George Inness An American Landscape Pain:

George Inness Elizabeth McCausland,1978 George Inness and the Science of Landscape Rachael Z.

DeLue,2008-09-15 George Inness 1825 94 long considered one of America s greatest landscape painters has yet to receive his full due from scholars and critics A complicated artist and thinker Inness painted stunningly beautiful evocative views of the American countryside Less interested in representing the details of a particular place than in rendering the subjective mystery of nature Inness believed that capturing the spirit or essence of a natural scene could point to a reality beyond the physical or as Inness put it the reality of the unseen Throughout his career Inness struggled to make visible what was invisible to the human eye by combining a deep interest in nineteenth century scientific inquiry including optics psychology physiology and mathematics with an idiosyncratic brand of mysticism Rachael Ziady DeLue s George Inness and the Science of Landscape the first in depth examination of Inness s career to appear in several decades demonstrates how the artistic spiritual and scientific aspects of Inness s art found expression in his masterful landscapes In fact Inness s practice was not merely shaped by his preoccupation with the nature and limits of human perception he conceived of his labor as a science in its own right This lavishly illustrated work reveals Inness as profoundly invested in the science and philosophy of his time and illuminates the complex manner in which the fields of art and science intersected in nineteenth century America Long awaited this reevaluation of one of the major figures of nineteenth century American art will prove to be a seminal text in the fields of art history and American studies **George Inness** Nicolai Cikovsky Jr.,1993-10-15 George Inness 1825 1894 was a pivotal force in 19th century landscape painting first for his blending of Hudson River School and European styles and later for his poetic impressionism Acclaimed during his lifetime Inness work fell victim to changing 20th century taste as did the French Barbizon School Now both are becoming greatly valued again *George Inness and the Visionary Landscape*

Adrienne Baxter Bell,2015-01-13 The essential book on the innovative American landscape painter with a new preface by the author A rare valuable and luminously illustrated monograph Booklist This eloquent examination of Inness most important paintings illuminates the artist s philosophical and religious preoccupations It provides an overview of his life and situates Inness within the contexts of key issues in American history such as the Hudson River School Transcendentalism

Swedenborgianism and the work of William James It explains for the first time how Inness treated landscape painting as a form of philosophical inquiry that could communicate his holistic belief in the unity of nature and spirit Bell s handsomely illustrated eloquently written and well documented text considerably expands previous scholarship A first rate study Highly recommended Choice George Inness and the Visionary Landscape Adrienne Baxter Bell,George Inness,2003 The

landscape painter George Inness 1825 1894 was one of the foremost American artists of his generation Born in Newburgh New York Inness studied the works of the old masters and as a young man painted in the reigning style of the Hudson River School Within a few years however he found himself more attuned to the gestural expressive approach of the Barbizon

School He greatly admired the free handling of paint and the expression of soulfulness in the works of Theodore Rousseau Equally important were Inness's philosophical and spiritual concerns Along with contemporaries Ralph Waldo Emerson Elizabeth Barrett Browning and Walt Whitman Inness studied the writings of the Swedish scientist turned mystic Emanuel Swedenborg 1688 1772 During a trip to Italy in the early 1870s Inness began to structure his landscapes around geometric forms a development that may have reflected the Swedenborgian idea that the natural world corresponds to the spiritual world and that geometric forms possess spiritual identities Through these and other compositional devices Inness created paintings to inspire an almost religious experience in his viewers George Inness and the Visionary Landscape includes forty color reproductions of Inness's most important paintings and presents both a chronological overview of Inness's life and a more focused treatment of the artist's main philosophical and religious preoccupations It suggests resonances between Inness's visionary landscapes and the concurrent efforts on the part of the psychologist philosopher William James 1842 1910 to validate the existence of mystical states of mind It shows Inness to have anticipated many of the most important tenets of modernism an achievement that continues to inspire contemporary audiences George Inness George Inness, 1987

