**Panzer-Divisions at War, 1939-1945** Ian Baxter,2006-11-06 From the beginning in 1935 this attractive book describes the different elements that went into the Panzer Divisions It describes how the Germans carefully built up their assault forces utilizing all available reserves and resources into making an effective fighting machine It depicts how these awesome formations grew to be used four years later in war and provides much historical information and facts about the vehicles and its components that fought in all the campaigns of the war from the early victorious Blitzkrieg in Poland and France to the last ditch defense in Germany in 1945 Each chapter features unseen photographs of light tanks main battle tanks assault guns anti tank destroyers artillery reconnaissance units support vehicles pioneers with their bridge building platforms and the motorized infantry or Panzergrenadiers This book is a visual treat for the military enthusiast and collector and a worthy addition to the Images of War series *Hitler's Anti-Tank Weapons 1939-1945* Hans Seidler,2020-05-30 This illustrated

WWII history captures the evolution of Nazi Germany's anti armor weaponry through rare archival wartime photos. Hitler's Wehrmacht and SS units will be remembered for their aggressive Blitzkrieg tactics. But as the war progressed the Germans developed an impressive range of anti tank warfare weaponry and munitions. Using many rare unpublished images this *Images of War* book covers the full Nazi anti armor capability. Also featured are the half tracks and converted Panzers that pulled or mounted these weapons and carried observers and reconnaissance elements forward. Later hand held anti tank weapons came into service and were effective against Allied armor. The Panzerfaust with its shaped charge warhead became the first disposable anti tank weapon in history. This comprehensive book shows this formidable range of weapons in action from Poland in 1939 through North Africa and the Eastern Front to the final collapse of the Third Reich in 1945. [Hitler's Panzers](#) Ian Baxter, 2007-03-28 A World War II pictorial history of Nazi Germany's armored fighting vehicles and exploration of their inner workings. Using previously unpublished photographs many of which have come from the albums of individuals who took part in the war. Hitler's Panzers presents a unique visual account of Germany at arms. The book analyzes the development of the Panzer and shows how it became Hitler's supreme weapon. It describes how the Germans carefully built up their assault forces utilizing all available reserves and resources and making them into effective killing machines. From the Panzerkampfwagen 1 to the most powerful tank of the Second World War the Jagdtiger the volume depicts how these machines were adapted and up gunned to face the ever increasing enemy threat. Hitler's Panzers is a unique look into the full workings of the various light tanks main battle tanks self propelled assault guns and tank destroyers. It is a vivid fully illustrated account of the development and deployment of the German tank and brings together a captivating glimpse at the cutting edge of World War Two military technology. **Panzer IV, 1939-1945** Paul Thomas, 2017-11-30 With comprehensive captions and text this superb book tells the story of the production of the Panzer IV to the key battles in Poland France North Africa Italy Russia and North West Europe. Initially the Panzer IV was designed as an infantry support tank but soon proved to be so diverse and effective that it earned a unique tactical role on the battlefield. The book shows how the Panzer IV evolved and describes how the Germans carefully utilized all available reserves and resources into building numerous variants that went into production and saw action on the battlefield. It depicts how these formidable tanks were adapted and up gunned to face the ever increasing enemy threat. Between 1936 and 1945 over 8 000 Panzer IVs were built. For most of the war this tank was a match for its opponents heavy tanks and quickly and effectively demonstrated its superiority on the battlefield. The Panzer IV was the only German tank to remain in production during the war. Its chassis was converted into more models than any other Panzers that entered service. As well as the various prototype projects and command tanks observation vehicles ammunition carriers recovery vehicles amphibious armored ferry vehicles that saw service the book will show a multiple of converted anti tank propelled vehicles. *Women at War 1939-1945* Carol Harris, 2000-10-20 Long before the outbreak of the Second World War official calculations showed Britain would be short of

the manpower needed to fight the enemy and keep up production of weapons food and other essentials It was hoped that women volunteers would fill the gaps and so they volunteered as workers in Civil Defence the Women's Land Army munitions factories and non combatant roles in the Forces But by 1941 the Government had to face facts any effective response would have to involve conscription of British women All females between the ages of fourteen and sixty four were registered and soon the vast majority had work to do They collected tons of salvage knitted and sewed and raised money for warships and weapons Women ran fire stations and drove makeshift ambulances while cities burned and enemy bombs exploded around them They kept their families going often as single parents while their husbands were away for years in the armed forces By the end of the war some of the most experienced rat catchers in the country were female others were accomplished engineers carters rail workers and bargees When it was over these wartime roles were not commemorated in films and books There has been little official acknowledgement of the enormous and crucial contribution those British women made to the lives we live now Many are getting on in years and their precious first hand memories will go with them Their stories are worth telling now for that alone But they are also tales of love death sacrifice and romance of humour and horror and of an extraordinary time when ordinary women did extraordinary things
