## **German Generals Of World War II As I Saw Them:**

**German Generals of World War II, as I Saw Them** Friedrich Wilhelm von Mellenthin (Major General), The German War Machine in World War II David T. Zabecki, 2019-12-02 This invaluable resource offers students a comprehensive overview of the German war machine that overran much of Europe during World War II with close to 300 entries on a variety of topics and a number of key primary source documents This book provides everything the reader needs to know about the German war machine that developed into the potent armed force under Adolf Hitler This expansive encyclopedia covers the period of the German Third Reich from January 1933 to the end of World War II in Europe in May 1945 Dozens of entries on key battles and military campaigns military and political leaders military and intelligence organizations and social and political topics that shaped German military conduct during World War II are followed by an illuminating epilogue that outlines why Germany lost World War II A documents section includes more than a dozen fascinating primary sources on such significant events as the Tripartite Pact among Germany Italy and Japan the Battle of Stalingrad the Normandy Invasion the Ardennes Offensive and Germany's surrender In addition six appendices provide detailed information on a variety of topics such as German aces military commanders and military medals and decorations The book ends with a chronology and a bibliography of print resources

**Encyclopedia of World War II** Alan Axelrod, 2007 A reference to the ideological military political biographical and social topics surrounding World War II which is often considered the pivotal event of the twentieth century

*Hitler's Generals* Correlli Barnett, 1989 With essays from Carlo D Este Martin Blumenson Walter Goerlitz Gen John Hackett and Martin Middlebrook Hitler's Generals probes the central mystery of why a generation of the world's most able commanders and staff officers came to be seduced by Hitler and why they failed to deflect him from his disastrous decisions From Kenneth Macksey's essay on Heinz Guderian who created the Panzer divisions and innovated the use of dive bombers to Earl Ziemke's portrait of Karl Gerd von Runstedt whose stalling of the German blitzkrieg allowed 338 000 Allied troops enough time to fall back on Dunkirk and escape to fight again these are bold and incisive assessments of the twentieth century's greatest strategists and villains Book jacket

**Europe Central** William T. Vollmann, 2005-11-14 WINNER OF THE NATIONAL BOOK AWARD A daring literary masterpiece of historical fiction that weaves together the gripping stories of those caught in the web of authoritarian rule Through interwoven narratives that paint a portrait of 20th century Germany and the USSR and the monstrous age they defined Europe Central captures a chorus of voices both real and fictional a young German who joins the SS to fight its crimes two generals who collaborate with the enemy for different reasons and the tumultuous life of Soviet composer Dmitri Shostakovich amidst Stalinist oppression In this magnificent work of fiction acclaimed author William T Vollmann turns his trenchant eye on these two authoritarian cultures to render a mesmerizing perspective on human experience during wartime

**World War II** Spencer C. Tucker, 2016-09-06 With more than 1 700 cross referenced entries covering every aspect of World War II the events and developments of the era and

myriad related subjects as well as a documents volume this is the most comprehensive reference work available on the war This encyclopedia represents a single source of authoritative information on World War II that provides accessible coverage of the causes course and consequences of the war Its introductory overview essays and cross referenced A Z entries explain how various sources of friction culminated in a second worldwide conflict document the events of the war and why individual battles were won and lost and identify numerous ways the war has permanently changed the world The coverage addresses the individuals campaigns battles key weapons systems strategic decisions and technological developments of the conflict as well as the diplomatic economic and cultural aspects of World War II The five volume set provides comprehensive information that gives readers insight into the reasons for the war s direction and outcome Readers will understand the motivations behind Japan s decision to attack the United States appreciate how the concentration of German military resources on the Eastern Front affected the war s outcome understand the major strategic decisions of the war and the factors behind them grasp how the Second Sino Japanese War contributed to the start of World War II and see the direct impact of new military technology on the outcomes of the battles during the conflict The lengthy documents volume represents a valuable repository of additional information for student research

