border between an objective reality structured by ideology and his subjective experience as a contemporary painter in the studio Its innovative combination of historical accuracy philosophical depth and astute visual analysis will make this an indispensable guide for both new audiences and established scholars of Richter's painting Flesh of My Flesh Kaja Silverman,2009-10-28 What is a woman What is a man How do they and how should they relate to each other Does our yearning for wholeness refer to something real and if there is a Whole what is it and why do we feel so estranged from it For centuries now art and literature have increasingly valorized uniqueness and self sufficiency The theoreticians who loom so large within contemporary thought also privilege difference over similarity Silverman reminds us that this is but half the story and a dangerous half at that for if we are all individuals we are doomed to be rivals and enemies A much older story one that prevailed through the early modern era held that likeness or resemblance was what organized the universe and that everything emerges out of the same flesh Silverman shows that analogy so discredited by much of twentieth century thought offers a much more promising view of human relations In the West the emblematic story of turning away is that of Orpheus and Eurydice and the heroes of Silverman's sweeping new reading of nineteenth and twentieth century culture the modern heirs to the old analogical view of the world also gravitate to this myth They embrace the correspondences that bind Orpheus to Eurydice and acknowledge their kinship with others past and present The first half of this book assembles a cast of characters not usually brought together Friedrich Nietzsche Sigmund Freud Marcel Proust Lou Andr  s Salom Romain Rolland Rainer Maria Rilke Wilhelm Jensen and Paula Modersohn Becker The second half is devoted to three contemporary artists whose works we see in a moving new light Terrence Malick James Coleman and Gerhard Richter Screening the Red Army Faction Christina Gerhardt,2018-07-12 Screening the Red Army Faction Historical and Cultural Memory explores representations of the Red Army Faction RAF in print media film and art locating an analysis of these texts in the historical and political context of unfolding events In this way the book contributes both a new history and a new cultural history of post fascist era West Germany that grapples with the fledgling republic's most pivotal debates about the nature of democracy and authority about violence its motivations and regulation and about its cultural afterlife Looking back at the history of representations of the RAF in various media this book considers how our understanding of the Cold War era of the long sixties and of the RAF is created and re created through cultural texts The Self-deceiving Muse Alan Singer,2010 Focuses on the phenomenon of self deception and proposes a radical revision of our commonplace understanding of it as a token of irrationality Argues that self deception can illuminate the rationalistic functions of character Provided by publisher

Gerhard Richter, Individualism, and Belonging in West Germany Luke Smythe,2022-07-29 This book reevaluates the art of Gerhard Richter b 1932 in relation to his efforts to achieve belonging in the face of West Germany's increasing individualism between the 1960s and the 1990s Richter fled East Germany in 1961 to escape the constraints of socialist collectivism His varied and extensive output in the West attests to his greater freedom under capitalism but also to his

struggles with belonging in a highly individualised society a problem he was far from alone in facing The dynamic of increasing individualism has been closely examined by sociologists but has yet to be employed as a framework for understanding broader trends in recent German art history Rather than critique this development from a socialist perspective or experiment with new communal structures like a number of his colleagues Richter sought and found security in traditional modes of bourgeois collectivity like the family religion painting and the democratic capitalist state The book will be of interest to scholars working in art history as well as German history culture and politics      **Gerhard Richter** Robert Storr, Gerhard Richter, 2002 Tour of the exhibition the Museum of Modern Art New York Feb 14 May 21 2002 and others

**The Art of Gerhard Richter** Christian Lotz, 2015-10-22 The Art of Gerhard Richter Hermeneutics Images Meaning presents the first philosophical investigation of arguably one of the most popular and important painters working today Gerhard Richter From monochrome painting and photo realism to conceptual art and gesture expressive painting Richter has transformed the spectrum of 20th Century painting Building upon Gadamer's notion of formed images the book outlines elements of a hermeneutics and a phenomenology of images and paintings Moreover the hermeneutic approach to art is combined with the crucial question of how paintings and photographs are related to each other for Richter The author suggests that paintings open up the fixed relation and intentionality of photographs by idealizing and essentializing the content of the photographs By relying upon a hermeneutical and phenomenological approach rather than working from abstract theory The Art of Gerhard Richter provides philosophical insights developed out of Richter's works of art Uncovering key philosophical aspects of Richter's work the author's reflections discuss the relation between appearance and essence the role of faith and hope the dialectic of distance and nearness the issues of death and terror and the role of beauty and landscapes in Richter's paintings      **Constellations of a Contemporary Romanticism** Jacques Khalip, Forest

