Gerhard Richter Gerhard Richter, 1991 **Gerhard Richter** ,1991 *Gerhard Richter* Anthony d'Offay Gallery (London), 1991 **Gerhard Richter** Gerhard Richter, 1986 The Artwork of Gerhard Richter Darryn Ansted, 2017-07-05

By uniquely treating Gerhard Richter's entire oeuvre as a single subject Darryn Ansted combines research into Richter's first art career as a socialist realist with study of his subsequent decisions as a significant contemporary artist Analysis of Richter's East German murals early work lesser known paintings and destroyed and unfinished pieces buttress this major re-evaluation of Richter's other well known but little understood paintings By placing the reader in the artist's studio and examining not only the paintings but the fraught and surprising decisions behind their production Richter's methodology is deftly revealed here as one of profound yet troubled reflection on the shifting identity culture and ideology of his period This rethinking of Richter's oeuvre is informed by salient analyses of influential theorists ranging from Theodor Adorno to Slavoj Žižek as throughout meticulous visual analysis of Richter's changing aesthetic strategies shows how he persistently attempts to retrace the border between an objective reality structured by ideology and his subjective experience as a contemporary painter in the studio Its innovative combination of historical accuracy philosophical depth and astute visual analysis will make this an indispensable guide for both new audiences and established scholars of Richter's painting **Gerhard Richter, zwei graue Doppelspiegel für ein Pendel**, 2018 **The Art of Gerhard Richter** Christian Lotz, 2015-10-22 The Art of Gerhard Richter Hermeneutics Images Meaning presents the first philosophical investigation of arguably one of the most popular and important painters working today Gerhard Richter From monochrome painting and photo realism to conceptual art and gesture expressive painting Richter has transformed the spectrum of 20th Century painting Building upon Gadamer's notion of formed images the book outlines elements of a hermeneutics and a phenomenology of images and paintings Moreover the hermeneutic approach to art is combined with the crucial question of how paintings and photographs are related to each other for Richter The author suggests that paintings open up the fixed relation and intentionality of photographs by idealizing and essentializing the content of the photographs By relying upon a hermeneutical and phenomenological approach rather than working from abstract theory The Art of Gerhard Richter provides philosophical insights developed out of Richter's works of art Uncovering key philosophical aspects of Richter's work the author's reflections discuss the relation between appearance and essence the role of faith and hope the dialectic of distance and nearness the issues of death and terror and the role of beauty and landscapes in Richter's paintings **Gerhard Richter** Verlag der Buchhandlung Walther König Köln, Dieter Schwarz, 2021-05-10 Dieter Schwarz **Flesh of My Flesh** Kaja Silverman, 2009-10-28 What is a woman What is a man How do they and how should they relate to each other Does our yearning for wholeness refer to something real and if there is a Whole what is it and why do we feel so estranged from it For centuries now art and literature have increasingly valorized uniqueness and self sufficiency The theoreticians who loom so

large within contemporary thought also privilege difference over similarity Silverman reminds us that this is but half the story and a dangerous half at that for if we are all individuals we are doomed to be rivals and enemies A much older story one that prevailed through the early modern era held that likeness or resemblance was what organized the universe and that everything emerges out of the same flesh Silverman shows that analogy so discredited by much of twentieth century thought offers a much more promising view of human relations In the West the emblematic story of turning away is that of Orpheus and Eurydice and the heroes of Silverman s sweeping new reading of nineteenth and twentieth century culture the modern heirs to the old analogical view of the world also gravitate to this myth They embrace the correspondences that bind Orpheus to Eurydice and acknowledge their kinship with others past and present The first half of this book assembles a cast of characters not usually brought together Friedrich Nietzsche Sigmund Freud Marcel Proust Lou Andr as Salom Romain Rolland Rainer Maria Rilke Wilhelm Jensen and Paula Modersohn Becker The second half is devoted to three contemporary artists whose works we see in a moving new light Terrence Malick James Coleman and Gerhard Richter

Gerhard Richter Gerhard Richter, 2009 Gerhard Richter born in Dresden in 1932 is one of the foremost painters of his generation A great deal has been written about the remarkable heterogeneity of Richter's work his seemingly wilful and defiant movement between abstract and figurative modes of representation and his use of a variety of methods of applying paint to canvas Central to his work is a strong set of values which throughout his career he has expressed in extensive notes and writings and in provocative and memorable public declarations in which he shows himself to be the master of the paradoxical statement This volume makes available a comprehensive selection of Richter's texts several published for the first time These texts come from all periods of his career letters and interviews public statements about specific exhibitions private reflections drawn from personal correspondence answers to questions posed by critics and excerpts from journals discussing the intentions subjects methods and sources of his work from various periods Complete with a comprehensive appendix and accompanied by over a hundred photographs of artworks works in progress exhibition installations colleagues and family this book forms a brilliantly illuminating commentary on Richter's art as well as providing a thought provoking discussion on the status of art and the artist in society today

Unconsoleable Contemporary Paul Rabinow, 2017-10-19 In *Unconsoleable Contemporary* Paul Rabinow continues his explorations of a philosophic anthropology of the contemporary Defining the contemporary as a moving ratio in which the modern becomes historical Rabinow shows how an anthropological ethos of the contemporary can be realized by drawing on the work of art historians cultural critics social theorists and others thereby inventing a methodology he calls anthropological assemblage He focuses on the work and persona of German painter Gerhard Richter demonstrating how reflecting on Richter's work provides rich insights into the practices and stylization of what following Aby Warburg one might call the afterlife of the modern Rabinow opens with analyses of Richter's recent Birkenau exhibit both the artwork and its critical framing He then chronicles Richter's experiments in image making as well as his subtle inclusion of art historical and critical discourses about the modern This Rabinow contends enables Richter to signal his awareness of the stakes of such theorizing while refusing the positioning of his work by modernist critical theorists In this innovative work Rabinow elucidates the ways meaning is created within the contemporary
