Psychotherapy David A. Winter,Linda Viney,2008-09-15 In the half century that has passed since George Kelly put forward his psychology of personal constructs there have been major advances in the form of psychotherapy derived from his theory This book presents developments in the personal construct theory perspective on psychological disorders and their treatment in the context of contemporary issues in psychotherapy illustrates the diverse range of personal construct psychotherapy approaches that have been devised for a wide range of clinical problems and indicates the growing evidence base for these approaches It contains contributions from most of the leading international practitioners in the field It will not only be of interest to psychotherapists other clinicians academics and students who are already familiar with personal construct theory or constructivism but also to those who are seeking a therapeutic approach which is integrative but has a clear theoretical rationale and which is able to combine humanism with rigour Investigation of Organized Crime in Interstate Commerce United States. desires Kelly's personal construct theory for thinking and Angyal's holistic concepts of personality. Each theory is given a detailed analysis in separate chapters. Freud's psychoanalytic theory is cast as a theory of motivation. Kelly's personal construct theory as a theory of cognition and then it is noted that there is no comprehensive theory of personality based on emotion. Although Angyal's holistic theory is rarely described in modern textbooks, Lester includes this because none of the other holistic theorists rival Angyal in their range of hypothetical constructs or descriptive terms. Then in sections dealing with alternative viewpoints, the author shows how other personality theorists actually endorse and expand upon the ideas expressed by the aforementioned three, albeit with different terminology. Recognizing the diversity of holistic views in theories of personality, several counterpoint chapters are devoted to the holistic ideas. Lester separates these into three major areas: theorists who have focused on the split in the mind between the real and ideal self; recent theorists who explore the possibility that the mind is a multiplicity of selves; and theorists who, though not having their viewpoints sufficiently articulated in the literature, are still well established in the history of psychology. Other features include a presentation of the material in modern viewpoints instead of the precise and perhaps outdated style as written by the individual theorists and boxed highlights in each section providing students with practical capsule information for easy reading.

Staging Desire Kimberley Bell Marra, Robert A. Schanke, 2023-06-20 Staging Desire gathers critical and biographical essays on notable stage personalities who made their mark before 1969 when the Stonewall riots accelerated the lesbian and gay rights movement in the United States. How they staged their unconventional sexualities greatly influenced the course of their personal and professional lives and thus the course of American theater history. The book builds on an earlier collection, the well-received Passing Performances, which focused on actors, directors, producers, and agents by examining playwrights, lyricists, critics, and designers. Shaping theatrical representations from offstage, these practitioners exploited the special opportunities theater offered as a complex and many-layered medium for expression of transgressive desire. Essays cover the careers of major figures: Clyde Fitch, Rachel Crothers, Mercedes de Acosta, Djuna Barnes, Cole Porter, Lorenz Hart, George Kelly, William Inge, James Acorn Oaks, Adam Vagabond, Badeau, Eric Bentley, Loie Fuller, Robert Edmond Jones, and Jean Rosenthal. Grounded in research into the history of sexuality, the book engages central problems of terminology and evidence in analyzing sexual practices of the past and the modes of articulation of sexuality in theater conditioned by American culture's peculiar anxieties about both. Kim Marra is Associate Professor of Theatre Arts, University of Iowa. Robert A. Schanke is Professor of Theatre, Central College, Iowa. They edited Passing Performances: Queer Readings of Leading Players in American Theater History, a previous volume in this series.

Constructivist Psychotherapy Gabriele Chiari, Maria Laura Nuzzo, 2009-09-29 Psychotherapy has undergone major

changes in recent years with a variety of new approaches including cognitive behavioural therapy joining the more traditional and widespread schools of thought. These new approaches all share the epistemological assumption of constructivism which states that there are alternative ways of looking at events and that we interpret events according to how we see the world. Constructivist Psychotherapy reviews the constructivist trends in psychotherapy which link these new approaches allowing the reader to enter an entirely new dialogue. The book traces constructivist thought elaborating on Kelly's personal construct theory and the implications for psychotherapeutic theory and practice. Areas of discussion include the therapist's understanding of the client's narrative, a constructivist understanding of the person, psychological constructivism and constructivist trends in psychotherapy. Setting constructivist psychotherapy within its therapeutic, social and philosophical context and using case studies throughout the book revisits Kellian ideas and theories bringing them up to date to explore what it is to be a constructivist psychotherapist today. As such, this book will be of interest to all psychotherapists as well as anyone with an interest in the psychotherapeutic field.

Wanted Women Mary Elizabeth Strunk, 2010-09-18 The iconic photo of Bonnie Parker, cigar clenched in jaw, pistol in hand, says it all: America loves its bad girls. Now Mary Elizabeth Strunk tells us why. *Wanted Women* is a startling look at the lives and legends of ten female outlaws who gained notoriety during the tumultuous decades that bracketed the tenure of FBI director J. Edgar Hoover. Strunk looks at real-life events and fictional portrayals to decipher what our obsession with these women says about shifting gender roles, evolving law enforcement practices and American cultural attitudes in general. These women's stories reveal what it takes and what it has meant to be a high-profile female lawbreaker in America. Strunk introduces us to Kathryn Mrs. Machine Gun Kelly, Ma Barker and Bonnie Parker from the 1930s and from the 1970s we meet heiress turned revolutionary Patty Hearst, five other women of the Symbionese Liberation Army and Black Panther Assata Shakur. All saw themselves as struggling against an oppressive legal system. All became wanted criminals and would play a part in shaping Hoover's legacy. And all spent enormous amounts of energy attempting to manipulate public opinion in their favor. Strunk argues that each woman's public persona was to some degree invented by Hoover, who saw outlaw women as an alarming threat to public morality. He went after them with a vengeance, but in many ways his obsession only added to their reputations. Strunk shows how Hoover's repeated use of popular culture to publicize the threat of violent women initially succeeded in strengthening his FBI, but his approach became a liability by the time law enforcement was pitted against the women outlaws of the 1970s. The book chronicles the careers of these infamous outlaws both in the real world and in popular culture: film, ads, true crime stories, autobiographies, as well as Hoover's own forays into filmmaking. It boasts 27 compelling images of movie stills, wanted posters and other ephemera that have been assembled nowhere else, including rarely reproduced SLA artifacts. Strunk's book is the first study to define the narrow formula necessary for a woman to cross over

from criminal to outlaw Hitting on key notes of American culture from Black and gender studies to cinematic and legal history *Wanted Women* sets a new benchmark for how we view women and crime as it contributes fresh insights into twentieth century social history *A Complete Collection of State-trials, and Proceedings for High-treason, and Other Crimes and Misdemeanours: 1715-1725.
