German Defense Tactics Against Russian Breakthroughs Center of Military History, 1951 By means of short narratives based on actual experience this study endeavors to describe the characteristics of Russian break throughs and countermeasures employed by the Germans Introduction *German Defense Tactics Against Russian Breakthroughs*, 1951

German Defence Tactics Against Russian Break-throughs United States. Department of the Army, Military Library Research Service (Firm), 2005 *The "German Spirit" in the Ottoman and Turkish Army, 1908-1938* Gerhard Grüßhaber, 2018-04-09 The study focuses on the mutual transfer of military knowledge between the German and the Ottoman Turkish army between the 1908 Young Turk revolution and the death of Atatürk in 1938 Whereas the Ottoman and later the Turkish army were the main beneficiaries of this selective appropriation the German armed forces evaluated their prospective ally's military experiences to a lesser extent Through the analysis of archival and published sources and memoir literature the study provides evidence for the impact of this exchange on the armies of both countries and on the Turkish civil society Indeed the officer corps in both countries was a small but influential group of the society for the further development of their nations *Review of Current Military Literature*, 1952-04 *Infantry*, 1988 *Mailing List (Infantry School (U.S.))*, 1989 *Journal of Special Operations Medicine*, 2006 **Monthly Catalog of United States Government Publications** United States. operations The Germans especially in the war s early years were often successful in sealing off and destroying Soviet penetrations PREFACE This study was prepared or the Historical Division EUCOM by a group of former German generals and general staff officers The name of the contributors It is not announced at this time The principal author who by the end of the war had attained the rank of general Generaloberst served on the Eastern Front throughout the Russian campaign and the subsequent retreat into the plains of northern Germany He was successively commander of an infantry brigade a panzer division November 1941 to February 1943 and two different corps in the battles for Kharkov and Belgorod Appointed commander of a panzer army on 1 December 1943 he participated in the withdrawal across southern Russia until the Germans reached the Carpathians In August 1944 he was transferred to Army Group Center His last assignment was with Army Group Weichsel During this final phase of his military career he played an important part in the retreat from Lithuania East Prussia and Pomerania The reader is reminded that all publications in the GERMAN REPOIR SERIES were written by Germans from the German point of view and that the procedures of the German Army differed considerably from those of the United States Army Throughout this pamphlet the point of departure for tactical innovations was official German combat doctrine and authorized German tables of organization and equipment Moreover it must not be overlooked that a fundamental condition of German operations in Russia was the almost consistent German inferiority in both manpower and materiel Various other factors colored the authors thinking in ways unfamiliar to Americans Every effort has been made to retain the point of view the expression and even the prejudices of the authors

The Russian Air Force in the Eyes of German Commanders
 Generalleutnant Walter Schwabedissen,2017-06-28 The Russian Air Force in the Eyes of German Commanders by Generalleutnant a D Walter Schwabedissen is one of a series of historical studies written by or based on information supplied by former key officers of the GAF for the United States Air Force Historical Division The overall purpose of the series is twofold 1 To provide the U S Air Force with a comprehensive and insofar as possible authoritative history of a major air force which suffered defeat in World War II a history prepared by many of the principal and responsible leaders of that air force 2 to provide a firsthand account of that air force s unique combat in a major war especially its fight against the forces of the Soviet Union This series of studies therefore covers in large part virtually all phases of the Luftwaffe s operations and organization from its camouflaged origin in the Reichswehr during the period of secret German rearmament following World War I through its participation in the Spanish Civil War and its massive operations and final defeat in World War II with

particular attention to the air war on the Eastern Front In World War II the Russian Air Force came of age The men most vitally concerned with this aside from the Russians themselves were commanders in the German armed forces The experience of these commanders then constitutes a unique source for information on an organization whose capabilities both past and future are of vital concern to the world The chief German experience with the Russian Air Force derives from World War II It was during this period that the Russians learned most from the Germans and the Germans learned most about the Russians This study exploits this broad German experience Compiled from the official records of the German Air Force and from reports written by German commanders who saw action in the Russian campaign it documents many of the Russian Air Force s achievements as well as its failures Guide to Foreign Military Studies, 1945-1954 United States.
