German Air Force:

Command and Leadership in the German Air Force Prof. Richard Suchenwirth, 2017-07-11 Command and Leadership in the German Air Force first published in 1969 written by Professor Richard Suchenwirth and revised and edited by Mr Harry R Fletcher is one of a series of historical studies written for the United States Air Force Historical Division by men who had been key officers in or outstanding authorities on the German Air Force during World War II The overall purpose of the series is twofold 1 To provide the United States Air Force with a comprehensive and insofar as possible authoritative history of a major air force which suffered defeat in World War II a history prepared by many of the principal and responsible leaders of that air force 2 to provide a firsthand account of that air force's unique combat in a major war especially its fight against the forces of the Soviet Union This series of studies therefore covers in large part virtually all phases of the Luftwaffe's operations and organization from its camouflaged origin in the Reichswehr during the period of secret rearmament following World War I through its participation in the Spanish Civil War and its massive operations and final defeat in World War II with particular attention to the air war on the Eastern Front These studies find their principal authority in the personal knowledge and experience of their authors *Rise and Fall of the German Air Force (1933 to 1945)*, Air Ministry, 2018-12-02 Written by British intelligence officers in 1948 RISE AND FALL OF THE GERMAN AIR FORCE offers a unique insider's view of Germany's extraordinary military machine Drawing upon records and documents captured from the Luftwaffe archives and elsewhere it describes the Air Force's principal campaigns achievements and operational problems as well as the political tensions that ultimately became its undoing It also explores the powerful personalities behind the service especially the relationship between Hitler and Göring and the impact on the Luftwaffe of the German Supreme Command Illustrated with original photographs and maps this fascinating contemporary account shows how and why a military phenomenon was brought to defeat Pre War policy and preparations 1919 1939 The German Air Force on the offensive 1939 1942 The Turn of the Tide 1943 1944 Decline and Fall of the German Air Force 1944 1945 Born of the spirit of the German airmen in the First World War inspired by faith in our Führer and Commander in Chief thus stands the German Air Force today ready to carry out every command of the Führer with lightning speed and undreamed of might Hermann Göring 1939 Luftwaffe John Pimlott, 1998 This stunning pictorial record of the German Air Force from its establishment in the 1930s through service in World War II from 1939 to 1945 features a wealth of rare images complemented by dramatic and thoroughly researched text 250 photos **The Development of the German Air Force, 1919-1939** Prof. Richard Suchenwirth, 2017-06-28 The Development of the German Air Force 1919 to 1939 first published in 1968 written by Professor Richard Suchenwirth and revised and edited by Mr Harry R Fletcher is one of a series of historical studies written for the United States Air Force Historical Division by men who had been key officers in or outstanding authorities on the German Air Force during World War II The overall purpose of the series is twofold 1 To provide the United

States Air Force with a comprehensive and insofar as possible authoritative history of a major air force which suffered defeat in World War II a history prepared by many of the principal and responsible leaders of that air force 2 to provide a firsthand account of that air force s unique combat in a major war especially its fight against the forces of the Soviet Union This series of studies therefore covers in large part virtually all phases of the Luftwaffe s operations and organization from its camouflaged origin in the Reichswehr during the period of secret rearmament following World War I through its participation in the Spanish Civil War and its massive operations and final defeat in World War II with particular attention to the air war on the Eastern Front

The German Air Force I Knew 1914-1918 Bob Carruthers,2014-03-31 Major Georg Paul Neumann was a former German Air Force officer who had served in the Great War He produced his outstanding survey of the German Air Force in 1920 while the events were still recent history He was able to draw on his own experience and his contacts to compile a large number of personal accounts from officers and men who had so recently fought in the cause The result is an accurate faithful and comprehensive review of the aircraft personnel and organisation of the force which began life in 1910 as the Imperial German Army Air Service and ended the war as the Luftstreitkräfte This comprehensive and compelling review includes a series of primary sources dealing with some of the unusual and lesser known aspects of the Luftstreitkräfte including a gripping account of defending a Zeppelin against attack by British fighters Major Neumann s indispensable work has never been surpassed and this English language translation is essential reading for anyone with an interest in the realities of the war in the air in the Great War

