*Surrealism Against the Current* Michael Richardson, Krzysztof Fijalkowski, 2001-09-20 Bringing together many Surrealist texts that have never previously been available in English this collection is an essential guide for anyone who wishes to understand the Surrealist movement It traces its development in the words of the Surrealists themselves offering a definitive expression of Surrealism as a collective movement It shows the extent of Surrealist positions and interests and shows how having become a major cultural phenomenon of the twentieth century the issues it has raised remain central to current debates Covering the period 1922-91 these texts illuminate its philosophical political and ethical positions and locate Surrealism in a broader social and cultural context Comprising statements from Surrealist groups in Paris Belgium Romania Sweden and Czechoslovakia and signed by the major participants it reveals the international dimension of Surrealism

Surreal Lives Ruth Brandon, 2000-08 A sharp analysis of the Surrealist movement and the group of writers painters and filmmakers who set out to change the perception of the world Photographs      **Historical Dictionary of Surrealism** Will Atkin, 2021-12-10 The Surrealist Movement is an international intellectual movement that has led a sustained questioning of the basis of human experience under twentieth and twenty first century modernity since its founding in the early 1920s Influenced by the psychoanalytical teachings of Sigmund Freud Surrealism emerged among the generation that had witnessed the insanity and horror of the First World War and was conceived of as a framework for investigating the little understood phenomena of dreams and the unconscious In these territories the surrealists recognized an alternative axis of human experience that did not align with the rational workaday rhythms of modern life and which instead revealed the extent to which individual subjectivity had been constrained by post Enlightenment rationalism and by the economic forces governing the post industrial world Against these trends the Surrealist Movement has sought to re evaluate the foundations of modern society and reassert the primacy of the imagination for almost a century to date This book offers focused

introductions to numerous writers poets artists filmmakers precursors groups movements events concepts cultures nations and publications connected to Surrealism providing orientation for students and casual readers alike Historical Dictionary of Surrealism Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 200 cross referenced entries on the Surrealist Movement s engagement with the realms of politics philosophy science poetry art and cinema and charts the international surrealist community s diverse explorations of specific thematic territories such as magic occultism mythology eroticism and gothicism This book is an excellent resource for students researchers and anyone wanting to know more about surrealism *Transition*, 1927 *The Colours of the Empire* Patrícia Ferraz de Matos, 2013-02-01 The Portuguese Colonial Empire established its base in Africa in the fifteenth century and would not be dissolved until 1975 This book investigates how the different populations under Portuguese rule were represented within the context of the Colonial Empire by examining the relationship between these representations and the meanings attached to the notion of race Colour for example an apparently objective criterion of classification became a synonym or near synonym for race a more abstract notion for which attempts were made to establish scientific credibility Through her analysis of government documents colonial propaganda materials and interviews the author employs an anthropological perspective to examine how the existence of racist theories originating in the eighteenth and nineteenth centuries went on to inform the policy of the Estado Novo Second Republic 1933 1974 and the production of academic literature on race in Portugal This study provides insight into the relationship between the racist formulations disseminated in Portugal and the racist theories produced from the eighteenth century onward in Europe and beyond Luis Buñuel Román Gubern, Paul Hammond, 2012-01-04 The turbulent years of the 1930s were of profound importance in the life of Spanish film director Luis Buñuel 1900 1983 He joined the Surrealist movement in 1929 but by 1932 had renounced it and embraced Communism During the Spanish Civil War 1936 39 he played an integral role in disseminating film propaganda in Paris for the Spanish Republican cause Luis Buñuel The Red Years 1929 1939 investigates Buñuel s commitment to making the politicized documentary *Land without Bread* 1933 and his key role as an executive producer at Film Fono in Madrid where he was responsible in 1935 36 for making four commercial features that prefigure his work in Mexico after 1946 As for the republics of France and Spain between which Buñuel shuttled during the 1930s these became equally embattled as left and right totalitarianisms fought to wrest political power away from a debilitated capitalism Where it exists the literature on this crucial decade of the film director s life is scant and relies on Buñuel s own self interested accounts of that complex period Román Gubern and Paul Hammond have undertaken extensive archival research in Europe and the United States and evaluated Buñuel s accounts and those of historians and film writers to achieve a portrait of Buñuel s Red Years that abounds in new information **Luis Bunuel** Peter William Evans, Isabel Santaolalla, 2019-07-25 This text ranges widely over key films and moments from stages of Luis Bunuel s career It locates and re appraises Bunuel s films with particular emphasis on

