1817-1833 United States. President,1897 *Makers of the USA* John Walton,1947 [American Heritage History of the Presidents Washington to Van Buren](#) Bruce Catton,2016-02-03 The best way to examine the presidency now writes the Pulitzer Prize winning historian Bruce Catton is to examine the lives and personalities of the men who have held it because the presidency today is in many ways the sum of large and small contributions made by the different presidents Here in the first volume of American Heritage s history of presidents are the dramatic stories of the first eight men to hold the office George Washington John Adams Thomas Jefferson James Madison James Monroe John Quincy Adams Andrew Jackson and Martin Van Buren

George Washington and Political Fatherhood Heinz Tschachler,2020-02-20 More than two hundred years after his death George Washington is still often considered the metaphorical father of the United States He was first known as the Father of His Country during his lifetime when the American people bestowed the title upon him as a symbolic act of resistance and rebirth Since then presidents have stood as paternal figureheads for America often serving as moral beacons This book tracks political fatherhood throughout world history from the idea of the pater patriae in Roman antiquity to Martin Luther s Bible translations and beyond Often using George Washington as a paradigm the author explores presidential iconography in the U S propaganda and the role of paternal rhetoric in shaping American sociopolitical history including the results of the 2016 presidential election

[Andrew Jackson and the Miracle of New Orleans](#) Brian Kilmeade,Don Yaeger,2017-10-24 Another history pageturner from the authors of the 1 bestsellers George Washington s Secret Six and Thomas Jefferson and the Tripoli Pirates The War of 1812 saw America threatened on every side Encouraged by the British Indian tribes attacked settlers in the West while the Royal Navy terrorized the coasts By mid 1814 President

James Madison's generals had lost control of the war in the North losing battles in Canada. Then British troops set the White House ablaze and a feeling of hopelessness spread across the country. Into this dire situation stepped Major General Andrew Jackson. A native of Tennessee who had witnessed the horrors of the Revolutionary War and Indian attacks, he was glad America had finally decided to confront repeated British aggression. But he feared that President Madison's men were overlooking the most important target of all: New Orleans. If the British conquered New Orleans, they would control the mouth of the Mississippi River, cutting Americans off from that essential trade route and threatening the previous decade's Louisiana Purchase. The new nation's dreams of western expansion would be crushed before they really got off the ground. So Jackson had to convince President Madison and his War Department to take him seriously, even though he wasn't one of the Virginians and New Englanders who dominated the government. He had to assemble a coalition of frontier militiamen, French-speaking Louisianans, Cherokee and Choctaw Indians, freed slaves, and even some pirates. And he had to defeat the most powerful military force in the world in the confusing terrain of the Louisiana bayous. In short, Jackson needed a miracle. The local Ursuline nuns set to work praying for his outnumbered troops. And so the Americans, driven by patriotism and protected by prayer, began the battle that would shape our young nation's destiny. As they did in their two previous bestsellers, *Kilmeade* and *Yaeger*, make history come alive with a riveting true story that will keep you turning the pages. You'll finish with a new understanding of one of our greatest generals and a renewed appreciation for the brave men who fought so that America could one day stretch from sea to shining sea.

Inventing the Job of President Fred I. Greenstein, 2009-08-10

How the early presidents shaped America's highest office. From George Washington's decision to buy time for the new nation by signing the less-than-ideal Jay Treaty with Great Britain in 1795 to George W. Bush's order of a military intervention in Iraq in 2003, the matter of who is president of the United States is of the utmost importance. In this book, Fred Greenstein examines the leadership styles of the earliest presidents, men who served at a time when it was by no means certain that the

American experiment in free government would succeed In his groundbreaking book *The Presidential Difference* Greenstein evaluated the personal strengths and weaknesses of the modern presidents since Franklin D Roosevelt Here he takes us back to the very founding of the republic to apply the same yardsticks to the first seven presidents from Washington to Andrew Jackson giving his no nonsense assessment of the qualities that did and did not serve them well in office For each president Greenstein provides a concise history of his life and presidency and evaluates him in the areas of public communication organizational capacity political skill policy vision cognitive style and emotional intelligence Washington for example used his organizational prowess honed as a military commander and plantation owner to lead an orderly administration In contrast John Adams was erudite but emotionally volatile and his presidency was an organizational disaster *Inventing the Job of President* explains how these early presidents and their successors shaped the American presidency we know today and helped the new republic prosper despite profound challenges at home and abroad **The Tribune Almanac for the Years**
