German Philosophy And Politics:

German Philosophy and Politics John Dewey, 1915 German Philosophy And Politics John Dewey, 2024-04-20

German Philosophy and Politics is a book by John Dewey an influential American philosopher psychologist and educational reformer. Published in 1915 the book examines the relationship between German philosophy and political thought particularly in the context of the late 19th and early 20th centuries. Dewey's work provides a detailed analysis of the major trends and movements in German philosophy during this period including idealism materialism and existentialism. He may discuss the contributions of key figures such as Immanuel Kant Georg Wilhelm Friedrich Hegel Friedrich Nietzsche and others exploring how their ideas influenced political theory and practice. One of the central themes of German Philosophy and Politics is likely to be the impact of philosophical ideas on political ideology and social reform. Dewey may argue that philosophical concepts such as freedom justice and individual rights have profound implications for the organization of society and the exercise of political power. Additionally Dewey may examine the role of intellectuals and academic institutions in shaping political discourse and public opinion. He may discuss how philosophers and political theorists engage with broader social and political movements and how their ideas are disseminated and interpreted by the general public. Given Dewey's own background as a pragmatist philosopher and his interest in the relationship between theory and practice German Philosophy and Politics is likely to offer not only a scholarly analysis of German thought but also practical insights into the implications of philosophical ideas for political action and social change.

German Philosophy and Politics John Dewey, 2013-09

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book without typos from the publisher. Not indexed. Not illustrated. 1915 edition. Excerpt II GERMAN MORAL AND POLITICAL PHILOSOPHY. It is difficult to select sentences from Kant which are intelligible to those not trained in his vocabulary unless the selection is accompanied by an almost word by word commentary. His writings have proved an admirable terrain for the display of German *Gründlichkeit*. But I venture upon the quotation of one sentence which may serve the purpose of at once recalling the main lesson of the previous lecture and furnishing a transition to the theme of the present hour. Even if an immeasurable gulf is fixed between the sensible realm of the concept of nature and the supersensible realm of the concept of freedom so that it is not possible to go from the first to the second at least by means of the theoretical use of reason any more than if they were two separate worlds of which the first could have no influence upon the second yet the second is meant to have an influence upon the first. The concept of freedom is meant to actualize in the world of sense the purpose proposed by its *idea*. That is the relation between the world of space and time where physical causality reigns and the moral world of freedom and duty is not a symmetrical one. The former cannot intrude into the latter. But it is the very nature of moral legislation that it is meant to influence the world of sense its object is to realize the purposes of free rational action within the sense world. This fact fixes the chief features of Kant's philosophy of Morals and of the State. It is a claim of the admirers

of Kant that he first brought to recognition the true and infinite nature of the principle of Personality On one side the individual is homo phenomenon a part of the scheme of nature governed by [German Philosophy and Politics \(Classic Reprint\)](#) John Dewey,2017-11-21 Excerpt from German Philosophy and Politics The will of John Calvin mcnair established a Foundation at the University of North Carolina upon which public lectures are to be given from time to time to the members of the University This book contains three lectures which were given in February of this year upon this Foundation It is a pleasure to acknowledge the many courtesies About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [German Philosophy and Politics - Scholar's Choice Edition](#) John Dewey,2015-02-18 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *GERMAN PHILOSOPHY & POLITICS* John 1859-1952 Dewey,2016-08-26 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant [German Philosophy and Politics](#) John

German Philosophy And Politics John Calvin McNair Lectures John Dewey H Holt 1915 Philosophy German *Heidegger's Crisis* Hans D. Sluga,1993 Philosophy and politics make uneasy bedfellows Nowhere has this been more true than in Nazi Germany where the pursuit of truth and the will to power became fatally entangled Though Martin Heidegger s Nazi past is well known and much debated less is understood about the role of philosophy and other philosophers in the rise and development of National Socialism **Hegel on Ethics and Politics** Robert B. Pippin,Otfried Höffe,2004-03-04 This series makes available in English some important work by German philosophers on major figures in the German philosophical tradition The volumes will provide critical perspectives on philosophers of great significance to the Anglo American philosophical community perspectives that have been largely ignored except by a handful of writers on German philosophy The dissemination of this work will be of enormous value to Anglophone students and scholars of the history of German philosophy This collection brings together in translation the finest post war German language scholarship on Hegel s social and political philosophy concentrating on the Elements of the Philosophy of Right Many of the essays appear in English here for the first time all are translated anew *The Concept of Will in Classical German Philosophy* Manja Kisner,Jörg Noller,2020-06-08 This volume collects thirteen original essays that address the concept of will in Classical German Philosophy from Kant to Schopenhauer During this short but prolific period the concept of will underwent various transformations While Kant identifies the will with pure practical reason Fichte introduces in the wake of Reinhold an originally biological concept of drive into his ethical theory thereby expanding on the Kantian notion of the will Schelling Hegel and Schopenhauer take a step further and conceive the will either as a primal being Schelling as a socio ontological entity Hegel or as a blindly striving non rational force Schopenhauer Thus the history of the will is marked by a complex set of tensions between rational and non rational aspects of practical volition The book outlines these transformations from a historical and systematic point of view It offers an overview of the most important theories of the will by the major figures of Classical German Philosophy but also includes interpretations of conceptions developed by lesser studied philosophers such as Maimon Jacobi Reinhold and Bouterwek *Prussians, Nazis and Peaceniks* Jens Steffek,Leonie Holthaus,2020-03-16 In this book historians and political scientists show how radically external images of Germany changed over the 20th century

from the Prussian military state to the bulwark of liberalism They also explore how such images of Germany affected the evolution of international relations theory at some critical junctures Politics and Progress Dennis J. Mahoney,2004-01-01 Mahoney describes the emergence of American political science as a separate academic discipline in the era between the Civil War and the First World War with the pivotal event of the founding of the American Political Science Association in 1903 His book a testament to the integrity of American political science chronicles its intellectual and cultural development