the national cinemas and varied cultures with which he was identified     *James Joyce's 'Work in Progress'* Dirk Van Hulle, 2016-04-28 The text of *Finnegans Wake* is not as monolithic as it might seem It grew out of a set of short vignettes sections and fragments Several of these sections which James Joyce confidently claimed would fuse of themselves are still recognizable in the text of *Finnegans Wake* And while they are undeniably integrated very skillfully they also function separately In this publication history Dirk Van Hulle examines the interaction between the private composition process and the public life of Joyce's *Work in Progress* from the creation of the separate sections through their publication in periodicals and as separately published sections Van Hulle highlights the beautifully crafted editions published by fine arts presses and Joyce's encouragement of his daughter's creative talents even as his own creative process was slowing down in the 1930s All of these pre-book publications were alive in both bibliographic and textual terms as Joyce continually changed the texts in order to prepare the book publication of *Finnegans Wake* Van Hulle's book offers a fresh perspective on these texts showing that they are not just preparatory versions of *Finnegans Wake* but a *Work in Progress* in their own right     **A Short Survey**

**of Surrealism** David Gascoyne, 1970 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company     *Transition* Eugène Jolas, 1927     *Jean Dubuffet, Bricoleur* Stephanie Chadwick, 2022-02-10 One of the most prolific and influential artists of the 20th century Jean Dubuffet has featured in a multitude of exhibitions and catalogues Yet he remains one of the most misunderstood and least interrogated postwar French artists Celebrating Art Brut the art of ostensible outsiders while posing as an outsider himself Dubuffet mingled with many great artists writers and theorists developing an elaborate and nuanced stream of conceptual resources to reconfigure painting and reframe postwar anticultural discourses This book reexamines Dubuffet's art through the lens of these portraits a veritable who's who of the Parisian art and intellectual scene in tandem with his writings and the art and writings of his Surrealist sitters Investigating Dubuffet's painting as bricolage this book reveals his reliance upon an anticulture culture and the appropriation of motifs from Surrealism to the South Pacific to explore the themes of multivalence performativity and multifaceted identity in his portraits

Hybrid Modernities P. A. Morton, 2000 A look at how the 1931 International Colonial Exposition in Paris created hybrids of French and colonial culture     **Unconsciousness Between Phenomenology and Psychoanalysis** Dorothée Legrand, Dylan Trigg, 2017-05-18 This book contains a series of essays that explore the concept of unconsciousness as it is situated between phenomenology and psychoanalysis A leading goal of the collection is to carve out phenomenological dimensions within psychoanalysis and equally to carve out psychoanalytical dimensions within phenomenology The book examines the nature of unconsciousness and the role it plays in structuring our sense of self It also looks at the extent to which the unconscious marks the body as it functions outside of experience as well as manifests itself in experience In addition the book explores the relationship between unconsciousness and language particularly if unconsciousness exists prior to language or if the concept can only be understood through speech The collection includes contributions from leading

scholars each of whom grounds their investigations in a nuanced mastery of the traditional voices of their fields These contributors provide diverse viewpoints that challenge both the phenomenological and psychoanalytical traditions in their relation to unconsciousness

**The Aesthetics of the Undersea** Margaret Cohen, Killian Quigley, 2018-12-20 Among global environments the undersea is unique in the challenges it poses and the opportunities it affords for sensation perception inquiry and fantasy The Aesthetics of the Undersea draws case studies in such potencies from the subaqueous imaginings of Western culture and from the undersea realities that have inspired them The chapters explore aesthetic engagements with underwater worlds and sustain a concern with submarine sense in several meanings of that word when submerged faculties and fantasies transform confronting human subjects with their limitations while enlarging the apparent scope of possibility and invention Terrestrially established categories and contours shift metamorphose or fail altogether to apply As ocean health acquires an increasing share of the global environmental imaginary the histories of submarine sense manifest ever greater importance and offer resources for documentation as well as creativity The chapters deal with the sensory material and formal provocations of the underwater environment and consider the consequences of such provocations for aesthetic and epistemological paradigms Contributors who hail from the United States United Kingdom and Australia include scholars of

literature art new media music and history Cases studies range from baroque and rococo fantasies to the gothic surrealism modernism and contemporary installation art By juxtaposing early modern and Enlightenment contexts with matters of more recent and indeed contemporary importance The Aesthetics of the Undersea establishes crucial relations among temporally remote entities which will resonate across the environmental humanities
