**Geraldo de Barros, 1923-1998** Geraldo de Barros, Marcos Augusto Gonçalves, 1999 At the end of the 1940s Geraldo de Barros sparked controversy in Sao Paulo with his photographic experiments At the same time it was these works which secured him a scholarship to study at the Ecole Superieure des Beaux Arts in Paris He developed valuable international contacts to protagonists such as Henri Cartier Bresson Brassai Vieira da Silva and Francois Morellet Returning to Brazil de Barros became one of the leading artists in the area of concrete art His photographic oeuvre was brought back into the limelight in the 1980s by his daughter who inspired de Barros to continue his experiments **New Perspectives on Brazilian Constructivism** Renato Rodrigues da Silva, 2021-08-17 Going beyond current readings of Concretism and Neoconcretism this book shows how these movements were bred in the Brazilian circuit after adapting international constructivism to the cultural conditions of the country Thus based on a systematic investigation in the archives of newspapers of that period this book explores the premises through which Neoconcretism became organized and gained momentum in a series of debates between the avant gardes of S o Paulo and Rio de Janeiro debates that focused on the visual arts and poetry as objects of intense aesthetic experimentation and prospective transformation They offer a guide through what seems to be a maze of contradictory theories and purposes Academic readers interested in Latin American and Brazilian art will learn about the contributions of Geraldo de Barros Franz Weissmann Ferreira Gullar Lygia Clark Luiz Sacilotto Willys de Castro and H lio Oiticica to Brazilian constructivism and will realize that the seven chapters of this book inevitably question the canon of contemporary art In fact the contributions of these artists go beyond national borders since Concretism and Neoconcretism created early versions of interdisciplinary and transdisciplinary art participatory art process art visual poetry performance installation art institutional critique body art and environmental art in some cases prior to the United States and Europe **Geraldo de Barros: Isso** Fabiana de Barros, 2015-11-30 Geraldo de Barros 1923 1998 foi um dos maiores representantes do modernismo no Brasil Assimilou os princ pios da Escola Superior de Design de Ulm Alemanha trouxe os para a Am rica do Sul e incentivou muitos de seus colegas se unirem ao movimento da arte concreta Cultivou contatos com a vanguarda art stica europeia e no Brasil foi um fomentador pioneiro experimentando novas tend ncias como o happening e a arte pop Este livro apresenta um panorama da vida e obra do artista organizado cronologicamente e contemplando todas as vertentes de sua produ o com nfase na fotografia Este ebook traz imagens que s o melhor visualizadas em tablets Geraldo de Barros 1923 1998 was one of the greatest representatives of modernism in Brazil He assimilated the principles of the Design School of Ulm Germany brought them to South America and encouraged many of his colleagues to join Concrete Art movement Barros cultivated contacts with European artistic avant garde and in Brazil was a pioneer developer experiencing new trends such as happening and Pop Art This book presents an overview of the artist s life and work organized chronologically and covering all aspects of its production with an emphasis on photography This ebook

Franco, 2018-09-27 This edited volume examines the history of abstract art across Latin America after 1945. This form of art grew in popularity across the Americas in the postwar period often serving to affirm a sense of being modern and the right of Latin America to assume the leading role Europe had played before World War II. Latin American artists practiced gestural and geometric abstraction though the history of art has favored the latter. Recent scholarship for instance has focused on geometric abstraction from Argentina, Brazil, and Venezuela. The book aims to expand the map and consider this phenomenon as it developed in neglected regions such as Central America and the Andes, investigating how this style came to stand in for Latin American contemporary art.

**Forming Abstraction** Adele Nelson, 2022-02-22 Art produced outside hegemonic centers is often seen as a form of derivation or relegated to a provisional status. *Forming Abstraction* turns this narrative on its head. In the first book-length study of postwar Brazilian art and culture, Adele Nelson highlights the importance of exhibitionary and pedagogical institutions in the development of abstract art in Brazil. By focusing on the formation of the São Paulo Biennial in 1951, the early activities of artists Geraldo de Barros, Lygia Clark, Waldemar Cordeiro, Hélio Oiticica, Lygia Pape, and Ivan Serpa, and the ideas of critics like Mário Pedrosa, Nelson illuminates the complex strategic processes of citation and adaptation of both local and international forms. The book ultimately demonstrates that Brazilian art institutions and abstract artistic groups and their exhibitions of abstract art in particular served as crucial loci for the articulation of societal identities in a newly democratic nation at the onset of the Cold War.

