Georg Kaiser In Sachen Georg Kaiser Briefe 19161933:

Georg Kaiser in Sachen Georg Kaiser Georg Kaiser, Gesa M. Valk, 1989 Encyclopedia of German Literature Matthias Konzett, 2015-05-11 Designed to provide English readers of German literature the opportunity to familiarize themselves with both the established canon and newly emerging literatures that reflect the concerns of women and ethnic minorities the Encyclopedia of German Literature includes more than 500 entries on writers individual work and topics essential to an understanding of this rich literary tradition Drawing on the expertise of an international group of experts the essays in the encyclopedia reflect developments of the latest scholarship in German literature culture and history and society In addition to the essays author entries include biographies and works lists and works entries provide information about first editions selected critical editions and English language translations All entries conclude with a list of further readings *Undertones of Insurrection* Marc Weiner, 2017-09-29 A basic tenet of literary studies is that aesthetic structures are politically significant because they represent an artist's response to the political implications of cultural codes with which the recipient of the modern work is also acquainted This tenet provides the basis for the ideological associations attending the appearance of music in the modern German narrative With his understanding of the arts as involved in often unacknowledged ideological forces within a culture Marc Weiner's *Undertones of Insurrection* bridges the gap between the New Musicology's rewarding infusion of modern cultural and literary theory into the study of music politically insightful examinations of narrative structures in the modern novel and the methodologically conservative area of musical literary relations in Germanic Studies In other words the questions it raises are different from those pursued in most examinations of music and literature because previous works of this kind concerning the literature of German speaking Europe have often disregarded social concerns in general and political issues in particular Ranging from 1900 to *Doctor Faustus* 1947 Weiner's study sets the stage by examining public debates that conflated such issues as national identity racism populism the role of the sexes and xenophobia with musical texts In the literary analyses that follow Weiner discusses both obvious connections between music and sociopolitical issues Hesse's equation of jazz and insurrection in *Steppenwolf* and covert ones the suppression of music in *Death in Venice* and the use of politically charged musical subtexts in Werfel's *Verdi* and Schnitzler's *Rhapsody* By uncovering the ideological agendas informing cultural practice in modernist Germany *Undertones of Insurrection* calls for a reevaluation of the function of music in the modern German narrative Legacies of Modernism P. McBride, R. McCormick, M. Zagar, 2007-01-22 Between 1890 and 1950 modernist art and culture set out to challenge century old notions of the individual and the community culture and politics morality and freedom placing into question the very foundations of Western civilization The essays in this volume present a novel assessment of various manifestations of modernism in Germany and Scandinavia by posing the question of its critical and political impact beyond traditional polarities such as right vs left illiberalism vs Enlightenment apolitical vs engaged In drawing on a wide range of disciplinary perspectives including

literary studies art history film and visual studies urban studies musicology political theory and the history of science and technology the essays in this volume reexamine modernism s bold inquiry into areas such as the relation of art to technology and mass politics the limits of liberal democracy the reconceptualization of urban spaces and the realignment of traditional art forms following the rise of new media such as film The volume s contributors share a belief in the timeliness of modernism s critical impulse for a contemporary age confronted with ethical and political dilemmas that the modernists first articulated and to which they attempted to respond **Georg Kaiser, 1878-1945** Gisela Zander,1995 **Briefe**
