## **German Army 1939-45 Eastern Front 1941-43:**

**The German Army 1939-45 (3)** Nigel Thomas, 2012-08-20 Operation Barbarossa the attack on the Soviet Union commenced on 22 June 1941. It became the biggest conflict in military history with some three million German troops and about 900 000 allies facing almost 4.7 million Soviet troops. The effects would colour postwar European history for the next 50 years. This title examines the history of the conflict and the organisation, uniforms and insignia of the German Army on the Eastern Front from 1941-43. The book contains numerous illustrations and photographs throughout, including eight fine full-page colour plates by Stephen Andrew.

**Hitler's Armies** Chris McNab, 2011-10-20 The illustrated history of Hitler's land forces from the Panzer crewman on the Eastern Front to the infantryman in Normandy and the last ditch defence units of Waffen SS and Hitler Youth. Hitler's Armies is the definitive work on Hitler's war machine, charting its evolution from the formidable force which won stunning victories during the Blitzkrieg in 1940 to the hard campaigns it fought in the deserts of North Africa and the frozen wastelands of the Soviet Union to the eventual retreat to the Fatherland itself. Drawing upon Osprey Publishing's unique archive, this volume expertly weaves together the story of the development and deployment of Hitler's armies, displayed alongside a stunning collection of original artwork and photographs to show the kit and equipment of the various land forces.

**The First Day on the Eastern Front** Craig W.H. Luther, 2018-11-01 Sunday June 22 1941 three million German soldiers invaded the Soviet Union as part of Hitler's long planned Operation Barbarossa which aimed to destroy the Soviet Union, secure its land as lebensraum for the Third Reich and enslave its Slavic population. From launching points in newly acquired Poland in three prongs North Central South German forces stormed western Russia virtually from the Baltic to the Black Sea. By late fall the invasion had foundered against Russian weather, terrain and resistance and by December it had failed at the gates of Moscow but early on as the Germans sliced through Russian territory and soldiers with impunity capturing hundreds of thousands it seemed as though Russia would fall. In the spirit of Martin Middlebrook's classic First Day on the Somme, Craig Luther narrates the events of June 22 1941 a day when German military might was at its peak and seemed as though it would easily conquer the Soviet Union a day the common soldiers would remember for its tension and the frogs bellowing in the Polish marshlands. It was a day when the German blitzkrieg decimated Soviet command and control within hours and seemed like nothing would stop it from taking Moscow. Luther narrates June 22 one of the pivotal days of World War II from high command down to the tanks and soldiers at the sharp end, covering strategy as well as tactics and the vivid personal stories of the men who crossed the border into the Soviet Union that fateful day which is the Eastern Front in microcosm representing the years of industrial scale warfare that followed and the unremitting hostility of Germans and Soviets.

**The German Army 1939-45 (5)** Nigel Thomas, 2012-08-20 Despite the huge pressure of fighting on three fronts, ever worsening shortages of manpower and equipment and Allied command of the skies, Germany's decimated divisions fought on with impressive skill and determination. Packed with plans contemporary and modern images plus digital artwork it presents a detailed visual exploration of this famous fortification system *Populist Hearsay of 1939-45* Andrew Sangster, 2020-04-30 World War II produced many histories which differ according to when and by whom they were written Many historians tend to write in order to justify their home nation In the recent Brexit debate it was claimed many times that we won the war and we do not need Europe politicians were as guilty of this as everyone else Britain survived rather than won the war single handedly and managed only because of the Allies In France at the L H tel National des Invalides in a museum dedicated to World War II the photographs and notes tended to imply that Germany was defeated by the French with some American assistance All countries have their bias and special points of view regarding their shared history of World War II always somewhat nationally self centred This book confronts these nationalistic populist views and in places challenges accepted versions of traditional national histories

**M26/M46 Pershing Tank 1943-53** Steven J. Zaloga, 2000-11-25 From the moment that the M4 Sherman had been matched against German Panther and Tiger tanks the American tank crews had known that their vehicles were outclassed by the opposition What was needed was a more powerful tank more heavily armed and armored that could take on the powerful German panzers on a more equal footing Although it took time to develop by the latter months of the war numbers of M26 Pershing tanks were reaching the frontline US armored units Well armored and with a powerful 90mm gun the Pershing was a match for any tank in the German order of battle [The German Army 1939-45 \(3\)](#) Nigel Thomas, 2012-08-20 Operation Barbarossa the attack on the Soviet Union commenced on 22 June 1941 It became the biggest conflict in military history with some three million German troops and about 900 000 allies facing almost 4 7 million Soviet troops The effects would colour postwar European history for the next 50 years This title examines the history of the conflict and the organisation uniforms and insignia of the German Army on the Eastern Front from 1941 43 The book contains numerous illustrations and photographs throughout including eight fine full page colour plates by Stephen Andrew