The German Air Force versus Russia, 1941

Generalleutnant Hermann Plocher,2017-06-28 The German Air Force versus Russia 1941 written by Generalleutnant Hermann Plocher and revised and edited by Mr Harry Fletcher is one of a series of historical studies written for the United States Air Force Historical Division by men who had been key officers in the German Air Force during World War II The overall purpose of the series is twofold 1 To provide the United States Air Force with a comprehensive and insofar as possible authoritative history of a major air force which suffered defeat in World War II a history prepared by many of the principal and responsible leaders of that air force 2 to provide a firsthand account of that air force s unique combat in a major war especially its fight against the forces of the Soviet Union This series of studies therefore covers in large part virtually all phases of the Luftwaffe s operations and organization from its camouflaged origin in the Reichswehr during the period of secret German rearmament following World War I through its participation in the Spanish Civil War and its massive operations and final defeat in World War II with particular attention to the air war on the Eastern Front This work volume one of a series is devoted to a descriptive account in some parts in great detail of German aerial operations in the Eastern Theater of Operations during 1941

The German Air Force General Staff Andreas Nielsen,1959

The German Air Force versus Russia, 1942 Generalleutnant Hermann Plocher,2017-06-28 The German Air Force versus Russia 1942 written by Generalleutnant Hermann Plocher revised and edited by Mr Harry Fletcher and first published in 1966 is one of a

series of historical studies written for the United States Air Force Historical Division by men who had been key officers in the German Air Force during World War II The overall purpose of the series is twofold 1 To provide the United States Air Force with a comprehensive and insofar as possible authoritative history of a major air force which suffered defeat in World War II a history prepared by many of the principal and responsible leaders of that air force 2 to provide a firsthand account of that air force s unique combat in a major war especially its fight against the forces of the Soviet Union This series of studies therefore covers in large part virtually all phases of the Luftwaffe s operations and organization from its camouflaged origin in the Reichswehr during the period of secret German rearmament following World War I through its participation in the Spanish Civil War and its massive operations and final defeat in World War II with particular attention to the air war on the Eastern Front This work volume two of a series is devoted to a descriptive account in some parts in great detail of German aerial operations in the Eastern Theater of Operations during 1942

The Russian Air Force in the Eyes of German Commanders Generalleutnant Walter Schwabedissen, 2017-06-28 The Russian Air Force in the Eyes of German Commanders by Generalleutnant a D Walter Schwabedissen is one of a series of historical studies written by or based on information supplied by former key officers of the GAF for the United States Air Force Historical Division The overall purpose of the series is twofold 1 To provide the U S Air Force with a comprehensive and insofar as possible authoritative history of a major air force which suffered defeat in World War II a history prepared by many of the principal and responsible leaders of that air force 2 to provide a firsthand account of that air force s unique combat in a major war especially its fight against the forces of the Soviet Union This series of studies therefore covers in large part virtually all phases of the Luftwaffe s operations and organization from its camouflaged origin in the Reichswehr during the period of secret German rearmament following World War I through its participation in the Spanish Civil War and its massive operations and final defeat in World War II with particular attention to the air war on the Eastern Front In World War II the Russian Air Force came of age The men most vitally concerned with this aside from the Russians themselves were commanders in the German armed forces The experience of these commanders then constitutes a unique source for information on an organization whose capabilities both past and future are of vital concern to the world The chief German experience with the Russian Air Force derives from World War II It was during this period that the Russians learned most from the Germans and the Germans learned most about the Russians This study exploits this broad German experience Compiled from the official records of the German Air Force and from reports written by German commanders who saw action in the Russian campaign it documents many of the Russian Air Force s achievements as well as its failures

The German Air Force General Staff Gen.-Lt. Andreas Nielsen, 2017-07-11 The German Air Force General Staff first published in 1959 written by Generalleutnant a D Andreas Nielsen is one of a series of historical studies written for the United States Air Force Historical Division by former key officers of the German Air Force for the United States Air Force Historical Division The overall purpose of the series is threefold 1 To provide the United

