Eighteenth-Century Britain, 1688-1783 Jeremy Black,2008-09-10 Jeremy Black sets the politics of eighteenth century Britain into the fascinating context of social economic cultural religious and scientific developments The second edition of this successful text by a leading authority in the field has now been updated and expanded to incorporate the latest research and scholarship **The British Volunteer Movement, 1794-1814** Austin Gee,2003 This volume provides a comprehensive view of the social political and military aspects of the volunteer movement of the French Wars the volunteer infantry yeomanry cavalry and the armed associations in England Scotland and Wales from 1794 to 1814 and in some cases beyond **Popular Politics and British Anti-Slavery** J.R. Oldfield,2012-10-12 In 1792 400 000 people put their signature to petitions calling for the abolition of the slaves trade This work explains how this remarkable expression of support for black people was organized and orchestrated and how it contributed to the growth of popular politics in Britain *The Politics of Britain, 1688-1800* Jeremy Black,1993 This study provides a comprehensive analysis of both the structures of 18th century politics national and local and the major issues that provided the dynamics of a period that was far from static The author considers the position not only in England but also in Scotland Ireland and Wales The central emphasis of the book is on the interrelationship of political structure and content Jeremy Black argues that power was not solely sought for its own sake but also in order to advance or sustain particular policies and interests He also stresses that this was true not only of Whitehall Westminster and royal palaces centring around London but also of parish vestries town councils and commissions of the peace throughout the country This study is intended as an introductory textbook for students In addition to its analysis the book acquaints students with the most recent historiographical developments in the subject and the text is also

supported by a section of documents **Popular Politics and British Anti-slavery** John R. English MPs Michael W. McCahill,2023-01-26 What was the role of elected legislators Was it to represent the opinions of constituents or to vote according to their informed opinions reflecting the needs of the kingdom Most authorities have accepted Edmund Burke s depiction of 18th century MPs insisting it was their right to form their opinions without reference to the instructions of constituents This study provides answers to these important questions and in doing so reveals that Burke s vision does not represent how the House of Commons functioned during the last two decades of the 18th century Rather than focusing on specific issues or demographic groups English MPs brings to the fore the legislative activity of a broad segment of late 18th century English MPs This book shows they were diligent legislators who attended to the needs of constituents in the process developing strong connections with them It demonstrates that these connections did not rest on shared beliefs in reformist ideologies except in and around the metropolis Instead they grew out of the members timely and effective tending session after session to the host of measures brought forward by constituents and neighbours McCahill explores in fascinating detail the consequences of this bond In this book McCahill draws from an impressive array of primary sources and secondary literature to combine a structural analysis with broad surveys and detailed case studies The result is an illuminating and a comprehensive account of the House of Commons between 1760 and 1790 *A History of Britain's Transport* Jeremy Black,2025-02-28 Covers the evolution of transport history from walking and packhorses to modern rail motoring and air travel An accessible book to draw on popular interest in transport history routes vehicles and experiences Transport history is social and industrial national history Passengers and freight will be covered including all types of transport from walking and packhorses that predominated for much of national history both of which tend to be underrated to changes brought by improvements to road transport from the Romans to medieval bridgebuilders and eighteenth century turnpikes and in parallel river coastal and canal travel again from the Romans to the eighteenth century The story moves to the age of rail motoring and lastly air All forms overlap as well as being sequential **Devon & Cornwall Record Society** Devon and Cornwall Record Society,1955 **Devon and the Slave Trade** Todd Gray,2007 Using a collection of documents Todd Gray introduces and examines the topic of Devon s role in African Slavery Local and national archives have been searched to provide examples of the ways African slavery was part of Devon s history The main themes are slavery voyages Hawkins plantation accounts and the efforts made to bring about abolition and emancipation as well as a number of others
