German Poster Making Music:

Expressionism and Poster Design in Germany 1905–1922 Kathleen G. Chapman, 2019-01-21 In Expressionism and Poster Design in Germany 1905 1925 Kathleen Chapman re defines Expressionism by situating it in relation to the most common type of picture in public space during the Wilhelmine twentieth century the commercial poster Focusing equally on visual material and contemporaneous debates surrounding art posters and the image in general this study reveals that conceptions of a modern image were characterized not so much by style or mode of production and distribution but by a visual rhetoric designed to communicate more directly than words As instances of such rhetoric Expressionist art and posters emerge as equally significant examples of this modern image demonstrating the interconnectedness of the aesthetic the utilitarian and the commercial in European modernism

New Masters of Poster Design, Volume 2 John Foster, 2012-02-01 This second edition of New Masters of Poster Design features the best poster designers currently working all over the world This book brings back a handmade aesthetic that was really never lost but is celebrating a resurgence among designers who are creating limited edition prints and pieces for themselves and others that become keepsakes or pieces of art vs the mass generated designs we've all become accustomed to and you won't see this collection of posters anywhere else Strong visuals accompanied by captions and profiles capture the essence of these collectible prints

Making Music American E. Douglas Bomberger, 2018-11-01 The year 1917 was unlike any other in American history or in the history of American music The United States entered World War I jazz burst onto the national scene and the German musicians who dominated classical music were forced from the stage As the year progressed New Orleans natives Nick LaRocca and Freddie Keppard popularized the new genre of jazz a style that suited the frantic mood of the era African American bandleader James Reese Europe accepted the challenge of making the band of the Fifteenth New York Infantry into the best military band in the country Orchestral conductors Walter Damrosch and Karl Muck met the public demand for classical music while also responding to new calls for patriotic music Violinist Fritz Kreisler pianist Olga Samaroff and contralto Ernestine Schumann Heink gave American audiences the best of Old World musical traditions while walking a tightrope of suspicion because of their German sympathies Before the end of the year the careers of these eight musicians would be upended and music in America would never be the same Making Music American recounts the musical events of this tumultuous year month by month from New Year's Eve 1916 to New Year's Day 1918 As the story unfolds the lives of these eight musicians intersect in surprising ways illuminating the transformation of American attitudes toward music both European and American In this unsettled time no one was safe from suspicion but America's passion for music made the rewards high for those who could balance musical skill with diplomatic savvy

New Masters of Poster Design John Foster, 2008-04-30 New in Paperback In much the way that the CD replaced the album the poster has waned as a messaging vehicle The poster has now become a postcard and e-mail blast leaving many to long for the lost age when posters were not only major promotional vehicles but

also artwork worthy of framing Some of the world's best designers just could not stand idle while the poster fell by the wayside They turned to the poster for personal expression and as an outlet from more restrictive mediums This book showcases their breathtaking artwork which has proven that the poster can still serve as a worthy communications tool In doing so they've brought the poster back to prominence In this book John Foster has compiled the world's finest new work at the height of this rebirth There is currently no book on the market that can claim it features a definitive poster collection

Jazz & the Germans Michael J. Budds, 2002 Many commentators have observed that the influence of jazz and related popular musics on musical practice beyond American borders should be considered one of the most dynamic developments of the twentieth century This collection of essays concentrates on American influences in Germany where such unlikely foreign elements enjoyed a remarkable vogue for much of the past century not only in the realm of popular culture but in the realm of the arts as well Against the tumultuous social and political upheavals of modern Germany there evolved a fascinating musical sound track that introduced German musicians and their public to ragtime spirituals the blues later dance music and jazz with resulting opportunities for imitation and assimilation In this volume American scholars from various academic perspectives are joined by German musician scholars