Gramsci's Politics of Language Peter Ives,2004-01-01 Antonio Gramsci and his concept of hegemony have permeated social and political theory cultural studies education studies literary criticism international relations and post colonial theory The centrality of language and linguistics to Gramsci s thought however has been wholly neglected In Gramsci s Politics of Language Peter Ives argues that a university education in linguistics and a preoccupation with Italian language politics were integral to the theorist s thought Ives explores how the combination of Marxism and linguistics produced a unique and intellectually powerful approach to social and political analysis To explicate Gramsci s writings on language Ives compares them with other Marxist approaches to language including those of the Bakhtin Circle Walter Benjamin and the Frankfurt School including J rgen Habermas From these comparisons Ives elucidates the implications of Gramsci s writings which he argues retained the explanatory power of the semiotic and dialogic insights of Bakhtin and the critical perspective of the Frankfurt School while at the same time foreshadowing the key problems with both approaches that post structuralist critiques would later reveal Gramsci s Politics of Language fills a crucial gap in scholarship linking Gramsci s writings to current debates in social theory and providing a framework for a thoroughly historical materialist approach to language

Jewish Philosophical Politics in Germany, 1789-1848 Sven-Erik Rose,2014-08-05 In this book Rose illuminates the extraordinary creativity of Jewish intellectuals as they reevaluated Judaism with the tools of a German philosophical tradition fast emerging as central to modern intellectual life While previous work emphasizes the subversive dimensions of German Jewish thought or the inner antisemitism of the German philosophical tradition Rose shows convincingly the tremendous resources German philosophy offered contemporary Jews for thinking about the place of Jews in the wider polity Offering a fundamental reevaluation of seminal figures and key texts Rose emphasizes the productive encounter between Jewish intellectuals and German philosophy He brings to light both the complexity and the ambivalence of reflecting on Jewish identity and politics from within a German tradition that invested tremendous faith in the political efficacy of philosophical thought itself The Indian Philosophical Review Ramchandra Dattatraya Ranade,1919 **French Intellectuals and**

Politics from the Dreyfus Affair to the Occupation D. Drake,2005-04-05 A companion volume to Drake s Intellectuals and Politics in Post War France 2002 French Intellectuals from the Dreyfus Affair to the Occupation traces the political positions adopted by French writers and artists from the end of the 19th century to the Liberation Drawing on a wide range of primary and secondary sources it offers a clear and accessible analysis of the intellectuals engagement with nationalism

pacifism communism anti communism surrealism fascism and anti fascism which is located within the evolving national and international context of the period **The Secret of Hegel** James Hutchison Stirling,1898 Kant and his German Contemporaries: Volume 2, Aesthetics, History, Politics, and Religion Daniel O. Dahlstrom,2018-10-11 Kant's philosophical achievements have long overshadowed those of his German contemporaries often to the point of concealing his contemporaries influence upon him This volume of new essays draws on recent research into the rich complexity of eighteenth century German thought examining key figures in the development of aesthetics and art history the philosophy of history and education political philosophy and the philosophy of religion The essays range over numerous thinkers including Baumgarten Mendelssohn Meyer Winckelmann Herder Schiller Hamann and Fichte showing how they variously influenced challenged and revised Kant's philosophy at times moving it in novel directions unacceptable to the magister himself The volume will be valuable for all who are interested in this distinctive period of German philosophy *Enlightenment Phantasies* Harold Mah,2018-08-06 For centuries the histories of France and Germany have been linked in ways productive and destructive and each nation's sense of itself has often been shaped by admiration of or hostility toward the other Harold Mah explores the interweaving paths of German and French cultural identity that emerged in the Enlightenment and continued through the nineteenth century and into the twentieth Mah argues that the efforts of German and French intellectuals and artists to formulate stable cultural identities constantly collapsed in the face of other powerful images and the rush of history In Mah's view these shifting conceptions of cultural identity are problematic phantasies internally unstable and prone to falling apart under the pressure of events only to be replaced by new equally problematic constructions Mah offers fresh analyses of a wide range of iconic texts and artworks including those of Jacques Louis David de Staël Diderot and Rousseau in France and Goethe Hegel Herder Mann Marx and Nietzsche in Germany Mah's book examines how attempts to define cultural identities were caught up in issues of language gender classical revival politics and modernity *Enlightenment Phantasies* presents the shaping of cultural identity in narratives accessible not only to specialists but also to students and all readers concerned with the history of Western culture

This is likewise one of the factors by obtaining the soft documents of this **German Philosophy And Politics** by online.
