Terrorism and Insurgency in Asia Benjamin Schreer,Andrew T. H. Tan,2019-04-01 The rise of the Islamic State since 2014 has led to the re emergence of terrorism as a serious security threat in Asia Coupled with the ongoing terrorism and insurgency challenges from both radical religious extremists and also ethno nationalist insurgencies it is clear that some parts of Asia remain mired in armed

rebellion despite decades of nation building While the situation in Afghanistan and Pakistan has obviously deteriorated there is also a growing terrorist challenge on top of armed insurgencies in other parts of Asia A common theme in armed rebellions in the region has been the lack of legitimacy of the state and the presence of fundamental causes stemming from political economic or social grievances Addressing rebellion in the region thus requires a comprehensive approach involving transnational co operation addressing fundamental grievances and also the use of more innovative approaches such as religious rehabilitation and reconciliation programmes Xinjiang and China's Rise in Central Asia - A History Michael E.

act Moreover the volume makes a case for studying terrorism within its socio historical context Finally the volume addresses the critique that the study of terrorism suffers from lack of theory by reviewing and extending the theoretical insights contributed by several fields including political science political economy history sociology anthropology criminology law geography and psychology In doing so the volume showcases the analytical advancements and reflects on the challenges that remain since the emergence of the field in the early 1970s Central Asia in the Era of Sovereignty Daniel L.

has long been situated at the geographical crossroads of East and West once strategically located on the ancient Silk Road The envy of the expanding Russian empire it was colonized in the 19th century by Cossacks and traders from the north This book examines how Central Asia by then part of the Soviet Union experienced population displacements on an even greater scale during the Second World War Vicky Davis analyses how troops were sent westwards into action only for waves of civilians to travel eastwards into the region evacuees refugees and even internal deportees sent into exile from their homelands in other parts of the vast Soviet Union Central Asia in World War Two is the first book to tackle the subject of minorities fighting for the Soviet Union under Stalin in the Second World War Based on meticulous archival research it considers the interactions of the individual citizen and the Soviet state weaving together the experiences of over three hundred ordinary men and women in Central Asia as they coped with their new roles on the front line or in the rear Suffering incredible economic and physical hardship racism and religious oppression these mainly Muslim citizens were subjected to a forced process of Sovietization under the influence of Stalin s ubiquitous propaganda machine Davis reveals how while

conscripts were all too often slaughtered or scapegoated in their regiments the women and children left at home slaved in factories and communal farms to fuel the machinery of a war taking place thousands of kilometres away She convincingly argues that the impact of forced assimilation cultural indoctrination anti-Semitism and re-education on the region were as great as the daily fight for survival in wartime The legacy of the period is almost as complex with struggles over the ownership and revision of history continuing even today *Central Asia* United States.
