China's Rise Hugo Meijer, 2022-08-01 *Awakening to China's Rise* provides the most comprehensive analysis to date of how Europe's major powers have responded to the re-emergence of China as a great power in world politics since the end of the Cold War. To do so it puts forward a unique cross-regional comparison of how the major European powers France, Germany and the United Kingdom have confronted Chinese assertiveness both in the Asia Pacific and in Europe. Firstly it analyses their response to China's increasingly muscular regional posture in the Asia Pacific through the development of diplomatic and security initiatives with partners in the region. Secondly it delineates how they have confronted China's inroads into Europe looking at the measures that they have taken to tackle Chinese investments in and supply of technologies in strategic sectors such as critical national infrastructures, dual-use technologies and in the digital domain including Huawei's 5G networks. A longstanding assumption in the IR literature has been that European foreign policies toward the People's Republic of China have been driven by a naïve and self-interested focus on the economic opportunities presented by such a vast market overlooking security considerations. This book challenges such common belief through a detailed examination of the policies of France, Germany and the United Kingdom from 1989 to the present. Its central argument is that whereas this assessment aptly characterized the first two post-Cold War decades, Beijing's growing assertiveness after 2009 caused the three major European powers to awaken to China's rise. In the 2010s, heightened threat perceptions of China coupled with increasingly competitive bilateral economic relations with the PRC have gradually and cumulatively caused the hardening of their policy goals which in turn translated into the formulation of new policy instruments to confront such a challenge. To substantiate this argument the book relies on a large body of previously undisclosed primary sources including 223 interviews conducted with senior officials in Europe, Berlin, Brussels, London, Paris, in the United States, Washington DC and in Asia, Beijing, Shanghai, New Delhi, Seoul, declassified archival documents from France, the UK and Germany, leaked US diplomatic cables and new data on European naval deployments. **American Book Publishing Record Cumulative, 1950-1977: Title index** R.R.
