German Ideologies Since 1945 Studies In The Political Thought And Culture Of The Bonn Republic

Mark Hewitson, Matthew D'Auria

German Ideologies Since 1945 Studies In The Political Thought And Culture Of The Bonn Republic:

German Ideologies Since 1945 J. Muller,2003-02-21 The contributors of this volume seek to answer such questions as How did the Germans overcome Germanic Ideology or did they Why is there no libertarianism in Germany What do German conservatives wish to conserve Emphasizing shared patterns of thought the contributors trace the contours of political thought in a divided nation with a difficult past and in the shadow of the culture and political values of the United States

German Ideologies Since 1945 J. Muller,2003-05-02 The contributors of this volume seek to answer such questions as How did the Germans overcome Germanic Ideology or did they Why is there no libertarianism in Germany What do German conservatives wish to conserve Emphasizing shared patterns of thought the contributors trace the contours of political thought in a divided nation with a difficult past and in the shadow of the culture and political values of the United States

German Intellectuals and the Challenge of Democratic Renewal Sean A. Forner,2017-03-23 This book examines how democracy was rethought in Germany in the wake of National Socialism the Second World War and the Holocaust Focusing on a loose network of public intellectuals in the immediate postwar years Sean Forner traces their attempts to reckon with the experience of Nazism and scour Germany's ambivalent political and cultural traditions for materials with which to build a better future In doing so he reveals they formulated an internally variegated but distinctly participatory vision of democratic renewal a paradoxical counter elitism of intellectual elites Although their projects ran aground on internal tensions and on the Cold War their commitments fueled critique and dissent in the two postwar Germanys during the 1950s and thereafter The book uncovers a conception of political participation that went beyond the limited possibilities of the Cold War era and influenced the political struggles of later decades in both East and West

German History in Modern Times William W. Hagen,2012-02-13 This history of German speaking central Europe offers a very wide perspective emphasizing a succession of many layered communal identities It highlights the interplay of individual society culture and political power contrasting German with Western patterns Rather than treating the Germans as a collective whole whose national history amounts to a cumulative biography the book presents the pre modern era of the Holy Roman Empire the nineteenth century the 1914 45 era of war dictatorship and genocide and the Cold War and post Cold War eras since 1945 as successive worlds of German life thought and mentality This book's Germany is polycentric and multicultural including the multinational Austrian Habsburg Empire and the German Jews Its approach to National Socialism offers a conceptually new understanding of the Holocaust The book's numerous illustrations reveal German self presentations and styles of life which often contrast with Western ideas of Germany

Legal and Political Thinking Against Sovereignty Hugo Canihac,2025-09-17 At the intersection of the history of constitutional ideas and of political theory this book offers a new genealogy of the constitutional thought of the European Union Centrally the book traces the emergence and transformation of the post sovereign thesis an argument that seeks to move beyond the routine opposition between states and European

organization by claiming the concept of sovereignty to be obsolete and its complicated relationship with liberalism. Analyzing the thought of a series of constitutional thinkers who have developed different versions of this thesis in relation to European integration, the book shows that far from being new as is generally assumed, the post-sovereign thesis goes back to the late nineteenth century. Exploring the interplay of these thinkers' critical conceptualizations of sovereignty and of their views on liberalism, the book argues that although they shared a concern for the transformation of a world seen as increasingly interdependent, they imagined deeply different versions of post-sovereignty. Bringing this history into focus, the book offers a rich new perspective on contemporary debates about the EU and the possibilities of global constitutionalism. This book will appeal to scholars and students working in the fields of EU and constitutional law, legal history, and the history of political thought, as well as others with relevant interests working in political science.

