Geriatric Psychiatry Basics Kenneth Sakauye,2008-04-17 Doctors who know something about working with the elderly are in greater demand than ever before This is also true in psychiatry where the number of geriatric psychiatry specialists falls far short of the need Because of this unbalance general psychiatrists many of whom have little or no training or experience in dealing with older adults and their specific issues are now being called upon to offer care to this population In this book Sakauye covers issues fundamental to the field of geriatric psychiatry that are not addressed well in general adult training Late life development Biology of aging Common medical illnesses associated with aging Neurobiology of degenerative disorders Geriatric psychopharmacology Psychotherapeutic modifications for special populations such as patients with cognitive impairment Multidisciplinary care and family involvement Specific studies of older adults as a special population differences While specialists will find it a useful resource for brushing up on fundamentals Geriatric Psychiatry Basics is the ideal handbook for non specialists who need a quick reference or primer on the issues central to geriatric care

In it Sakauye a geriatric psychiatrist who worked closely with the elderly victims of Hurricane Katrina explores the most commonly encountered issues and problems from memory impairment Alzheimer's delirium dementia and cognitive disorders to depression psychosis anxiety substance abuse somatoform and sleep disorders Assessment diagnosis and treatment options including pharmacotherapy are addressed for each presenting problem and clinical pearls nuggets of critical information common pitfalls differentiation protocols between normal and abnormal behavior etc are clearly addressed The use of psychotherapeutic interventions for older adults as well as psychiatric care in nursing homes and other inpatient facilities is also explained making this an immensely practical and user friendly handbook for all mental health professionals on how to deliver proper geriatric mental health services Assessment in Geriatric Psychopharmacology Thomas Crook, Steven Ferris, Raymond Bartus, 1983 **Principles and Practice of Geriatric Psychiatry** Marc E. Agronin, Gabe J. Maletta, 2006 Written by noted authorities in geriatric psychiatry this volume is a clinically oriented guide to the diagnostic workup and treatment of psychiatric and neuropsychiatric disorders in elderly patients The book describes in detail the neurologic and neuropsychiatric patient assessment and the use of all treatment modalities both psychotherapeutic and pharmacologic in elderly patients Chapters discuss the treatment of disorders in all clinical settings inpatient outpatient emergency primary care assisted living and long term care Algorithms for workup and treatment are included as well as case studies and personal accounts by patients and care providers Appendices provide drug information and additional resources

Handbook of Geriatric Psychopharmacology Michael A. Jenike, 1985 **Principles and Practice of Geriatric Psychiatry** Mohammed T. Abou-Saleh, Cornelius L. E. Katona, Anand Kumar, 2011-01-04 The renowned Principles and Practice of Geriatric Psychiatry now in its third edition addresses the social and biological concepts of geriatric mental health from an international perspective Featuring contributions by distinguished authors from around the world the book offers a distinctive angle on issues in this continually developing discipline Principles and Practice of Geriatric Psychiatry provides a comprehensive review of geriatric psychiatry spanning both psychiatric and non psychiatric disorders scientific advances in service development specific clinical dilemmas New chapters on genetics of aging somatoform disorders epidemiology of substance abuse somatoform disorders care of the dying patient Continuing the practice of earlier editions the major sections of the book address aging diagnosis and assessment and clinical conditions incorporating an engaging discussion on substance abuse and schizophrenic disorders Shorter sections include the presentation of mental illness in elderly people from different cultures one of the most popular sections in previous editions Learning and behavioural studies as well as models of geriatric psychiatry practice are covered extensively This book provides a detailed overview of the entire range of mental illness in old age presented within an accessible format Principles and Practice of Geriatric Psychiatry is an essential read for psychiatrists geriatricians neurologists and psychologists It is of particular use for instructors of general psychiatry programs and their residents Geriatric Psychiatry Ana Hategan, James A. Bourgeois, Calvin H. Hirsch, Caroline

Giroux,2018-04-03 This textbook presents real world cases and discussions that introduce the various mental health syndromes found in the aging population before delving into the core concepts covered by geriatric psychiatry curricula The text follows each case study with the vital information necessary for physicians in training including key features of each disorder and its presentation practical guidelines for diagnosis and treatment clinical pearls and other devices that are essential to students of geriatric psychiatry With the latest DSM 5 guidelines and with rich learning tools that include key points review questions tables and illustrations this text is the only resource that is specifically designed to train both American and Canadian candidates for specialty and subspecialty certification or recertification in geriatric psychiatry It will also appeal to audiences worldwide as a state of the art resource for credentialing and or practice guidance The text meets the needs of the future head on with its straightforward coverage of the most frequently encountered challenges including neuropsychiatric syndromes psychopharmacology eldercare and the law substance misuse mental health following a physical condition medical psychiatry and palliative care Written by experts in the field Geriatric Psychiatry A Case Based Textbook is the ultimate resource for graduate and undergraduate medical students and certificate candidates providing mental health care for aging adults including psychiatrists psychologists geriatricians primary care and family practice doctors neurologists social workers nurses and others