World War II in Europe David T. Zabecki, 2015-05-01 World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall This encyclopedia offers a focused overview of this complex and volatile era the circumstances that led up to war the underlying causes its unfolding and consequences Organized for quick and precise access More than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation All the key ideas events actions weapons individuals and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League from the OSS to the Africa Korps from the Chetniks to the Jedburghs from the battle of Kursk to Operation Mincemeat from Bill Donovan to Otto Skorzeny from Gestapo to SMERSH from Georgi Zhukov to Jean Leclerc from the 88 gun to the Norden Bombsight Covers important neglected subjects The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia A key section inspects and rates all the major weapons with handy tables for easy comparison And in recognition of the first large scale participation of women in the war the volume thoroughly documents their individual and unit contributions to the Allied effort Finally the encyclopedia discusses battlefield realities that explain for example why the airborne drops at Normandy succeeded and the ones at Arnheim failed A bibliography glossary maps photographs and weapons and data tables enhance the coverage Also includes 16 maps

Strategy for Victory David Ian Hall, 2007-12-30 Strategy for Victory The Development of British Tactical Air Power 1919 1943 examines the nature of the inter Service crisis between the British Army and the RAF over the provision of effective air support for the army in the Second World War Material for this book is drawn primarily from the rich collection of documents at the National Archives UK and other British archives The author makes a highly original point that Britain s independent RAF was in fact a

disguised blessing for the Army and that the air force's independence was in part a key reason why a successful solution to the army's air support problems was found. The analysis traces why the British army went to war in 1939 without adequate air support and how an effective system of support was organized by the RAF. As such, it is the first scholarly survey of the origins and development of British air support doctrine and practice during the early years of the Second World War. The provision of direct air support was of central importance to the success enjoyed by Anglo-American armies during the latter half of the Second World War. First in North Africa and later in Italy and North West Europe, American, British, and Empire armies fought most if not all of their battles with the knowledge that they enjoyed unassailable air superiority throughout the battle area. This advantage, however, was the product of a long and bitter dispute between the British Army and the Royal Air Force that began at the end of the First World War and continued virtually unabated until it was resolved in late 1942 and early 1943 when the 2nd Tactical Air Force was created. Battlefield experience and, in particular, success in North Africa combined with the hard work, wisdom, and perseverance of Air Marshals Sir Arthur Tedder and Arthur Coningham, the active co-operation of General Bernard Montgomery, and the political authority of Prime Minister Winston Churchill produced a uniquely British system that afforded the most comprehensive, effective, and flexible air support provided by any air force during the war. The book is divided into two equal parts of five chapters. Part one surveys how the British Army went to war in 1939 without adequate air support, and part two explains how an effective system of air support was organized by the middle years of the war. The analysis traces Britain's earliest experience with aircraft in the Great War, 1914-1918, the inter-war period of doctrinal development and inter-service rivalry, and the major campaigns in France and the Middle East during the first half of the Second World War when the weaknesses in Army-RAF co-operation were first exposed and eventually resolved. As such, it is the first scholarly survey of the origin and development of British air support doctrine and practice during the early years of the Second World War.

**America's Military Adversaries** John C. Fredriksen, 2001-12-05 This work chronicles the lives and accomplishments of over 200 enemies who have fought, plotted, spied on, and in some instances defeated U.S. forces over the past three centuries. Books on American military heroes abound. But this book is the first to focus on America's talented enemies: the generals, admirals, Indian chiefs, and warriors, submarine captains, fighter pilots, and spies who opposed the United States with military force or other means. Often these military leaders were among the best minds of their times. For more than two centuries, the new nation's most constant military opponents were the Native Americans, led by such capable chiefs as American Horse and Little Wolf. Under DuRoi Iberville, Canada's French colonialists became formidable foes, but they were soon surpassed by the rigorously disciplined redcoats of Great Britain under Howe and Cornwallis. Ironically, the most effective enemies in the history of the United States were not the leaders of foreign military forces like Mexico's Santa Anna, Japan's Yamamoto, or Vietnam's Vo Nguyen Giap. They arose from among its own citizens during the Civil War, the bloodiest conflict in American history.

