Epistemology and Practice Anne Warfield Rawls, 2005-02-22 Anne Warfield Rawls argues that although Durkheim's *The Elementary Forms of Religion* is the crowning achievement of his sociological accomplishments, it has been consistently misunderstood. Rather than a work on primitive religion or the sociology of knowledge, Rawls asserts that Durkheim's analysis represents an attempt to establish a unique epistemological basis for the study of sociology and moral relations. Based on detailed analysis of the primary text, this book will be an important and original contribution to contemporary debates on social theory and philosophy.
