**Four Coronation Anthems** George Frideric Handel, 1999-01-01 Written in 1727 to accompany the ceremony during which George II ascended the English throne these anthems represent a true expression of Handel s genius This four part collection painstakingly reproduced from the authoritative Breitkopf The King shall rejoice My heart is inditing and the magnificent conclusion Let Thy hand be strengthened

**Electra After Freud** Jill Scott, 2005 Electra s story is essentially a tale of murder revenge and violence In the ancient myth of Atreus Agamemnon returns home from battle and receives no hero s welcome Instead he is greeted with an axe murdered in his bath by his wife Clytemnestra and her lover accomplice Aegisthus Electra chooses anger over sorrow and stops at nothing to ensure that her mother pays In revenge Electra with the help of her brother orchestrates a brutal and bloody matricide and her reward is the restitution of her father s good name Amid all

this chaos Electra Agamemnon's princess daughter must bear the humiliation of being treated as a slave girl and labeled a madwoman from the Introduction Almost everyone knows about Oedipus and his mother and many readers would put the Oedipus myth at the forefront of Western collective mythology In Electra after Freud Jill Scott leaves that couple behind and argues convincingly for the primacy of the countermyth of Agamemnon and his daughter Through a lens of Freudian and feminist psychoanalysis this book views renderings of the Electra myth in twentieth century literature and culture Scott reads several pivotal texts featuring Electra to demonstrate what she calls a narrative revolt against the dominance of Oedipus as archetype Situating the Electra myth within a framework of psychoanalysis medicine opera and dance Scott investigates the heroine's role at the intersections of history and the feminine eros and thanatos hysteria and melancholia Scott analyzes Electra adaptations by H D Hofmannsthal and Strauss Musil and Plath and highlights key moments in the telling and reception of the Electra myth in the modern imagination *Printed Opera Scores in American Libraries*, 1998

*Modern Drama and Opera*, 1915 **Queer Opera** Andrew Sutherland, 2023-03-27 In *Queer Opera* Andrew Sutherland argues that operas often reflect characteristics of the society and episteme in which they are written but that they also do much more than that operas have agency LGBTQ social cultural and political issues have become an increasingly defining feature of twenty first century life and as agency for change composers have turned to opera to underscore the lived queer experience Sutherland posits that operas written before the sexual revolution of the mid twentieth century utilized a codified language both in the libretto and score communicating with those observers open to a queer reading He explores the growing trend of local small scale independent opera companies seen around the world towards the end of the first decade of the twenty first century and argues that this has emboldened queer artists to reclaim opera as a queer space He further argues that for several centuries opera houses have been safe havens for queer composers librettists performers and designers and yet it is only relatively recently that any serious attempt at queer representation in operatic works has begun to be realized In this book he examines narratives and music of selected operas to walk through queer history in Western societies and shines a light on how many of opera's well known characters based on historical figures who represent pivotal moments in the queer story are responsible in a variety of ways for the continued struggle for queer acceptance **Electra** Ralph Vaughan Williams, Ralph Vaughan Williams incidental music for Gilbert Murray's English translation of Euripides Electra is edited and arranged for orchestra by Alan Tongue Vaughan Williams was brought into the production of three Greek plays by the dancer Isadora Duncan with the public performance taking place at London's Royal Court Theatre on Friday 31 May 1912 A preview of the production appearing in *The Globe* remarked of Vaughan Williams musical settings they are an attempt at something new and something which is neither German nor French This music is no experiment in style It would seem rather as though the composer had disclaimed all styles and all schools and found direct inspiration in the material of the poet's inspiration and the result is something of undeniable beauty **Der Rosenkavalier** Richard

Strauss,1912     **The Rose-bearer** Richard Strauss,1912     **Dictionary Catalog of the Music Collection** New York Public Library. Reference Department,1964     Notes on the Programs New York Philharmonic,1957     **The Complete Catalogue of Music Published by Novello, Ewer and Co** Novello, Ewer and Co., firm, music publishers, London & New York,1890     *The Musical Times & Singing-class Circular* ,1910     **Musical Symbolism in the Operas of Debussy and Bartok** Elliot Antokoletz,2004-07-22 This book explores the means by which the operas of Debussy and Bartok transform the structures of the traditional harmonic system into a new musical language Antokoletz formulates new theoretic analytic principles and describes how these principles link various historical and cultural as well as philosophical and psychological issues of the early twentieth century within the operatic milieu The new musical language described here is based almost exclusively on interactions between folk modalities and their more abstract symmetrical     Operas in German: A Dictionary Margaret Ross Griffel,2018-01-23 With nearly three thousand new entries the revised edition of *Operas in German A Dictionary* is the most current encyclopedic treatment of operas written specifically to a German text from the seventeenth century through 2016 Musicologist Margaret Ross Griffel details the operas composers scores librettos first performances and bibliographic sources Four appendixes then list composers librettists authors whose works inspired or were adapted for the opera librettos and a chronological listing of the entries in the A Z section The bibliography details other dictionaries and encyclopedias performance studies collections of plot summaries general studies on operas sources on locales where opera premieres took place works on the history of operas in German and selective volumes on individual opera composers librettists producers directors and designers Finally two indexes list the main characters in each opera and the names of singers conductors producers composers directors choreographers and arrangers The revised edition of *Operas in German* provides opera historians musicologists performers and opera lovers with an invaluable resource for continued study and enjoyment     **Pretrained Transformers for Text Ranking** Jimmy Lin,Rodrigo Nogueira,Andrew Yates,2022-06-01 The goal of text ranking is to generate an ordered list of texts retrieved from a corpus in response to a query Although the most common formulation of text ranking is search instances of the task can also be found in many natural language processing NLP applications This book provides an overview of text ranking with neural network architectures known as transformers of which BERT Bidirectional Encoder Representations from Transformers is the best known example The combination of transformers and self supervised pretraining has been responsible for a paradigm shift in NLP information retrieval IR and beyond This book provides a synthesis of existing work as a single point of entry for practitioners who wish to gain a better understanding of how to apply transformers to text ranking problems and researchers who wish to pursue work in this area It covers a wide range of modern techniques grouped into two high level categories transformer models that perform reranking in multi stage architectures and dense retrieval techniques that perform ranking directly Two themes pervade the book techniques for handling long documents beyond typical sentence by sentence processing in NLP and techniques for

addressing the tradeoff between effectiveness i.e result quality and efficiency e.g query latency model and index size  
Although transformer architectures and pretraining techniques are recent innovations many aspects of how they are applied to text ranking are relatively well understood and represent mature techniques However there remain many open research questions and thus in addition to laying out the foundations of pretrained transformers for text ranking this book also attempts to prognosticate where the field is heading      **Four Musical Minimalists** Keith Potter,2002-04-25 Offers the most detailed account yet of the early works of these four minimalist composers      [The Musical Times](#) ,1909      [The Forum](#)