Democracy, Capitalism, and the Welfare State Peter C. Caldwell, 2019-03-14. *Democracy, Capitalism, and the Welfare State* investigates political thought under the conditions of the postwar welfare state, focusing on the Federal Republic of Germany, 1949-1989. The volume argues that the welfare state informed and altered basic questions of democracy and its relationship to capitalism. These questions were especially important for West Germany given its recent experience with the collapse of capitalism, the disintegration of democracy, and National Socialist dictatorship after 1930. Three central issues emerged. First, the development of a nearly all-embracing set of social services and payments recast the problem of how social groups and interests related to the state as state agencies and affected groups generated their own clientele, their own advocacy groups, and their own expert information. Second, the welfare state blurred the line between state and society that is constitutive of basic rights, and the classic world of liberal freedom rights became claims on the state, and social groups became integral parts of state administration. Third, the welfare state potentially reshaped the individual citizen who became wrapped up with mandatory social insurance systems, provisioning of money and services related to social needs, and the regulation of everyday life. Peter C. Caldwell describes how West German experts sought to make sense of this vast array of state programs, expenditures, and bureaucracies aimed at solving social problems. Coming from backgrounds in politics, economics, law, social policy, sociology, and philosophy, they sought to conceptualize their state, which was now social. One German word for the welfare state is indeed *Sozialstaat*, and their society, which was permeated by state policies.

Neo-Nazi Postmodern Esther Elizabeth Adaire, 2024-03-21. From the violent skinhead protests of the early 1990s to the National Socialist Underground murder spree of the 2000s and the KSK Kommando Spezialkräfte scandal of 2020, this book traces Germany's long struggle to suppress a resurgent and ever more terroristic far-right scene. Esther Elizabeth Adaire analyses the electoral success of the AfD (Alternative für Deutschland) party in 2017, the growing presence of PEGIDA on German streets, and the anti-COVID lockdown protests led by conspiracy theorist groups such as Querdenken, which have taken aback liberal onlookers for whom Germany's robust culture of Holocaust consciousness is supposed to provide a panacea against neo-Nazism. Adaire examines how, since

unification the intellectual Neue Rechte has increasingly destabilized the foundations of historical memory and lesson learning in Germany often doing so in the pages of mainstream conservative publications Neo Nazi Postmodern convincingly contends that far right intellectuals joined by notable left wing apostates who brought with them an anti establishment critique borrowed from the language of postmodernism have since the early 1990s excused and justified an increasingly violent far right youth scene even becoming leaders of this scene themselves The book therefore traces the development of today s German far right throughout several stages notable scandals and the ongoing destabilization of memory and truth from unification onwards showing how previously disparate groups such as neo Nazis Neue Rechte intellectuals and political fringe parties merged over time This far right scene Adaire adeptly demonstrates has come to embody what the historian Walter Laqueur once dubbed Postmodern Terrorism a mixture of cell based terror structures reliance on Internet technologies for organizational purposes and the sowing of epistemic chaos via informational warfare **Terror and**

Democracy in West Germany Karrin Hanshew,2012-08-20 In 1970 the Red Army Faction declared war on West Germany The militants failed to bring down the state but this book argues that the decade long debate they inspired helped shape a new era After 1945 West Germans answered long standing doubts about democracy s viability and fears of authoritarian state power with a militant democracy empowered against its enemies and a popular commitment to anti fascist resistance In the 1970s these postwar solutions brought Germans into open conflict fighting to protect democracy from both terrorism and state overreaction Drawing on diverse sources Karrin Hanshew shows how Germans faced with a state of emergency and haunted by their own history managed to learn from the past and defuse this adversarial dynamic This negotiation of terror helped them to accept the Federal Republic of Germany as a stable reformable polity and to reconceive of democracy s defence as part of everyday politics European Socialists and the State in the Twentieth and Twenty-First Centuries

Mathieu Fulla,Marc Lazar,2020-08-05 This edited volume promotes a comparative and transnational approach to the complex and ambiguous relationship between West European socialism and the contemporary state over the longue dur e It encourages a better understanding of socialism while also casting an original light on the history of the contemporary state in Europe Socialists have been a prime political force since the late nineteenth century through to the present Through their strength their presence at the heart of societies their dynamism inventiveness and influence they have left their mark on the European physiognomy and helped to forge part of its identity This is particularly true where the welfare state is concerned and the role played by the state in constructing embedding and extending this social model Surprisingly there has been no research aiming to systematically analyse the relationship between socialism and the state This volume fills a gap in knowledge by rejecting the media simplification and political polemic maintained by opponents of socialism and sometimes by socialists themselves which systematically links socialism with statism It focuses on numerous case studies involving France Italy Spain Greece Austria Germany Belgium the United Kingdom and Scandinavia and highlights the diversity of