Stalingrad David M. Glantz, Jonathan M. House, 2019-07-13

The long awaited one volume campaign history from the leading experts of the decisive clash of Nazi and Soviet forces at Stalingrad an abridged edition of the five volume Stalingrad Trilogy Stalingrad offers a sweeping synthesis of this massive confrontation how it impacted the war and why it matters today **Manstein** Mungo Melvin,2011-06-07 From the preeminent British military strategist comes this riveting biography of Manstein Hitler s most controversial general Among students of military history the genius of Field Marshal Erich von Manstein 1887 1973 is respected perhaps more than that of any other World War II soldier He displayed his strategic brilliance in such campaigns as the invasion of Poland the Blitzkrieg of France the sieges of Sevastopol Leningrad and Stalingrad and the battles of Kharkov and Kursk Manstein also stands as one of the war s most enigmatic and controversial figures To some he was a leading proponent of the Nazi regime and a symbol of the moral corruption of the Wehrmacht Yet he also disobeyed Hitler who dismissed his leading Field Marshal over this incident and has been suspected by some of conspiring against the F hrer Sentenced to eighteen years by a British war tribunal at Hamburg in 1949 Manstein was released in 1953 and went on to advise the West German government in founding its new army within NATO Military historian and strategist Mungo Melvin combines his research in German military archives and battlefield records with unprecedented access to family archives to get to the truth of Manstein s life and deliver this definitive biography of the man and his career **Germany at War** David T. Zabecki,2014-10-28 Written by experts for use by nonexperts this monumental work probes Germany s Genius for War and the unmistakable pattern of tactical and operational innovation and excellence evident throughout the nation s military history Despite having the best military forces in the world some of the most advanced weapons available and unparalleled tactical proficiency Germany still lost both World Wars This landmark four volume encyclopedia explores how and why that happened at the same time examining Germany as a military power from the start of the Thirty Years War in 1618 to the present day Coverage includes the Federal Republic of Germany its predecessor states and the kingdoms and principalities that combined to form Imperial Germany in 1871 The Seven Years War is discussed as are the Napoleonic Wars the Wars of German Unification including the Franco Prussian War World War I World War II and the Cold War In all more than 1 000 entries illuminate battles organizations leaders armies weapons and other aspects of war and military life The most comprehensive overview of German military history ever to appear in English this work will enable students and others interested in military history to better understand the sociopolitical history of Germany the complex role conflict has played in the nation throughout its history and why Germany continues to be an important player on the European continent **Great Warrior Leaders/thinkers** ,1989 *Arms and the Man* ,2011-05-10 These essays honor Dennis Showalter a pioneer in the field of military history and a mentor to an entire generation of scholars The essays themselves are written by some of the best known and most highly respected scholars in the field They span the globe and cover a wide range of military history topics from the ancient world to the present day As a group this book represents not only a collection in honor of a great scholar but a collection of some of the highest quality

cutting edge scholarship in the field today It will be of interest to anyone who wants to understand the history of warfare Contributors are William J Astore Mary Kathryn Barbier Jeremy Black Robert M Citino Kelly DeVries Richard L DiNardo Robert A Doughty Holger H Herwig Eugenia C Kiesling Robert McJimsey Michael S Neiberg and Dennis Showalter

