Guggenheim Museum, 1995 By the time Georg Baselitz b 1938 came to artistic maturity in Germany in the mid 1960s he had renounced the gestural abstraction prevalent in Europe and America and developed a new aesthetic based upon the figure and its representation as an abstract image His bold canvases which began to feature his signature upside down figures later in the decade have brought him international recognition but only now is his important career the subject of a comprehensive survey organized by the Guggenheim Museum and traveling to the Los Angeles County Museum of Art the Hirshhorn Museum and Sculpture Garden Washington D C and the Nationalgalerie Berlin This monograph by Guggenheim Deputy Director and Senior Curator Diane Waldman documents every phase of the artist's career as a painter and sculptor New translations of many of Baselitz's writings provide additional insight into his radical use of the figure in painting A chronology bibliography and exhibition history are also included *Art Books* Wolfgang M.
