Race and the Greening of Atlanta Christopher C. Sellers, 2023-08-15 *Race and the Greening of Atlanta* turns an environmental lens on Atlanta's ascent to thriving capital of the Sunbelt over the twentieth century. Uniquely wide ranging in scale from the city's variegated neighborhoods up to its place in regional and national political economies, this book reinterprets the fall of Jim Crow as a democratization born of two metropolitan movements: a well-known one for civil rights and a lesser-known one on behalf of the environment. Arising out of Atlanta's Black and white middle classes respectively, both movements owed much to New Deal capitalism's undermining of concentrated wealth and power, if not racial segregation in the Jim Crow South. Placing these two movements on the same historical page, Christopher C. Sellers spotlights those environmental inequities, ideals, and provocations that catalyzed their divergent political projects. He then follows the intermittent, sometimes vital alliances they struck as civil rights activists tackled poverty as a new environmental state arose and as Black politicians began winning elections. Into the 1980s, as a wealth-concentrating style of capitalism returned to the city and Atlanta became a national poster child for sprawl, the seedbeds spread both for a national environmental justice movement and for an influential new style of antistatism. Sellers contends that this new conservatism, sweeping the South with an anti-environmentalism and budding white nationalism that echoed the region's Jim Crow past, once again challenged the democracy Atlantans had achieved.

Crisis William Edward Burghardt Du Bois, 1917 *The Guns of August 2008* Svante E. Cornell, S. Frederick Starr, 2009-06-08 In the summer of 2008, a conflict that appeared to have begun in the breakaway Georgian territory of South Ossetia rapidly escalated to become the most significant crisis in European security in a decade. The implications of the Russian-Georgian war will be understood differently depending on one's narrative of what transpired and perspective on the broader context. This book is designed to present the facts about the events of August 2008 along with comprehensive coverage of the background to those events. It brings together a wealth of expertise on the South Caucasus and Russian foreign policy with contributions by Russian, Georgian, European, and American experts on the region.

Public Budgeting in Georgia Thomas P. Lauth, 2021-08-31 This book describes the institutions and process through which the Georgia General Assembly adopts a budget, the executive-legislative branch politics that transpire during the process, and the tax and spending policies that the process produces. It argues that the state's budget is developed by fiscal conservatives within a culture of fiscal conservatism that is conducive to low taxes and low spending. It identifies the patterns and trends of taxing and spending over several decades and during the administrations of nine governors. Its chapter on the line-item veto illustrates the nature of executive-legislative budget relationships in the state. It concludes with an examination of the important milestones in the evolution of Georgia budgeting and a comparison of Georgia with other states on several dimensions. The book offers insights and assessments that will be of interest to budgeting scholars, students of state government, and citizens who want to know more about how government taxing and

spending decisions are made **Routledge Handbook of National and Regional Ocean Policies** Biliana Cicin-Sain, David Vanderzwaag, Miriam C. Balgos, 2015-05-15 This comprehensive handbook prepared by leading ocean policy academics and practitioners from around the world presents in depth analyses of the experiences of fifteen developed and developing nations and four key regions of the world that have taken concrete steps toward cross cutting and integrated national and regional ocean policy All chapters follow a common framework for policy analysis While most coastal nations of the world already have a variety of sectoral policies in place to manage different uses of the ocean such as shipping fishing oil and gas development in the last two decades the coastal nations covered in the book have undertaken concerted efforts to articulate and implement an integrated ecosystem based vision for the governance of ocean areas under their jurisdiction This includes goals and procedures to harmonize existing uses and laws to foster sustainable development of ocean areas to protect biodiversity and vulnerable resources and ecosystems and to coordinate the actions of the many government agencies that are typically involved in oceans affairs The book highlights the serious conflicts of use in most national ocean zones and the varying attempts by nations to follow the prescriptions emanating from the 1982 UN Law of the Sea Convention and the outcomes of the 1992 2002 and 2012 sustainable development summits The interrelationship among uses and processes in the coast and ocean requires that ocean governance be integrated precautionary and anticipatory Overall the book provides a definitive state of the art review and analysis of national and regional ocean policies around the world **Special Report - Highway Research Board** National Research Council (U.S.). Highway Research Board, 1961 **Public Documents of Massachusetts** Massachusetts, 1905 Report of the Librarian and Annual Supplement to the General Catalogue State Library of Massachusetts, 1905 **Directory of History Departments, Historical Organizations, and Historians**, 2005 Strengthening Infrastructure Governance for Climate-Responsive Public Investment International Monetary Fund, International Monetary Fund. Fiscal Affairs Dept., 2021-12-22 Countries have committed through the Paris Agreement and the Sustainable Development Goals SDGs to pursue climate targets and policies that would limit global temperature rise to well below 2 degrees Celsius compared to pre industrial levels A shift toward green public investment will help to mitigate greenhouse gas GHG emissions In addition substantial public investment will be necessary to build public infrastructure that makes economies more resilient to climate change and related natural disasters Climate change mitigation and adaptation challenges thus compound preexisting needs for public investment to foster the economic recovery from the pandemic and to meet the SDGs in a broader range of areas often in a context of limited fiscal space Against this backdrop a priority for all countries is to manage their public investment efficiently and effectively To help countries improve the institutions and processes for infrastructure governance the planning allocation and implementation of public investment the IMF developed in 2015 the Public Investment Management Assessment PIMA which has already been applied in over 70 countries However the current PIMA does not provide a sufficiently tailored assessment of how public investment management can support

climate change mitigation and adaptation To fill this gap this paper introduces a new module to the to the current Public Investment Management Assessment PIMA framework the Climate PIMA C PIMA whose goal is to help governments identify potential improvements in public investment institutions and processes to build low carbon and climate resilient infrastructure Generational Accounting Holger Bonin,2013-03-14 Among the concepts used to assess the sustainability of fiscal policy in a changing demographic environment generational accounting has become the most prominent This book gives a complete and up to date introduction to the theory and practice of the method It reveals deficiencies of the original residual concept and discusses various measures of intergenerational redistribution based on the recent sustainability approach to generational accounting An application using data on German public finances serves to provide an in depth explanation and practical illustration of the technique The study develops new procedures to evaluate the fiscal externalities of migration and the redistribution of net wealth among living generations resulting from Social Security reform The book is an indispensable source of reference for analysts employing generational accounting and for those wishing to study intertemporal redistribution through fiscal policy **American Lumberman** ,1918
