Finland at War 1939-45 Philip Jowett,Brent Snodgrass,2012-07-20 In the face of Soviet invasion in 1939 40 and once again in 1941 44 the armies raised by Finland a tiny nation of only 4 million people astonished the world by their effective resistance At the end of both these campaigns the Winter War and the Continuation War the fiercely patriotic defiance of vastly stronger Soviet forces by Marshal Mannerheim s soldiers won their country a unique prize although forced to accept harsh terms Finland was never occupied by the Red Army and retained its independence This book explains and illustrates for the first time in English the organization uniforms equipment and tactics of Finland s defenders **US Marine Corps**

1941-45 Gordon L. Rottman,2012-09-20 While the US Marine Corps was one of the smallest of American armed services in World War II its contribution to the final victory cannot be overstated The US Marine Corps may have only comprised 5 percent of America s armed forces but it suffered 10 percent of all World War II combat casualties Above all the amphibious nature of the war in the Pacific imposed on the Marine Corps greater tasks than any it had ever before been called upon to perform This title details the organization weapons and equipment of the US Marines of World War II Inside the US Army

Gordon L. Rottman,2012-09-20 When conscription was eliminated in the early 1970s the US Army found itself with a very different kind of soldier While the personality of the Army remained the same the organization of its higher levels of command and combat formations and the internal structure of its units underwent major changes under the Army of Excellence program of the 1980s This book explores the US Army of the late 80s including the training methods weapon systems Reserve Components organization and uniforms of one of the world s most potent fighting forces The text is illustrated with numerous photographs and eight colour plates **US Army Airborne 1940-90** Gordon L.

Rottman,2012-09-20 The first 50 years of the US Army airborne arm is a story of continuing battles with the nation s enemies of battles within the Army s hierarchy of change and of adaptation If there is any single attribute the airborne soldier can claim as his most sterling it is his uncanny ability to adapt his flexibility The very nature of a paratrooper demands this ability to adapt The motivation and spirit de corps it develops within these units is something not to be taken lightly The first class pairing of Gordon L Rottman and Ron Volstad bring to life the history of these remarkable troops *The US Navy in World*

War II Mark Henry,2012-08-20 In 1941 the US Navy had 17 battleships of which eight would be knocked out on the first day of the war four aircraft carriers and about 340 000 men including reservists Pearl Harbor so weakened it that it was unable to prevent the Japanese capture of the Philippines and a vast sweep of Pacific islands By 1945 it was the strongest navy the world had ever seen with nearly 100 carriers 41 000 aircraft and 3 3 million men the unrivalled master of air sea and

amphibious operations it was poised to invade Japan's home islands after reducing her fleet to scrap and her Pacific empire to impotence and starvation This extraordinary story is illustrated here with dramatic photos and nine meticulous colour plates showing a wide range of USN uniforms

European Medieval Tactics (2) David Nicolle, 2012-08-20 With the development in the 13th century of co operative tactics using crossbowmen and heavy spearmen the charge by Muslim horse archers and then by European armoured knights could be defied Infantry were far cheaper and easier to train than knights and potentially there were far more of them Tactics emerged by which more numerous and more varied infantry played an increasing part in battles This book traces these and other examples of this jerky and uneven process through its regional differences which were invariably entwined with parallel cavalry developments the balanced army of mixed arms was always the key to success By the time serious hand held firearms appeared on battlefields in large numbers in about 1500 the face of medieval warfare had been transformed This lavishly illustrated guide investigates the reappearance of massed disciplined infantry and assesses the challenge they posed to the mounted knights who had dominated the battlefield in the early Middle Ages

French Napoleonic Infantry Tactics 1792-1815 Paddy Griffith, 2012-08-20 A critical overview of the French infantry tactics which made them masters of Europe but eventually resulted in their defeat at Waterloo Bonaparte's Grande Armée one of the most renowned battle winning machines in history evolved from a merging of the professional army of the Ancien Régime and the volunteers and conscripts of the Revolutionary levée en masse although the contribution of the former is often underestimated A leading authority on the history of tactics draws here on original drill manuals and later writings to explain how the French infantry of 1792-1815 were organized for fire and movement on the battlefield Illustrated with clear diagrams and relevant paintings and prints and specially prepared colour plates this text brings the tactical aspects of eight battles vividly to life

Rottman,2012-09-20 The US armed forces were responsible for many tactical innovations during the years 1941 45 but in no field was US mastery more complete than amphibious warfare In the vast almost empty battlefield of the Pacific the US Navy and Marine Corps were obliged to develop every aspect of the amphibious assault landing in painstaking detail from the design of many new types of vessel down to the tactics of the rifle platoon hitting the beach and the logistic system without which they could not have fought their way inland This fascinating study offers a clear succinct explanation of every phase of these operations as they evolved during the war years illustrated with detailed color plates and photographs *The Chinese People's Liberation Army since 1949* Benjamin Lai,2012-11-20 The Chinese People s Liberation Army PLA is the largest army in the world China is predicted to be on the brink of overtaking the USA as the world s largest economy and China s military capabilities and global ambitions are the single greatest long term pre occupation of Western governments The PLA has progressed steadily if slowly since its creation in 1949 from a mass army of unsophisticated infantry limited to human wave tactics into a highly sophisticated force with wide capabilities The most recent reforms 1989 to the present day have been made possible by massive economic liberalization and have seen not only the modernization of all the armed forces but the beginnings of global outreach even including Chinese participation in UN peace keeping missions to Africa the Middle East and Haiti Featuring rare photographs and specially commissioned color artwork this study explores the developing structure organization equipment appearance and character of the Chinese People s Liberation Army from its creation until today **The British Home Front 1939-45** Martin Brayley,2012-07-20 The population of Britain was mobilized to support the war effort on a scale unseen in any other Western democracy or in Nazi Germany They endured long working shifts shortages of food and all other goods and complete government control of their daily lives Most men and women were conscripted or volunteered for additional tasks outside their formal working hours Under the air raids that destroyed the centres of many towns and made about 2 million homeless more than 60 000 civilians were killed and 86 000 seriously injured This fascinating illustrated summary of wartime life and the organizations that served on the Home Front is a striking record of endurance and sacrifice
