fails through existing dispute resolution means This can result in similar cases being settled in different ways thereby bringing about an incoherent and fragmentary enforcement of the law This book offers a comprehensive and innovative analysis of the settlement of cultural heritage disputes This examination is two fold First it assesses the existing legal framework and the available dispute settlement means Second it explores the feasibility of two solutions for overcoming the lack of a specialized forum The first is the establishment of a new international court The second concerns existing judicial and extra judicial fora and their interaction through the practice of cross fertilization The book focuses on the substance of such interaction and identifies a number of culturally sensitive parameters the common rules of adjudication It argues that existing judicial and non judicial fora should adopt a cross fertilizing perspective to use and disseminate jurisprudence containing these common rules of adjudication It sets out how such an approach would enhance the effectiveness and coherence of decision making processes and would be conducive to the development of a *lex culturalis* This can be defined as a composite body of rules designed to protect cultural heritage by excluding the mechanical application of the norms established for standard business transactions of ordinary goods Boymans-van Beuningen Museum Hanneke de Man,1993
