German Military Handguns 1879 1918:

German Military Handguns, 1879-1918 John Walter, 1980 The Luger Neil Grant, 2018-09-20 Patented in 1898 and produced from 1900 Georg Luger's iconic semi automatic pistol became synonymous with Germany's armed forces throughout both world wars Initially chambered for the 7.65 21mm round from 1902 the Luger was designed for DWM's 9 19mm round which even today remains the most popular military handgun cartridge It was adopted by the Imperial German Navy in 1904 followed by the German Army in 1908 receiving the name Pistole 08 Despite being supplanted by the Walther P38 the Luger remained in widespread service with all arms of Nazi Germany's armed forces throughout World War II and even equipped East Germany's Volkspolizei in the years after 1945 Featuring full colour artwork expert analysis and archive and present day photographs this engaging study tells the story of the Luger the distinctive and deadly semi automatic pistol that has come to symbolize Germany's armed forces in the 20th century **The Hand Gun Story** John Walter, 2008-06-30 A firearms expert traces the history of the one hand gun from its 14th century origins surveying changing technology techniques and design Midwest Book Review Ideally suited for both attack and self defense handguns have gotten smaller and deadlier But the earliest pistols had a tendency to misfire This was cured by the cap lock which proved a massive success in the American Civil War with hundreds of thousands of cap lock revolvers used on each side Self contained metal case cartridges were to bring a fundamental change to handgun design not only by allowing the introduction of revolvers that ejected automatically or were easily reloaded but also by paving the way for the automatic pistol World War I provided the handgun with a proving ground At the end of the hostilities with so much surplus weaponry work on the handgun could have ceased instead a new developmental phase was begun by the nations that had emerged from the crumbling Imperial empires During World War II the efficiency of well established designs was confirmed and new designs such as the Walther P 38 showed their potential The emergence of the submachine gun in 1945 reduced the status of the handgun but only temporarily The need for efficient self defense shows no signs of lessening and the rise in shooting for sport particularly with the revolver has sharpened the quest for efficiency The never ending search for advanced production techniques shows that the handgun has as much a future in the twenty first century as it had in the heyday of the Wild West or in the trenches of Passchendaele **Luger** John Walter, 2018-02-13 The distinctive look of the Luger and its role in German military history make it the world's most famous handgun In Luger renowned gun expert John Walter traces the history of this semiautomatic pistol from an early design by Hugo Borchardt in the 1890s through its use in the trenches of the First World War to the final days of the Third Reich in WWII Other books on the Parabellum Pistole as the Luger was also known focus strictly on narrow subjects like manufacturing details or accessories While still offering the technical details to satisfy the collector Walter provides a comprehensive narrative history Readers will learn of the initial collaboration between Borchardt and Georg J Luger who patented the design in 1898 Following initial adoption by the Swiss Army design refinements convinced the

Imperial German Navy to order the sidearm while the US Army passed on it following field trials in favor of the Colt. Production ramped up for World War I and the gun became a prized trophy for Allied soldiers in both that conflict and World War II. German soldiers aware of their desirability even used them as bait for booby traps. Today it is still desired by collectors both for its unique design and for its connection to the history of Nazi Germany and Luger. *The Story of the World's Most Famous Handgun* tells how it came to be. **How to Buy and Sell Used Guns** John E.