States Air Force with a comprehensive and insofar as possible authoritative history of a major air force which suffered defeat in World War II 2 to provide a history of that air force as prepared by many of its principal and responsible leaders 3 to provide a firsthand account of that air force's unique combat in a major war with the forces of the Soviet Union This series of studies therefore covers in large part virtually all phases of the Luftwaffe's operations and organization from its camouflaged origin in the Reichswehr during the period of secret German rearmament following World War I through its participation in the Spanish Civil War and its massive operations and final defeat in World War II These studies find their principal authority in their authors personal knowledge and experience Thus these studies are neither unbiased nor are they histories in the ordinary sense of that word Instead they constitute a vital part of the story without which the final history of Germany's role in World War II cannot be written

Historical Turning Points in the German Air Force War Effort

Richard Suchenwirth, 1959 *German Air Force Operations in Support of the Army* Generalleutnant Paul Deichmann, 2017-06-28

German Air Force Operations in Support of the Army written by General der Flieger a D Paul Deichmann and first published in 1968 is one of a series of historical studies written by or based on information supplied by former key officers of the German Air Force for the United States Air Force Historical Division The overall purpose of the series is threefold 1 To provide the United States Air Force with a comprehensive and insofar as possible authoritative history of a major air force which suffered defeat in World War II 2 to provide a history of that air force as prepared by many of its principal and responsible leaders 3 to provide a firsthand account of that air force's unique combat in a major war with the forces of the Soviet Union This series of studies therefore covers in large part virtually all phases of the Luftwaffe's operations and organization from its camouflaged origin in the Reichswehr during the period of secret German rearmament following World War I through its participation in the Spanish Civil War and its massive operations and final defeat in World War II

German Air Force Airlift Operations Generalmajor a. D. Fritz Morzik, 2017-06-28 Germany's imaginative employment of transport aircraft in World War II produced as many innovations as Germany's use of tanks Indeed like the tank the transport aircraft was closely associated with the Blitzkrieg concept This relationship was advantageous at the outset of the war but it became dangerous as the war dragged on and German armies outran their surface supply lines in North Africa and Russia Then ground commanders began to think of air transport as the means of supply The history of this trend is one of the main themes of this study which was first published in its English translation in 1961 Some of the questions embodied in this theme How much air transport is enough Under what conditions is an air supply operation feasible What are the prerequisites for a successful airlift to encircled ground forces What are the advantages and limitations of the glider are as vital and controversial today as they were during World War II Generalmajor a D Fritz Morzik who began his military career as a non commissioned officer in the German Air Service in World War I and ended it as Armed Forces Chief of Air Transport in World War II is especially well qualified to write the present study His long career spanning two world wars and his

experience with both civilian and military transport aircraft testify to the breadth of his practical knowledge [Handbook on German Military Forces](#) , Published by the U S Army during World War II as an manual for its officers in the Pacific this handbook exhaustively details Japan s wartime military system field organization tactics weapons and equipment uniforms and more Reprint UP **Handbook on German Military Forces** United States. War Department,1970 **Handbook on German Military Forces** Bob Carruthers,2013-05-15 The Handbook On German Military Forces is an indispensable primary reference source for historians and enthusiasts In 1945 the Allies were still engaged in bitter fighting against stiff resistance from the German armies in the west The US War Department was determined to do its best to equip the US forces fighting the Germans in the field with as much knowledge as possible March 1945 saw the issue of an astonishing document entitled the Handbook On German Military Forces This was a truly remarkable work of intelligence gathering which formed a vast compendium of all the relevant knowledge amassed on the German Wehrmacht Amazingly accurate and comprehensive the Handbook ran to over six hundred pages and was designed to equip commanders in the field with everything they were likely to need to know about the German forces The Handbook remained classified until 1953 and then slipped into obscurity This new paperback reprint rescues this great work from obscurity covering the psychology organisation tactics and operational aspects of the German forces The weapons machines aircraft and uniforms of the German forces are also documented within the Handbook The Handbook On German Military Forces is a fascinating primary reference source for historians and enthusiasts alike providing an invaluable insight into the detail of the German Army which is still an unrivaled source of information today [Six Air Forces Over the Atlantic](#) Joseph T. Molyson Jr.,2024-04-16 The Battle of the Atlantic was the longest campaign of World War II lasting the entirety of the war in Europe from September 1939 to May 1945 It was also one of the war s most complex campaigns involving strategy operations tactics logistics politics diplomacy and alliances During the war s first two years the United States was drawn deeper into partnership with Great Britain and closer toward conflict with Germany in the waters of the North Atlantic Franklin Roosevelt realized this theater s importance I believe the outcome of this struggle is going to be decided in the Atlantic And so American British and Canadian forces battled Germans at sea and in the air to protect the flow of first materiel and then men from the United States to the United Kingdom The sea part has been well covered how German U boats and other warships hunted Allied convoys and how the Allies ultimately turned the tide Not so much the air war In Six Air Forces over the Atlantic Joseph Molyson tells the story of the Battle of the Atlantic from the perspective of the air forces and airmen who waged it from the skies above the icy waters of the North Atlantic He blends big picture attention to strategy and tactics with dramatic episodes of air to air and air to sea combat including the engagement in which a British light bomber captured a German U boat near Iceland He details the close eye Franklin Roosevelt kept on the campaign the effect B 24 Liberator bombers had and the rise of the Royal Air Force Coastal Command as a true U boat busting force The result was victory in the Atlantic as well as a significant contribution to victory in World

