**George W. Bushisms V** Jacob Weisberg, 2006-03-21 I can only speak to myself True and yet we must listen Sometimes his accidental wit speaks louder than any prepared statement Our enemies are innovative and resourceful and so are we They never stop thinking about new ways to harm our country and our people and neither do we I always jest to people the Oval Office is the kind of place where people stand outside they re getting ready to come in and tell me what for and they walk in and get overwhelmed by the atmosphere And they say Man you re looking pretty I m honored to shake the hand of a brave Iraqi citizen who had his hand cut off by Saddam Hussein Thanks to the faithful work of Jacob Weisberg the wisdom of George W Bush America s Malapropist in Chief has been carefully preserved for the ages in annual editions Now that the president is armed with a new and unprecedented popular electoral victory America can breathe a sigh of relief or as the president once put it we can thank our blessings The language experiments will continue Stand up comedians will enjoy full employment With George W Bushisms V the second term truly begins *The State of the American Mind: Stupor and Pathetic Docility* Amechi Okolo PhD, 2010-06-10 This book *The State of the American Mind Stupor and Pathetic Docility* Volume One begins to unravel some of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This book therefore shatters the two dominant themes of Americas history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Obama famously told us in his race speech Thus the

crowning lesson of this book in addition to discussing some critical policy issues like education health care etc is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry their universal history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good powerful achieving citizens do not normally emigrate to new uncharted lands

**Sovereignty, Inc.** William Mazzarella,Eric L. Satner,Aaron Schuster,2024-05-31 What does the name Trump stand for If branding now rules over the production of value as the coauthors of *Sovereignty Inc* argue then Trump assumes the status of a master brand whose primary activity is the compulsive work of self branding such is the new

sovereignty business in which whether one belongs to his base or not we are all incorporated Drawing on anthropology political theory philosophy psychoanalysis and theater William Mazzarella Eric L Santner and Aaron Schuster show how politics in the age of Trump functions by mobilizing a contradictory and convoluted enjoyment an explosive mixture of drives and fantasies that eludes existing portraits of our era The current political moment turns out to be not so much exceptional as exceptionally revealing of the constitutive tension between enjoyment and economy that has always been a key component of the social order Santner analyzes the collective dream work that sustains a new sort of authoritarian charisma or mana a mana facturing process that keeps us riveted to an excessively carnal incorporation of sovereignty Mazzarella examines the contemporary merger of consumer brand and political brand and the cross contamination of politics and economics warning against all too easy laments about the corruption of politics by marketing Schuster focusing on the extreme theatricality and self satirical comedy of the present shows how authority reasserts itself at the very moment of distrust and disillusionment in the system profiting off its supposed decline A dazzling diagnostic of our present Sovereignty Inc forces us to come to terms with our complicity in Trump s political presence and will immediately take its place in discussions of contemporary politics
