a potent tool for bending young minds and hearts to the will of Adolf Hitler. Baldur von Schirach headed a strict chain of command whose goal was to shift the adolescents' sense of obedience from home and school to the racially defined Volk and the Third Reich. Luring boys and girls into Hitler Youth ranks by offering them status, uniforms and weekend hikes the Nazis turned campgrounds into premilitary training sites, air guns into machine guns, sing-alongs into marching drills, instruction into indoctrination and children into Nazis. A few resisted for personal or political reasons but the overwhelming majority enlisted. Drawing on original reports, letters, diaries and memoirs, Michael H. Kater traces the history of the Hitler Youth.

examining the means degree and impact of conversion and the subsequent fate of young recruits Millions of Hitler Youth joined the armed forces thousands gleefully participated in the subjugation of foreign peoples and the obliteration of racial aliens Although young they committed crimes against humanity for which they cannot escape judgment Their story stands as a harsh reminder of the moral bankruptcy of regimes that make children complicit in crimes of the state     **Art as Politics in the Third Reich** Jonathan Petropoulos,1999-02-01 The political elite of Nazi Germany perceived itself as a cultural elite as well In Art as Politics in the Third Reich Jonathan Petropoulos explores the elite s cultural aspirations by examining both the formulation of a national aesthetic policy
