**Race to the Front** Kevin D. Stubbs, 2002-09-30 When war broke out in Europe in 1914 nearly every combatant foresaw a short decisive conflict Experience would soon prove however that this belief was sorely misplaced Eventually excessive economic dislocations would topple every authoritarian regime Only the intervention of the United States would save the British and the French from collapse This book traces the trilateral struggle between the Entente the Central Powers and the United States to determine the outcome of the war Stubbs focuses on a few essential factors vital to understanding this three way race the acquisition of war materiel food human resources and the movement of each In an analysis of coalition strategies it is not enough to study the memoirs and memoranda of General Staffs or political figures engaged in war One must also examine the roles played by

each population their industries economy means of transportation and the financial decisions that make such strategies possible In short the material foundations of war set the boundaries within which strategic maneuvers occur Ultimately the United States determined the outcome of the First World War not simply because it provided the last untapped reservoir of manpower but due to its overall economic contributions to the allied effort

*The Strategy of the Lloyd George Coalition, 1916-1918* David French,1995-06-29 The popular image of the First World War is dominated by two misconceptions The first holds that the war was an exercise in futility in which incompetent upper class generals callously sacrificed an entire generation of young men to no good purpose The second holds that the debate about British strategic policy during the First World War was a gladiatorial contest between brass hats generals and frock coats politicians Historians denied access for too long to the contemporary records of the private deliberations of policy makers had been forced to follow both interpretations David French challenges this orthodoxy and suggests that the policy makers were united in trying to relate strategic policy to a carefully considered set of war aims His challenging conclusion is that the policy makers never lost sight of their goal which was to ensure that Britain fought the war at an acceptable cost and emerged from it with its security enhanced against both its enemies and its allies

**At War in Distant Waters** Phillip G Pattee,2013-10-15 At War in Distant Waters investigates the reasons behind Great Britain s combined military and naval offensive expeditions outside of Europe during the Great War Often regarded as unnecessary sideshows to the conflict waged on the European continent Pattee argues that the various campaigns were necessary adjuncts to the war in Europe and fulfilled an important strategic purpose by protecting British trade where it was most vulnerable Since international trade was essential for the island nation s way of life Great Britain required freedom of the seas to maintain its global trade While the German High Seas Fleet was a serious threat to the British coast forcing the Royal Navy to concentrate in home waters the importance of the island empire s global trade made it a valuable target to Germany s various commerce raiders just as Admiral Tirpitz s risk theory had anticipated

David Welch, 2014-08-01 Adolf Hitler writing in Mein Kampf was scathing in his condemnation of German propaganda in World War I declaring that Germany failed to recognise that the mobilization of public opinion was a weapon of the first order. This despite the fact that propaganda had been regarded by the German leadership arguably for the first time as an intrinsic part of the war effort. In this book David Welch fully examines German society, politics, propaganda, public opinion and total war in the Great War. Drawing on a wide range of sources, posters, newspapers, journals, film, Parliamentary debates, police and military reports and private papers, he argues that the moral collapse of Germany was due less to the failure to disseminate propaganda than to the inability of the military authorities and the Kaiser to reinforce this propaganda and to acknowledge the importance of public opinion in forging an effective link between leadership and the people.
