Barbalet, 2015-04-17 This study first published in 1983 explores the connections between Marx's philosophy and his empirical analysis of society and state by showing the different meanings of many of Marx's concepts as their role in his theory changes and the theory itself develops Beginning with an examination of Marx's search for a sound epistemological basis on which to build a social theory Dr Barbalet then gives an analysis of the way in which Marx continually modifies the concepts he uses and continues with an examination of the different functions they are given in different theoretical settings Various nuances of Marx's thought often obscured by the simplistic early late dichotomy are revealed by Dr Barbalet's close attention to the progressive transformation of Marx's concepts and by his scrupulous analysis of them in not only their textual but also their theoretical context Finally the book examines the manner in which Marx's construction of social theory by its very nature means that some material is replaced by other theoretical fabric as the theoretical structure itself is in different ways dismantled and reorganised as Marx's thought evolves and develops The Communist Conspiracy: Communism outside the United States. section A. Committee on Un-American Activities, 1956 *Philosophy after Marx* Christoph Henning, 2014-04-17 Christoph Henning writes a concise history of misreadings of Marx in the 20th century Focussing on German philosophy from Heidegger to Habermas he also addresses the influence of Rawls and Neopragmatism subsequently scrutinizing a previous history of Marx interpretations that had served as the premises upon which these later works were based Henning sketches a historical trajectory in which a theory of socialist politics enters the fields of economics sociology critical theory and theology before finally overloaded with intellectually dead freight entering into philosophy In so doing he takes a hermeneutic approach to how misreadings in a specific field proliferate into further misreadings across a variety of fields leading to an accumulation of questionable preconceptions With the recent resurgence of interest in Marx Henning's historical recursions make evident where and how academic Anti Marxism had previously got it wrong English translation of Philosophie nach Marx 100 Jahre Marxrezeption und die normative Sozialphilosophie der Gegenwart in der Kritik Transcript Verlag Bielefeld 2005 **Leninism** Neil Harding, 1996 In this volume Neil Harding presents the first comprehensive reinterpretation of Leninism to be produced in many years Challenging much of the conventional wisdom regarding Leninism's effectiveness as a mobilizing body of ideas its substance and its origins and evolution Harding offers both a controversial exposition of this ideology and a critical engagement with its consequences for the politics of contemporary communism Rather than tracing the roots of Leninism to the details of Lenin's biography

Harding shows how it emerged as a revolutionary Marxist response to the First World War and to the perceived treachery the support of that war by social democratic leaders The economics politics and philosophy of Leninism he argues were rapidly theorized between 1914 and 1918 and deeply imprinted with the peculiarities of the wartime experience Its complementary metaphysics of history and science was as intrinsic to its confidence and sureness of purpose as it was to its contempt for democratic practice and tolerance But as Harding also shows although Leninism articulated a complex and coherent critique of capitalist civilization and held a powerful appeal to a variety of constituencies it was itself caught in a timewarp that fatally limited its capacity to adapt This book will engage not only Russian and Soviet specialists but also readers concerned with the varieties of twentieth century socialism *The Classical Marxist Critiques of Religion: Marx, Engels, Lenin, Kautsky* D.B. McKown, 2012-12-06 In view of the enormous number of works on Marxism in general and in light of the many books and articles touching on the relationship of Marxism to religion in particular it may fairly be asked why yet another such work should be produced My reply is that in eliciting answers to the kinds of questions posed by the methodology I have used it was necessary to go to the primary sources almost exclusively This is not to bemoan a sad fate but to affirm that there are notable deficiencies in the secondary sources relevant to my topic By way of general indictment I contend that the major difficulty with existing studies of the Marxist critique of religion is that their authors whether expositors or critics have failed both to specify their own presuppositions concerning religion and to approach the subject with an adequate comprehension of its many dimensions Since in most cases the reader is equally unprepared anthropologically sociologically psychologically and historically for clear and informed thought in this vast and nebulous area the result has been widespread confusion As if this were not enough numerous writers with little more than polemical interests have compounded the confusion by failing to distinguish between religion in general and their own brands of faith in particular Others have not discriminated between the concepts of metaphysics and the supernatural items of religious belief *The Social and Political Thought of Karl Marx* Shlomo Avineri, 1968 Translation of Mishnato ha hevratit v'ha medinit shel Karl Marks *A HISTORY OF POLITICAL THOUGHT* SUBRATA MUKHERJEE, SUSHILA RAMASWAMY, 2011-08-09 This lucidly written text in its second edition continues to provide a comprehensive study of the classical political tradition from Plato to Marx The book elucidates the fascinating evolution of the history of political ideas through the works of thirteen key political thinkers which includes Plato Aristotle Machiavelli Hegel and Marx The text highlights the decline and revival of classical political theory and portrays the clash of universalism vs localism in the classical tradition It focuses on the recent interpretations of the classical texts for instance feasibility of the ideal State in Plato civic humanism and republicanism in Machiavelli the radicalism of Locke and the contributions to the woman's cause by John Stuart Mill The text is intended for the undergraduate and postgraduate students of Political Science of various universities and for all those who are appearing for the civil services examinations NEW TO THIS EDITION Inclusion of two

important liberal thinkers Mary Wollstonecraft the founder of liberal feminism and Immanuel Kant a de ontological liberal
