A History of Seating,

3000 BC to 2000 AD Jenny Pynt, Joy Higgs, 2010 The focus of this book is on functional seating and the key argument presented is that functional seating needs to assist the person using it for the performance of seated tasks enhance rather than detract from the person's posture and health and it needs to provide aesthetic features that do not limit task or health The book spans the period 3000BC to 2000AD and presents largely Western seating This book is unique in its approach to seating because it draws together evidence that relates to seating that facilitates health and task while also addressing aesthetic factors This evidence creates an understanding of how seats may be designed to not only promote bodily health but also allow functional optimisation of sitting and seating This book is important to furniture and industrial designers interior decorators architects those teaching seat design health professionals attending and educating those who relax or work in the seated position furniture historians and members of the general public interested in the history of seating The Encyclopedia of Furniture Joseph Aronson, 1961-12-13 A completely revised edition covering every period and development to the present the designers and makers the woods and other materials the architecture and decoration 2 000 photographs Glossary Bibliography Index Blackstone and his Commentaries Wilfrid Prest, 2009-07-06 One of the most celebrated works in the Anglo American legal tradition William Blackstone's Commentaries on the Laws of England 1765 9 has recently begun to attract renewed interest from legal and other scholars The Commentaries no longer dominate legal education as they once did especially in North America during the century after their first publication But they continue to be regularly cited in the judgments of superior courts of review on both sides of the Atlantic and elsewhere throughout the common law world They also provide constitutional cultural intellectual and legal historians with a remarkably comprehensive account of the role of law lawyers and the courts in the imperial superpower that was England on the cusp of the industrial revolution The life and character of Blackstone himself the nature and sources of his jurisprudence as expounded in the Commentaries and the impact of his great book both within and beyond his native shores are the main themes of this collection Individual essays treat Blackstone's early architectural treatises and their relationship to the Commentaries his idiosyncratic book collecting his views of the role of judges interpretation of statutes the law of marriage the status of wives natural law property law and the legalities of colonisation and the varied reception of the Commentaries in America and continental Europe Blackstone's bibliography and iconography also receive attention Combining the work of both eminent and emerging scholars this interdisciplinary venture sheds welcome new light on a legal classic and its continued influence I Life 1 Blackstone and Biography Wilfrid Prest 2 A Model of the Old House Architecture in Blackstone's Life and Commentaries Carol Matthews 3 A Mighty Consumption of Ale Blackstone Buckler and All Souls College Oxford Norma Aubertin Potter 4 William Blackstone and William Prynne an Unlikely Association Ian Doolittle II Thought 5 Blackstone on Judging John H Langbein 6 Blackstone's Rules for the Construction of Statutes John V Orth 7 Blackstone and Bentham on the Law of Marriage Mary Sokol 8 Coverture and Unity of Person in Blackstone's Commentaries Tim Stretton 9 Blackstone's