George Inness Elizabeth MacCausland, George Inness, 1956 **George Inness: Selected Paintings** Lorita Barchard, 2017-09-30 George Inness 1825 1894 was a prominent American landscape painter One of the most influential American artists of the nineteenth century Inness was influenced in turn by the Old Masters the Hudson River school the Barbizon school and finally the theology of Emanuel Swedenborg whose spiritualism found vivid expression in the work of Inness's maturity 1879 1894 Although Inness's style evolved through distinct stages over a prolific career that spanned more than forty years and 1 000 paintings his works consistently earned acclaim for their powerful coordinated efforts to elicit depth of mood atmosphere and emotion Neither pure realist nor impressionist Inness was a transitional figure who intended for his works to combine both the earthly and the ethereal in order to capture the complete essence of a locale A master of light color and shadow he became noted for creating highly ordered and complex scenes that often juxtaposed hazy or blurred elements with sharp and refined details to evoke an interweaving of both the physical and the spiritual nature of experience In Inness's words he attempted through his art to demonstrate the reality of the unseen and to connect the visible upon the invisible Within his own lifetime art critics hailed Inness as one of America's greatest artists Often called the father of American landscape painting Inness is best known for his mature works that not only exemplified the Tonalist movement but also displayed an original and uniquely American style **George Inness, Presence of the Unseen** George Inness, Gail Stavitsky, 1994 George Inness Adrienne Baxter Bell, 2006 Luminist Horizons celebrates the art and collection of James A Suydam 1819 1865 an American landscapist best known for his luminist paintings Despite the fact that his name has been linked with luminism since the term was first coined Suydam has not received the scholarly attention he deserves With approximately 180 reproductions eighty in color this book considers Suydam's work in tandem with that of fellow Hudson

River School artists such as Asher B Durand Frederic E Church and John F Kensett and therefore contributes an important chapter to the history of American landscape painting Significantly Suydam s enduring legacy extends beyond his own creative output his passionate commitment to art motivated his encouragement of emerging artists and his purchase of their paintings When Suydam died he bequeathed ninety two contemporary American and European paintings to the Academy a gift that formed the nucleus of the Academy s permanent collection Luminist Horizons accompanies an exhibition that opens at the National Academy Museum in New York in September 2006 before traveling to the Taft Museum of Art Cincinnati Ohio and the Telfair Museum of Art Savannah Georgia 80 color illustrations 100 in black and white American Landscape Painting ,1941 *George Inness* Adrienne Baxter Bell,2006-12-26 The American landscape painter George Inness 1825 1894 was one of the most thoughtful and inventive artists of his generation George Inness and the Visionary Landscape presents both a concise overview of Inness s life and work and a focused examination of his philosophical and religious preoccupations It shows how Inness inspired by the ideas of the scientist mystic Emanuel Swedenborg 1688 1772 devised a new artistic vocabulary to convey his understanding of the personal visionary experience Moreover it reveals commonalities between Inness s prescient work and efforts by the psychologist philosopher William James 1842 1910 to validate mystical states of mind It explains for the first time how Inness treated landscape painting as a form of philosophical inquiry that could communicate his holistic belief in the unity of nature and spirit *American Paradise* Metropolitan Museum of Art (New York, N.Y.),1987 Traces the history of the Hudson River School of American painters shows works by Church Cole and Inness and describes the background of each painting **Nature and Culture : American Landscape and Painting, 1825-1875, With a New Preface** Barbara Novak Altschul Professor of Art History Barnard College and Columbia University (Emerita),2007-01-05 In this richly illustrated volume featuring more than fifty black and white illustrations and a beautiful eight page color insert Barbara Novak describes how for fifty extraordinary years American society drew from the idea of Nature its most cherished ideals Between 1825 and 1875 all kinds of Americans artists writers scientists as well as everyday citizens believed that God in Nature could resolve human contradictions and that nature itself confirmed the American destiny Using diaries and letters of the artists as well as quotes from literary texts journals and periodicals Novak illuminates the range of ideas projected onto the American landscape by painters such as Thomas Cole Albert Bierstadt Frederic Edwin Church Asher B Durand Fitz H Lane and Martin J Heade and writers such as Ralph Waldo Emerson Henry David Thoreau and Frederich Wilhelm von Schelling Now with a new preface this spectacular volume captures a vast cultural panorama It beautifully demonstrates how the idea of nature served not only as a vehicle for artistic creation but as its ideal form An impressive achievement Barbara Rose The New York Times Book Review An admirable blend of ambition elan and hard research Not just an art book it bears on some of the deepest fantasies of American culture as a whole Robert Hughes Time Magazine **American Paintings and Sculpture at the Sterling and Francine Clark Art Institute** Margaret C.

 Fraser, 2012-01-01 Trains Literature and Culture Reading and Writing the Rails delves into the rich connections between rail
 travel and the creation of cultural products from short stories to novels from photographs to travel guides and from artistic
 manifestos of the avant garde to Freud's psychology Each of the contributions engages in critical readings of textual or visual
 representations of trains across a wide spectrum of time periods and traditions from English and American to Mexican West
 African and European literary cultures By turns trope metaphor and emblem of technological progress these textual and
 visual representations of the train serve at times to index racial and gender inequalities to herald the arrival of a nation's
 independence and at still others to evince the trauma of industrialization In each instance the figure of the train emerges as a
