**Clinical Geriatric Cardiology** Robert J. Luchi,1989      *Cardiac Rehabilitation, An Issue of Clinics in Geriatric Medicine* Daniel E. Forman,2019-09-21 This issue of Clinics in Geriatric Medicine guest edited by Dr Daniel E Forman is devoted to Cardiac Rehabilitation Articles in this outstanding issue include Cardiac Rehabilitation No Such Thing As Too Old Evaluating and Treating Frailty in Cardiac Rehabilitation Utility of Home based Cardiac Rehabilitation for Older Adults Benefits of Smart devices Wearables and Other Telehealth Options to Enhance Cardiac Rehab Resistance Training in Cardiac Rehabilitation for Older Adults High Intensity Interval Training HIIT in Cardiac Rehabilitation for Older Adults Pre habilitation The right medicine for older frail adults anticipating TAVR CABG and other cardiovascular care Using Cardiac Rehabilitation to Adjust Medications in Older Adults Aggressive Prevention and Deprescribing as 2 Sides of the Same Coin Gender Disparities in Cardiac Rehabilitation Among Older Women Key opportunities to improve care Cardiac Rehabilitation for TAVR Cardiac Rehabilitation for Heart Failure in Older Adults Cardiac Rehabilitation for Peripheral Arterial Disease PAD in Older Adults Cardiac Rehabilitation as Part of Management in Post acute Care PAC Opportunities for improving care and Tailoring Assessments in Cardiac Rehabilitation for Older Adults The relevance of geriatric domains      Cardiovascular Disease in the Elderly Franz H. Messerli,2013-12-01 By the time a man gets well into his seventies his continued existence is a mere miracle Robert Louis Stevenson It hardly seems possible that a second edition is needed after the first has been in print for only three years However when I reflect on what has happened in geriatric cardiology during that short period it becomes obvious why First cardiologists all over the globe have begun to realize that geriatric cardiology has evolved into a science and a clinical discipline of its own Although some of us may consider such subspecialization unfortunate it has become clear that a variety of cardiac disorders present with different symptoms and signs require a different diagnostic and therapeutic approach and have a different prognostic outlook in the elderly when compared to middle aged patients Since the aging segment of the population has increased dramatically over the past few decades and continues to do so specific age related disorders are more frequently encountered by the practicing physician be it by the general practitioner by the internist or by a cardiologist Cardiovascular Disease in the Elderly provides an up to date guide to help the physician deal with these problems leading the way in what turns out to be an increasingly complex area Second I have been heartened by the warm reception of the first edition and by the excellent reviews that it got in the most prestigious medical journals      **Cardiovascular Clinics** Albert N. Brest,1969      **The American Journal of Geriatric Cardiology** ,1996      **Geriatric Cardiology** R. Joe Noble,1981-01-01      Cardiac Rhythm Disorders in Older Adults, An Issue of Clinics in Geriatric Medicine Michael W. Rich,Win-Kuang Shen,2012-11-28 This issue of Clinics in Geriatric Medicine focuses on the pharmacological non pharmacological and device therapies in the medical management of cardiac rhythm disorders in the elderly population It also reviews the epidemiology of arrhythmias and conduction disorders in older adults atrial fibrillation and atrial flutter

stroke prevention bradyarrhythmias and conduction disorders and comorbidities quality of life and end of life issues in older patients with heart rhythm disorders      **Clinical Geriatric Cardiology** Raymond Harris,1986      *Heart Failure with Preserved Ejection Fraction, An Issue of Cardiology Clinics, E-Book* Scott L. Hummel,Matthew C. Konerman,2022-10-13 In this issue of Cardiology Clinics guest editors Drs Scott Hummel and Matthew Konerman bring their considerable expertise to the topic of Heart Failure with Preserved Ejection Fraction Top experts in the field cover key topics such as risk factors for heart failure with preserved ejection fraction HFpEF cardiopulmonary stress testing in HFpEF hemodynamic assessment in HFpEF the role of multi modality imaging in the evaluation of HFpEF and more Contains 13 relevant practice oriented topics including pharmacologic non pharmacologic and device therapy for HFpEF geriatric domains in patients with HFpEF pulmonary hypertension in HFpEF infiltrative genetic and other non standard causes of HFpEF echocardiography in HFpEF and more Provides in depth clinical reviews on heart failure with preserved ejection fraction offering actionable insights for clinical practice Presents the latest information on this timely focused topic under the leadership of experienced editors in the field Authors synthesize and distill the latest research and practice guidelines to create clinically significant topic based reviews      **Current Catalog** National Library of Medicine (U.S.),1983 First multi year cumulation covers six years 1965 70

*A Practical Guide to Heart Failure in Older People* Chris Ward,Miles Witham,2009-03-23 Heart failure is effectively a disease of older people Eighty percent of patients are over 65 years old and the majority of these are over 75 This figure is likely to increase significantly in the next two decades The prognosis is worse than that of most cancers and heart failure is the commonest reason for hospital admission in the over 65s The problems associated with treating heart failure in older patients are more diverse and complex than in those who are younger The diagnosis in older patients is easily overlooked and as they were excluded from most heart failure treatment trials there has been a reluctance to treat them optimally fewer than 20% are prescribed conventional medicines They have multiple co morbidities which are poorly managed they are repeatedly hospitalised and suffer social isolation These important age related treatment and management problems have been largely ignored and this book aims to redress the balance It provides a concise comprehensive account of the epidemiology pathogenesis diagnosis treatment management and end of life care of elderly patients with heart failure based on published studies A Practical Guide to Heart Failure in Older People is essential reading for geriatricians cardiologists general hospital physicians family practitioners and specialist nurses Specifically addresses the particular needs of the elderly a largely ignored group who constitute the majority of patients with heart failure Presents a concise yet comprehensive account of the evidence relating to the diagnosis treatment and management of heart failure in this population Improves awareness of the various roles within the management team      Clinical Practice Guideline ,1995

**Geriatric Cardiology** David T. Lowenthal,1992 To regard this text as seminal to an understanding of Geriatric Cardiology is naive As stated our sages secular and biblical were avant garde To regard this text as a current reference

source to help buttress the burgeoning knowledge of geriatric medicine is more appropriate

**Contemporary Geriatric Medicine** Steven Gambert, 2012-12-06 This volume marks the first of a new series Contemporary Geriatric Medicine joining the ever growing Contemporary family As with the other Contemporary volumes our goal is to assist the reader in maintaining currency in a rapidly changing field Perhaps no field has shown such major advances in such a short time as geriatrics Over the last several years the demographic imperative has become a source of concern for many including clinicians scientists economists and health planners Our geriatric knowledge base continues to grow often making it difficult to keep abreast of advances and current therapeutic modalities Contemporary Geriatric Medicine presents the state of the art thinking regarding a variety of topics all of major concern to the health practitioner caring for the elderly person The authors for the most part serving as members of a stable editorial board have chosen topics that should have immediate interest to the readership By having a stable editorial board continuity is ensured in successive volumes Every two years a subsequent issue will either address new thoughts on already presented topics or focus on new topics of current interest As with the other Contemporary series volumes the every other year interval is intended to allow new findings to develop and be tested It also provides the authors with time to provide the highest quality of work