**Armageddon in Stalingrad** David M. Glantz, Jonathan M. House, 2009-11-23 The German offensive on Stalingrad was originally intended to secure the Wehrmacht's flanks but it stalled dramatically in the face of Stalin's order Not a Step Back The Soviets resulting tenacious defense of the city led to urban warfare for which the Germans were totally unprepared depriving them of their accustomed maneuverability overwhelming artillery fire and air support and setting the stage for debacle Armageddon in Stalingrad continues David Glantz and Jonathan House's bold new look at this most iconic military campaign of the Eastern Front and Hitler's first great strategic defeat While the first volume in their trilogy described battles that took the German army to the gates of Stalingrad this next one focuses on the inferno of combat that decimated the city itself Previous accounts of the battle are far less accurate having relied on Soviet military memoirs plagued by error and cloaked in secrecy Glantz and House have plumbed previously unexploited sources including the archives of the People's Commissariat of Internal Affairs NKVD and the records of the Soviet 62nd and German Sixth Armies to provide unprecedented detail and fresh interpretations of this apocalyptic campaign They allow the authors to reconstruct the fighting hour by hour street by street and even building by building and reveal how Soviet defenders established killing zones throughout the city and repeatedly ambushed German spearheads The authors set these accounts of action within the contexts of decisions made by Hitler and Stalin their high commands and generals on the ground and of the larger war on the Eastern Front They show the Germans weaker than has been supposed losing what had become a war of attrition that forced them to employ fewer and greener troops to make up for earlier losses and to conduct war on an ever lengthening logistics line Written with the narrative force of a great war novel this new volume supersedes all previous accounts and forms the centerpiece of the Stalingrad Trilogy with the upcoming final volume focusing on the Red Army's counteroffensive

**Manstein's Campaigns - More Than Tactics** Major Walter J. Wood, 2015-11-06 The purpose of this paper is to analyze selected campaigns operations of Field Marshal Erich von Manstein in order to draw lessons from those campaigns as they relate to command control communications C3 and logistics subjects of immediate and relevant interest to those who take up the profession of arms But all too often histories of battles campaigns and entire conflicts neglect the treatment of these areas And when these factors are dealt with the treatment they receive is likely to be rather shallow lacking the depth necessary for the student to analyze these factors functions as they related to overall success or failure This analysis will be conducted of specific delineated functions as they relate to C3 but owing to the far reaching scope of logistics this paper will be limited to treating a few critical aspects of logistics as they impacted on the campaigns of Manstein and the German Army The second chapter will introduce Manstein to the reader and highlight his accomplishments Chapter III will deal with C3

functions as they related supported or were used by Manstein and the fourth chapter will deal with key logistics issues as they influenced impacted the campaigns of Manstein The final chapter will present some conclusions and broad lessons derived from the German experience in general      *Erich von Manstein* Benoît Lemay,2010-07-27 A selection of the Military Book Club An informative and objective biography of a genius commander and a study of his loyalty to the Nazi cause Library Journal To many close students of World War II Erich von Manstein is considered the greatest commander of the war if not the entire twentieth century He devised the plan that conquered France in 1940 and led an infantry corps in that campaign At the head of a panzer corps he reached the gates of Leningrad in 1941 then took command of 11th Army and conquered Sevastopol and the Crimea After destroying another Soviet army in the north he was given command of the ad hoc Army Group Don to retrieve the German calamity at Stalingrad whereupon he launched a counteroffensive that against all odds restored the German front Afterward he commanded Army Group South nearly crushing the Soviets at Kursk and then skillfully resisted their relentless attacks as he traded territory for coherence in the East Though an undoubtedly brilliant military leader whose achievements considering the forces at his disposal rivaled of Patton Rommel MacArthur and Montgomery surprisingly little is known about Manstein himself save for his own memoir and the accolades of his contemporaries In this book we finally have a full portrait of the man including his campaigns and an analysis of what precisely kept a genius like Manstein harnessed to such a dark cause A great military figure but a man who lacked a sharp political sense Manstein was very much representative of the Germano Prussian military caste of his time Though Hitler was uneasy about the influence he d gained throughout the German Army Manstein ultimately declined to join any clandestine plots against his F hrer believing they would simply cause chaos the one thing he abhorred Though he constantly opposed Hitler on operational details he considered it a point of loyalty to simply stand with the German state in whatever form Though not bereft of personal opinions his primary allegiances were first to Deutschland and second to the soldiers under his command who d been committed against an enemy many times their strength It is thus through Manstein that the attitudes of other high ranking officers who fought during the Second World War particularly on the Eastern Front can be illuminated This book is a well researched convincingly reasoned analysis of a general widely considered one of WWII s great commanders Publishers Weekly Includes photographs      **Hitler, Donitz, and the Baltic Sea** David Grier,2013-07-10 The popular conception of Hitler in the final years of World War II is that of a deranged Fuhrer stubbornly demanding the defense of every foot of ground on all fronts and ordering hopeless attacks with nonexistent divisions To imply that Hitler had a rational plan to win the war flies in the face of widely accepted interpretations but historian Howard D Grier persuasively argues here that Hitler did possess a strategy to regain the initiative in 1944 45 and that the Baltic theater played the key role in his plan In examining that strategy Grier answers lingering questions about the Third Reich s final months and also provides evidence of its emphasis upon naval affairs and of Admiral Karl Donitz s influence in shaping Hitler s grand strategy