organisations within European socialism Ultimately this book demonstrates that the fate of this political culture depends on the socialist parties themselves but also on any new configurations that states may assume Conversely the future of states will also depend partly on the choices made by socialists if they still exist and still have the means to shape decisions and make their voices heard The Weimar Moment Leonard V. Kaplan, Rudy Koshar, 2012-01-26 The Weimar Moment s evocative assault on closure and political reaction its offering of democracy against the politics of narrow self interest cloaked in nationalist appeals to Volk and community or as would be the case in Nazi Germany race cannot but appeal to us today This appeal its historical grounding and content its complexities and tensions its variegated expressions across the networks of power and thought is the essential context of the present volume whose basic premise is unhappiness with Hegel s remark that we learn no more from history than we cannot learn from it The challenge of the papers in this volume is to provide the material to confront the present effectively drawing from what we can and do understand Authoritarian Liberalism and the Transformation of Modern Europe Michael A. Wilkinson, 2021 Oxford Constitutional Theory has rapidly established itself as the primary point of reference for theoretical reflections on the growing interest in constitutions and constitutional law in domestic regional and global contexts The majority of the works published in the series are monographs that advance new understandings of their subject But the series aims to provide a forum for further innovation in the field by also including well conceived edited collections that bring a variety of perspectives and disciplinary approaches to bear on specific themes in constitutional thought and by publishing English translations of leading monographs in constitutional theory that have originally been written in languages other than English Book jacket CiviC Disobedience Claire Moulin-Doos, 2015-05-21 The book offers a counter model to the classical liberal theories of civil disobedience as developed by authors such as John Rawls and Ronald Dworkin Based on a strict opposition between liberalism and democracy it proposes a new perspective for the understanding of political disobedience As an alternative to civil disobedience the author proposes the idea of civic disobedience With reference to authors such as Chantal Mouffe Jacques Rancière and Stanley Fish and in opposition to liberal concepts of democracy the outlines of a new novel theory of democracy become visible **Law, State and Religion in the New Europe** Lorenzo Zucca, Camil Ungureanu, 2012-01-19 The return of religion to the public sphere raises various dilemmas Rights and values pluralism and identity justice and efficacy autonomy and tradition and integration and toleration cannot always be balanced without the loss of something valuable This volume of essays tackles such dilemmas from two perspectives To begin major contemporary theorists rethink the place of religion in the public sphere from republican liberal and critical theoretical viewpoints Contributors then bring together theory and practice to better conceptualize and assess the latest developments in European jurisprudence with respect to religion The Guardians of Concepts Martina Steber, 2023-01-13 Since 1945 what conservative means has troubled intellectuals politicians and parties in the United Kingdom and West Germany In Britain conservatism was an accepted term of the political