Pyle, 2016-07-01 Constellations of a Contemporary Romanticism takes its title and point of departure from Walter Benjamin's concept of the historical constellation which puts both contemporary and romanticism in play as period designations and critical paradigms Featuring fascinating and diverse contributions by an international roster of distinguished scholars working in and out of romanticism from deconstruction to new historicism from queer theory to postcolonial studies from visual culture to biopolitics this volume makes good on a central tenet of Benjamin's conception of history These critics grasp the constellation into which our own era has formed with a definite earlier one Each of these essays approaches romanticism as a decisive and unexpired thought experiment that makes demands on and poses questions for our own time What is the unlived of a contemporary romanticism What has romanticism's singular untimeliness bequeathed to futurity What is romanticism's contemporary redemption value for painting and politics philosophy and film      Contemporary Voices Ann Temkin, Museum of Modern Art (New York, N.Y.), 2005 Catalog of an exhibition held Feb 4 Apt 25 2005      **After Modern Art** David Hopkins, 2018 A beautifully illustrated new edition of this pioneering study of art since 1945 Focussing mainly on

**The Truth Is Always Grey** Frances Guerin, 2018-01-30 Changing how we look at and think about the color grey Why did many of the twentieth century s best known abstract painters often choose grey frequently considered a noncolor and devoid of meaning Frances Guerin argues that painters including Jasper Johns Cy Twombly Agnes Martin Brice Marden Mark Rothko and Gerhard Richter select grey to respond to a key question of modernist art What is painting By analyzing an array of modernist paintings Guerin demonstrates that grey has a unique history and a legitimate identity as a color She traces its use by painters as far back as medieval and Renaissance art through Romanticism to nineteenth and twentieth century modernism to show how grey is the perfect color to address the questions asked by painting within art history and to articulate the relationship between painting and the historical world of industrial modernity A work of exceptional erudition breadth and clarity presenting an impressive range of canonical paintings across centuries as examples *The Truth Is Always Grey* is a treatise on color that allows us to see something entirely new in familiar paintings and encourages our appreciation for the innovation and dynamism of the color grey

*Mysteries of the Rectangle* Siri Hustvedt, 2006-08-10 In this book Hustvedt gives us nine essays on the significance of particular works of art replete with original insights and a few startling discoveries In her essay on Giorgione s *The Tempest* a painting that has mystified art critics for hundreds of years the author reinterprets the canvas as a work about art and voyeurism While looking at *The Third of May* she was astonished to discover that Goya had hidden his own self portrait in a shadowy corner of his iconic masterwork More than anything the essays in this book display a true passion for art from the still lifes of Jean Baptiste Chardin and Giorgio Morandi to the contemporary works of Joan Mitchell and Gerhard Richter Hustvedt captures perfectly the pleasure found in giving oneself up to the complexities and ambiguities of painting discovering new subtleties and surprises the longer one takes the time to look Back cover

*Schizogenesis* Katherine Guinness, 2019-12-10 A deep analysis of an enigmatic artist whose oeuvre opens new spaces for understanding feminism the body and identity Popular and pioneering as a conceptual artist Rosemarie Trockel has never before been examined at length in a dedicated book This volume fills that gap while articulating a new interpretation of feminist theory and bodily identity based around the idea of schizogenesis central to Trockel s work *Schizogenesis* is a fission like form of asexual reproduction in which new organisms are created but no original is left behind Author Katherine Guinness applies it in surprising and insightful ways to the career of an artist who has continually reimagined herself and her artistic vision Drawing on the philosophies of feminists such as Simone de Beauvoir Shulamith Firestone and Monique Wittig Guinness argues that Trockel s varied output of painting fabric sculpture film and performance is best seen as opening a space that is peculiarly feminist yet not contained by dominant articulations of feminism Utilizing a wide range of historical and popular knowledge from Baader Meinhof to Pinocchio Poodles NASA and Brecht Katherine Guinness gives us the associative and ever branching readings that Trockel s art

requires With a spirit for pursuing the surprising and the obscure Guinness delves deep into a creator who is largely seen as an enigma revealing Trockel as a thinker who challenges and transforms the possibilities of bodily representation and identity