Donitz intended to starve Britain into submission and halt the shipment of American troops and supplies to Europe with a fleet of new Type XXI U boats But to test the new submarines and train their crews the Nazis needed control of the Baltic Sea and possession of its ports and to launch their U boat offensive they needed Norway the only suitable location that remained after the loss of France in the summer of 1944 This work analyzes German naval strategy from 1944 to 1945 and its role in shaping the war on land in the Baltic The first six chapters provide an operational history of warfare on the northern sector of the eastern front and give evidence of the navy's demands that the Baltic coast be protected in order to preserve U boat training areas The next three chapters look at possible reasons for Hitler's defense of the Baltic coast concluding that the most likely reason was Hitler's belief in Donitz's ability to turn the tide of war with his new submarines A final chapter discusses Donitz's personal and ideological relationship with Hitler his influence in shaping overall strategy and the reason Hitler selected the admiral as his successor rather than a general or Nazi Party official With Grier's thorough examination of Hitler's strategic motives and the reasons behind his decision to defend coastal sectors in the Baltic late in the war readers are offered an important new interpretation of events for their consideration

**The Second World Wars** Victor Davis Hanson, 2017-10-17 A breathtakingly magisterial account of World War II by America's preeminent military historian Wall Street Journal World War II was the most lethal conflict in human history Never before had a war been fought on so many diverse landscapes and in so many different ways from rocket attacks in London to jungle fighting in Burma to armor strikes in Libya The Second World Wars examines how combat unfolded in the air at sea and on land to show how distinct conflicts among disparate combatants coalesced into one interconnected global war Drawing on 3 000 years of military history bestselling author Victor Davis Hanson argues that despite its novel industrial barbarity neither the war's origins nor its geography were unusual Nor was its ultimate outcome surprising The Axis powers were well prepared to win limited border conflicts but once they blundered into global war they had no hope of victory An authoritative new history of astonishing breadth The Second World Wars offers a stunning reinterpretation of history's deadliest conflict

**Reader's Guide to Military History** Charles Messenger, 2013-10-31 This book contains some 600 entries on a range of topics from ancient Chinese warfare to late 20th century intervention operations Designed for a wide variety of users it encompasses general reviews of aspects of military organization and science as well as specific wars and conflicts The book examines naval and air warfare as well as significant individuals including commanders theorists and war leaders Each entry includes a listing of additional publications on the topic accompanied by an article discussing these publications with reference to their particular emphases strengths and limitations

## Unveiling the Magic of Words: A Report on "**German Generals Of World War Ii As I Saw Them**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their ability to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring. Enter the realm of "**German Generals Of World War Ii As I Saw Them**," a mesmerizing literary masterpiece penned with a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve in to the book is central themes, examine its distinctive writing style, and assess its profound affect the souls of its readers.