vocabulary denoting a particular tradition of political thought and practice In West Germany by contrast conservatism was a difficult concept for the young democracy to swallow It carried a heavy antiliberal and antidemocratic burden and led people to question whether there was a place for conservatism within democratic culture after all The Guardians of Concepts scrutinizes the debates about conservatism in the UK and the Federal Republic of Germany from the late 1940s to the early 1980s Informed by historical semantics it conceives of conservatism as a flexible linguistic structure and shows the importance of language for the self understanding of many conservatives who not by chance have regarded themselves as the guardians of concepts The intense national and transnational debates about the meaning of conservatism had far reaching consequences and continue to influence politics today *Being Young and Muslim* Asef Bayat,Linda Herrera,2010 This volume explores the ways in which the young both in Muslim majority societies and Muslim communities in the West negotiate their Muslim identity in relation to their youthful desires their individuality the search for autonomy and security for the future The cultural behavior of Muslim youths the authors argue must be understood as located in the political realm and representing a new arena of contestation for power The essays in this volume look at the strategies Muslim youths deploy to realize their interests and aspirations including music and fashion party politics collective violence gang activities religious radicalism and other forms of expression Europe in Crisis Mark Hewitson,Matthew D'Auria,2012-10-01 The period between 1917 and 1957 starting with the birth of the USSR and the American intervention in the First World War and ending with the Treaty of Rome is of the utmost importance for contextualizing and understanding the intellectual origins of the European Community During this time of crisis many contemporaries especially intellectuals felt they faced a momentous decision which could bring about a radically different future The understanding of what Europe was and what it should be was questioned in a profound way forcing Europeans to react The idea of a specifically European unity finally became at least for some a feasible project not only to avoid another war but to avoid the destruction of the idea of European unity This volume reassesses the relationship between ideas of Europe and the European project and reconsiders the impact of long and short term political transformations on assumptions about the continent's scope nature role and significance **Habermas** Matthew G. Specter,2010-09-27 This book follows postwar Germany's leading philosopher and social thinker Jürgen Habermas through four decades of political and constitutional struggle over the shape of liberal democracy in Germany Habermas's most influential theories of the public sphere communicative action and modernity were decisively shaped by major West German political events the failure to de Nazify the judiciary the rise of a powerful Constitutional Court student rebellions in the late 1960s the changing fortunes of the Social Democratic Party NATO's decision to station nuclear weapons and the unexpected collapse of East Germany In turn Habermas's writings on state law and constitution played a critical role in reorienting German political thought and culture to a progressive liberal democratic model Matthew Specter uniquely illuminates the interrelationship between the thinker and his culture **Challenging Identities** Peter Madsen,2016-08-12

Identity is a keyword in a number of academic fields as well as in public debate and in politics During the last decades references to identity have proliferated yet there is no simple definition available that corresponds to the use of the notion in all contexts The significance of the notion depends on the conceptual or ideological constellation in which it takes part This volume on one hand demonstrates the role of notions of identity in a variety of European contexts and on the other hand highlights how there may be reasons to challenge the use of the term and corresponding social cultural and political practices Notions of national identity and national politics are challenged by European integration as well as by the increasing demographic heterogeneity due to migration and migrants experience conflicts of identification stemming from clashes between cultural heritage and the cultures of the new habitat European horizons frames of mind historical memories and expectations at the level of groups or communities at the national level and at the general European level are at odds Analyzing a series of issues in European countries from Turkey to Spain and from Scandinavia to the Balkans the contributions demonstrate uses and abuses of the notion of identity

The Long 1968 Daniel J. Sherman, Ruud van Dijk, Jasmine Alinder, A. Aneesh, 2021-12-22 Delving into a tumultuous year's impact on art culture and politics this book illuminates the often overlooked histories of 1968 The Journal of American History From the mid 1960s to the early 1970s revolutions in theory politics and cultural experimentation swept around the world These changes had as great a transformative impact on the right as on the left A touchstone for activists artists and theorists of all stripes the year 1968 has taken on new significance for the present moment which bears certain uncanny resemblances to that time The Long 1968 explores the wide ranging impact of the year and its aftermath in politics theory the arts and international relations and its uses today

Nature's End S. Sörlin, P. Warde, 2009-07-23 Environmental History as a distinct discipline is now over a generation old with a large and diverse group of practitioners around the globe This book provides a reflection on the achievements diversity and direction of environmental history in its varied national international and continental contexts

German Ideologies Since 1945 Studies In The Political Thought And Culture Of The Bonn Republic Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In todays fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free German Ideologies Since 1945 Studies In The Political Thought And Culture Of The Bonn Republic PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and

professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free German Ideologies Since 1945 Studies In The Political Thought And Culture Of The Bonn Republic PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of German Ideologies Since 1945 Studies In The Political Thought And Culture Of The Bonn Republic free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About German Ideologies Since 1945 Studies In The Political Thought And Culture Of The Bonn Republic Books

1. Where can I buy German Ideologies Since 1945 Studies In The Political Thought And Culture Of The Bonn Republic books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores.
