The German Air Force Versus Russia Hermann Plocher, United States. USAF Historical Division, Air University (U.S.). Aerospace Studies Institute, 1968 The German Air Force Versus Russia, 1941 Hermann Plocher, 1965 **The German Air Force versus Russia, 1941** Generalleutnant Hermann Plocher, 2017-06-28

The German Air Force versus Russia 1941 written by Generalleutnant Hermann Plocher and revised and edited by Mr Harry Fletcher is one of a series of historical studies written for the United States Air Force Historical Division by men who had been key officers in the German Air Force during World War II. The overall purpose of the series is twofold: 1 To provide the United States Air Force with a comprehensive and insofar as possible authoritative history of a major air force which suffered defeat in World War II; a history prepared by many of the principal and responsible leaders of that air force; 2 to provide a firsthand account of that air force's unique combat in a major war especially its fight against the forces of the Soviet Union. This series of studies therefore covers in large part virtually all phases of the Luftwaffe's operations and organization from its camouflaged origin in the Reichswehr during the period of secret German rearmament following World War I through its participation in the Spanish Civil War and its massive operations and final defeat in World War II with particular attention to the air war on the Eastern Front. This work volume one of a series is devoted to a descriptive account in some parts in great detail of German aerial operations in the Eastern Theater of Operations during 1941.

The German Air Force versus Russia, 1943 Generalleutnant Hermann Plocher, 2017-06-28

The German Air Force versus Russia 1943 written by Generalleutnant Hermann Plocher revised and edited by Mr Harry Fletcher and first published in 1968 is one of a series of historical studies written for the United States Air Force Historical Division by men who had been key officers in the German Air Force during World War II. The overall purpose of the series is twofold: 1 To provide the United States Air Force with a comprehensive and insofar as possible authoritative history of a major air force which suffered defeat in World War II; a history prepared by many of the principal and responsible leaders of that air force; 2 to provide a firsthand account of that air force's unique combat in a major war especially its fight against the forces of the Soviet Union. This series of studies therefore covers in large part virtually all phases of the Luftwaffe's operations and organization from its camouflaged origin in the Reichswehr during the period of secret German rearmament following World War I through its participation in the Spanish Civil War and its massive operations and final defeat in World War II with particular attention to the air war on the Eastern Front. In the course of the crucial battles in the East at the close of 1942 the only important mission assigned to the Luftwaffe was that of providing for the support of the Army usually direct support on the field of battle. This remained the Luftwaffe's main mission throughout the year 1943 and was almost exclusively dependent upon Army operations. Therefore in this third volume on the war in Russia it is again necessary in fact even more than before to treat the ground situation in some detail.

Red Phoenix Rising Von Hardesty, Ilya Grinberg, 2021-07-01 A groundbreaking account of the Soviet Air Force in World War II the original version of this book Red Phoenix was hailed by the Washington Post as both brilliant and monumental That version has now been completely overhauled in the wake of an avalanche of declassified Russian archival sources combat documents and statistical information made available in the past three decades The result Red Phoenix Rising is nothing less than definitive The saga of the Soviet air force one of the least chronicled aspects of the war marked a transition from near annihilation in 1941 to the world's largest operational tactical air force four years later Von Hardesty and Ilya Grinberg reveal the dynamic changes in tactics and operational art that allowed the VVS to bring about that remarkable transformation Drawing upon a wider array of primary sources well beyond the uncritical and ultra patriotic Soviet memoirs underpinning the original version this volume corrects updates and amplifies its predecessor In the process it challenges many official accounts and revises misconceptions promoted by scholars who relied heavily on German sources thus enlarging our understanding of the brutal campaigns fought on the Eastern Front The authors describe the air campaigns as they unfolded with full chapters devoted to the monumental victories at Moscow Stalingrad and Kursk By combining the deeply affecting human drama of pilots relentlessly confronted by lethal threats in the air and on the ground with a rich technical understanding of complex military machines they have produced a fast paced riveting look at the air war on the Eastern Front as it has never been seen before They also address dilemmas faced by the Soviet Air Force in the immediate postwar era as it moved to adopt the new technology of long range bombers jet propulsion and nuclear arms Drawing heavily upon individual accounts down to the unit level Hardesty and Grinberg greatly enhance our understanding of their story's human dimension while the book's more than 100 photos many never before seen in the West vividly portray the high stakes and hardware of this dramatic tale In sum this is the definitive one volume account of a vital but still underserved dimension of the war surpassing its predecessor so decisively that no fan of that earlier work can afford to miss it