**Historical Narratives of Global Modern Art** Irina D. Costache, Clare Kunny, 2023-07-31 Diversifying the current art historical scholarship, this edited volume presents the untold story of modern art by exposing global voices and perspectives excluded from the privileged and uncontested narrative of isms. This volume tells a worldwide story of art with expanded historical narratives of modernism. The chapters reflect on a wide range of issues, topics, and themes that have been marginalized or outright excluded from the canon of modern art. The goal of this book is to be a starting point for understanding modern art as a broad and inclusive field of study. The topics examine diverse formal expressions, innovative conceptual approaches, and various media used by artists around the world and forcefully acknowledge the connections between art, historical circumstances, political environments, and social issues such as gender, race, and social justice. The book will be of interest to scholars working in art history, imperial and colonial history, modernism, and globalization.

Burbano,2023-03-31 Different Engines investigates the emergence of technologies in Latin America to create images sounds video games and physical interactions The book contributes to the construction of a historiographical and theoretical framework for understanding the work of creators who have been geographically and historically marginalized through the study of five exemplary and yet relatively unknown artifacts built by engineers scientists artists and innovators It offers a broad and detailed view of the complex and sometimes unlikely conditions under which technological innovation is possible and of the problematic logics under which these innovations may come to be devalued as historically irrelevant Through its focus on media technologies the book presents the interactions between technological and artistic creativity working towards a wider understanding of the shifts in both fields that have shaped current perceptions practices and design principles while bringing into view the personal social and geopolitical singularities embodied by particular devices It will be an engaging and insightful read for scholars researchers and students across a wide range of disciplines such as media studies art and design architecture cultural history and the digital humanities **A Companion to Modern and Contemporary Latin American**

**Learning from Madness** Kaira M. Cabañas,2018-09-21 Throughout the history of European modernism philosophers and artists have been fascinated by madness Something different happened in Brazil however with the art of the insane that flourished within the modernist movements there From the 1920s to the 1960s the direction and creation of art by the mentally ill was actively encouraged by prominent figures in both medicine and art criticism which led to a much wider appreciation among the curators of major institutions of modern art in Brazil where pieces are included in important exhibitions and collections Kaira M Caba as shows that at the center of this advocacy stood such significant proponents as psychiatrists Os rio C sar and Nise da Silveira who championed treatments that included painting and drawing studios and the art critic M rio Pedrosa who penned Gestaltist theses on aesthetic response Caba as examines the lasting influence of this unique era of Brazilian modernism and how the afterlife of this outsider art continues to raise important questions How do we respect the experiences of the mad as their work is viewed through the lens of global art Why is this art reappearing now that definitions of global contemporary art are being contested Learning from Madness offers an invigorating series of case studies that track the parallels between psychiatric patients work in Western Europe and its reception by influential artists there to an analogous but altogether distinct situation in Brazil Artistic Migration Aline Coelho Sanches,2024-03-29 Artistic Migration Reframing Post War Italian Art Architecture and Design in Brazil investigates a selection of works by Italian artists and architects and an art critic and dealer who immigrated to Brazil after World War II and were involved in the first activities and opportunities created by the S o Paulo Museum of Art MASP Although foreigners

these experts namely Bramante Buffoni Roberto Sambonet Lina Bo Bardi Giancarlo Piretti and Pietro Maria Bardi were engaged in the construction of paths for Brazilian art architecture and design in production marked by the intertwining of artistic disciplines By examining the works produced between 1946 and 1991 and focusing on the relationship between art and architecture with previously unexplored cases the text investigates how these actors engaged in the dilemmas of Brazilian culture and became part of its invention The intention is to understand the nature and meaning of this recognizable experience the continuities of and ruptures from modern architectural art and design ideals pre war experience and immigration illuminating a complex framework of relationships with local ideas The approach and the extensive archival research in Italy and Brazil adopted for the book sheds new light on critically rethinking and reframing Italian and Brazilian cultural events and will be of interest to architects researchers teachers and students interested in the history of architecture museums design and art

*Spatial Orders, Social Forms* Adrian Anagnost, 2022-01-01 A fascinating look at modernist urban planning and spatial theories in Brazilian 20th century art and architecture Exploring the intersections among art architecture and urbanism in Brazil from the 1920s through the 1960s Adrian Anagnost shows how modernity was manifested in locally specific spatial forms linked to Brazil's colonial and imperial past Discussing the ways artists and architects understood urban planning as a tool to reorganize the world control human action and remedy social problems Anagnost offers a nuanced account of the seeming conflict between modernist aesthetics and a predominately poor and historically disenfranchised urban public with particular attention to regionalist forms of urban development Organized as a series of case studies of projects such as Flávio de Carvalho's performative urbanism the construction of the Ministry of Education and Public Health building Lina Bo and Pietro Maria Bardi's efforts to modernize Brazilian museums and Heitor Oiticica's interstitial works this study is full of groundbreaking insights into the ways that modernist theories of urbanism shaped the art and architecture of 20th century Brazil
