[How Romantics and Victorians Organized Information](#) Jillian M. Hess, 2022-06-02 Every literary household in nineteenth century Britain had a commonplace book scrapbook or album Coleridge called his collection Fly Catchers while George Eliot referred to one of her commonplace books as a Quarry and Michael Faraday kept quotations in his Philosophical Miscellany Nevertheless the nineteenth century commonplace book along with associated traditions like the scrapbook and album remain understudied This book tells the story of how technological and social changes altered methods for gathering storing and organizing information in nineteenth century Britain As the commonplace book moved out of the schoolroom and into the home it took on elements of the friendship album At the same time the explosion of print allowed readers to cheaply cut and paste extractions rather than copying out quotations by hand Built on the evidence of over 300 manuscripts this volume unearths the composition practices of well known writers such as Samuel Taylor Coleridge Sir Walter Scott George Eliot and Alfred Lord Tennyson and their less well known contemporaries Divided into two sections the first half of the book contends that methods for organizing knowledge developed in line with the period's dominant epistemic frameworks while the second half argues that commonplace books helped Romantics and Victorians organize people Chapters focus on prominent organizational methods in nineteenth century commonplacing often attached to an associated epistemic virtue diaristic forms and the imagination Chapter Two real time entries signalling objectivity Chapter Three antiquarian remnants serving as empirical evidence for historical arguments Chapter Four communally produced commonplace books that attest to socially constructed knowledge Chapter Five and blank spaces in commonplace books of mourning Chapter Six Richly illustrated this book brings an archive of commonplace books scrapbooks and albums to the reader

Victorian Cultures of Liminality Amina Alyal, Susan Anderson, 2018-07-27 This volume is unique in its focus on cross fertilisation in the arts on very specific exploration of liminal spaces and on the

representation of marginal figures in writing The essays here grew out of the Borders and Margins colloquium held at Leeds Trinity University UK in April 2010 which was the fourth in a series of colloquia This collection moreover contributes to a growing area of scholarship which explores Anglo French interactions and exchanges In choosing the term liminality the editors are aware of its nuanced implications allowing suggestions both of the initial and the transitional The contributors here are academics from the fields of literature history and art history and their essays cover art history literature cultural history the arts and faith Altogether this collection evokes a sense of temporal shift in that changes in values and focus are uncovered as the nineteenth century progresses Some have an ekphrastic quality showing how pictures can have a narrative and how pictures as well as texts can be encoded with moral and social interpretations Close scrutiny is applied to different kinds of texts fiction and non fiction and the purposes for which they were produced This book will appeal to scholars and academics interested in a wide range of cross categorisational transactions in nineteenth century Britain It will be of interest to scholars of Victorian culture and English nineteenth century literature and art particularly in terms of genre as well as to academics interested in the development of social personal and national identities

letters and journals Part IV gives close scrutiny to those aspects of literary form which characterise Eliot's writing particularly her preoccupation with genre and her handling of voice both that of her narrators and her characters Part V assesses the complexity of Eliot's legacy for later writers concluding with five shorter essays which tackle the nature and impact of the enduring cultural status of *Middlemarch* as a often declared the great English novel