War II **The German Air Force versus Russia, 1943** Generalleutnant Hermann Plocher, 2017-06-28 The German Air Force versus Russia 1943 written by Generalleutnant Hermann Plocher revised and edited by Mr Harry Fletcher and first published in 1968 is one of a series of historical studies written for the United States Air Force Historical Division by men who had been key officers in the German Air Force during World War II The overall purpose of the series is twofold 1 To provide the United States Air Force with a comprehensive and insofar as possible authoritative history of a major air force which suffered defeat in World War II a history prepared by many of the principal and responsible leaders of that air force 2 to provide a firsthand account of that air force s unique combat in a major war especially its fight against the forces of the Soviet Union This series of studies therefore covers in large part virtually all phases of the Luftwaffe s operations and organization from its camouflaged origin in the Reichswehr during the period of secret German rearmament following World War I through its participation in the Spanish Civil War and its massive operations and final defeat in World War II with particular attention to the air war on the Eastern Front In the course of the crucial battles in the East at the close of 1942 the only important mission assigned to the Luftwaffe was that of providing for the support of the Army usually direct support on the field of battle This remained the Luftwaffe s main mission throughout the year 1943 and was almost exclusively dependent upon Army operations Therefore in this third volume on the war in Russia it is again necessary in fact even more than before to treat the ground situation in some detail *German Air Traffic Control During The Cold War* Frank W. Fischer, 2015-08-01 This is a historical facts report and commentary on the development of the German Air Traffic Control Centre RHEIN CONTROL as formerly operated by the United States Air Force in Europe USAFE and the former German Federal Administration for Air Navigation Services BFS assisted by the German Air Force GAF at Birkenfeld Nahe and Frankfurt Main in Germany RHEIN CONTROL was and still is an upper airspace air traffic control ATC centre formerly responsible for South Germany only but now also covering all of former East Germany Berlin UIR This report is written by a former air traffic controller and air traffic control expert who meanwhile actively spent 50 years in the ATC profession worldwide and has had first served 25 years with the German Federal Administration for Air Navigation Services Bundesanstalt f r Flugsicherung in upper airspace area control operations ATC planning and experimentation *The Luftwaffe* S. Mike Pavelec, 2018 The Luftwaffe the German Air Force played a crucial role in the Wehrmacht s blitzkrieg tactics providing both air cover and air artillery for Germany s panzer troops on the ground Germany s successful invasions of France the Low Countries the Balkans and the Soviet Union are due in no small part to the professionalism dedication and skill of the Luftwaffe The Luftwaffe gets behind this massive organization to reveal the workings of the German Air Force through its command structure economic resources production figures recruitment training and philosophy Broken down by key campaigns and subject areas the book includes reference tables diagrams color maps and charts presenting all the core data in easy to follow formats The Luftwaffe is an essential reference guide for anyone interested in the history and structure
