Rainbolt, 2006-07-08 Discussions of rights are ubiquitous One constantly hears things such as The Chinese are violating Tibetan rights Landlords have a right that their tenants pay their rent Students have a right to be graded fairly Animals have a right not to suffer merely to bring pleasure to humans Abortion violates a fetus right to life We violate the rights of future generations when we pollute the water These statements assert that Tibetans landlords students animals fetuses and future generations all have rights Tibetans landlords students animals fetuses and future generations do not seem to have much in common When one presses for clarity it is very difficult to say precisely what a right is What is it to have a right That is the question this book seeks to answer To paint with an overly broad brush previous answers to this question can be divided into two groups Some hold interest benefit theories of rights while others hold choice will theories of rights Perhaps the first person to propose an interest benefit theory was Jeremy Bentham Its most cited contemporary defender is Joseph Raz The seminal statement of the choice theory was made by H L A Hart Carl Wellman is perhaps the most able defender of a will theory of rights The debate between these two groups of theories has been a productive one      *James Jackson* William O. Foster, 2009-05-01 Published in 1960 this biography examines the life of James Jackson a general in the Revolutionary War and later governor congressman and

senator to Georgia Jackson advocated strict construction of the Constitution states rights and the welfare of the common man He was a dominant figure in the affairs of Georgia during the last decade of his life and was at the center of the Yazoo controversy where he worked for the repeal of the land sales Foster s portrayal shows Jackson as a strong personality with a fiery disposition who played an important role in the history of the state What Hath God Wrought Daniel Walker Howe,2007-10-29 A panoramic history of the United States ranges from the 1815 Battle of New Orleans to the end of the Mexican American War interweaving political and military events with social economic and cultural history *The Congressional Globe* United States.
