German Philosophers Kant Hegel Schopenhauer Nietzsche

Julian Roberts

German Philosophers Kant Hegel Schopenhauer Nietzsche:

German Philosophers Roger Scruton, 2001 *German Philosophers* contains studies of four of the most important German theorists Kant arguably the most influential modern philosopher Hegel whose philosophy inspired an enduring vision of a communist society Schopenhauer renowned for his pessimistic preference for non existence and Nietzsche who has been appropriated as an icon by an astonishingly diverse spectrum of people

German Philosophers, 2001 *Nietzsche, German Idealism and Its Critics* Katia Hay, Leonel R. dos Santos, 2015-10-16 Nietzsche is known as a severe critic of German Idealism but what exactly is the relation between his thought and theirs And how does Nietzsche's stance differ from the critique of idealism in Kierkegaard and Schopenhauer The papers from leading international specialists in German Idealism Schopenhauer Kierkegaard and Nietzsche address these questions The aim of the volume is to introduce novel ways of addressing the complex relations between Nietzsche and his immediate philosophical predecessors Schopenhauer Kierkegaard Hegel Schelling Fichte and Kant The focus is on the profound interconnections and affinities between their ways of thinking Each paper considers one particular aspect of Nietzsche's philosophy such as his notion of spirit law power will his physiology or his critique of morality in relation to the above mentioned philosophers This largely systematic approach reveals surprising affinities between Nietzsche and the German idealists despite their patent differences and generates new perspectives from which to understand and reinterpret Nietzsche's thought Contributors Maria J Branco Danielle Cohen Levinas Joao Constancio Carlos J Correia Katia Hay Lore H hn Jose Justo Elisabetta Marques J de Sousa Frederick Neuhouser Leonel R dos Santos Philipp Schwab Herman Siemens

Seven Essays on the Genealogy of Uncertainty Stephen Nash, Liza Rybak, 2024-09-30 Uncertainty is critical to economic theory mainly because it either supports or undermines many significant debates within economic theory Despite the significance of uncertainty this book represents the first attempt to comprehensively trace the genealogy of uncertainty which is a procedure that Nietzsche used in relation to morality one of the subjects that become logically redundant in the absence of uncertainty On the one hand this logical redundancy is problematic when considered in isolation given the practical importance of morality On the other hand this logical redundancy becomes even more problematic given that at one time uncertainty was widely accepted as an important part of the philosophical system Here uncertainty played a pivotal role in terms of explaining practical decision making Such an appreciation of uncertainty has recently been set aside by modern philosophy which argues quantities of human labour provide virtually all economic value Such an explanation of economic value excludes uncertainty the many qualitative contributions of nature and morality even when one acknowledged the contribution to the understanding of uncertainty as proposed by Frank Knight in 1921 However in contrast to Knight who looked toward recent philosophy so as to support the existence of uncertainty this genealogy looks to support the significance of uncertainty by understanding the philosophy that supported the idea of uncertainty for thousands of years before the philosophy of John Locke Specifically Locke excludes

uncertainty from the analysis of practical decision making in general and from economic decision making in particular Accordingly it can be anticipated that the enclosed genealogy will assist economists to more adequately develop the idea of uncertainty within economic theory

German Philosophy Julian Roberts, 1988 This book is a comprehensive introduction to German philosophy from Kant to the present day Combining general exposition with detailed textual commentary it is a scholarly and invaluable aid not only for undergraduate students but also for anyone who wishes to study one of the richest traditions of Western philosophy The book focuses on the key figures and major texts of German philosophy Separate chapters are devoted to Kant Hegel Schelling Schopenhauer Kierkegaard Nietzsche and Heidegger Roberts also deals extensively with the Marxist tradition with chapters on Feuerbach Lukacs and Adorno This wide ranging work is drawn together by a set of interrelated themes Roberts argues that Kant may be seen as the principal source of modern metaphysics and his heirs as branching off into two opposing streams This approach enables Roberts to trace some of the underlying connections and oppositions between the major figures of German thought German Philosophy is written in a lively and accessible style It will be of interest to students of philosophy of the social sciences and of European thought and literature

Book cover **Historical Dictionary of Schopenhauer's Philosophy** David E. Cartwright, 2016-05-20 Arthur

Schopenhauer made the momentous decision to become a philosopher when he was approximately 22 years old Prior to that decision he had been studying medicine at the university in Gttingen By that age however he had concluded that life was a troublesome affair So he resolved to spend his life reflecting upon it Schopenhauer was doggedly determined to persevere in what he considered his mission in life to reflect on the ever disquieting puzzle of existence to ascertain the meaning of living in a world steeped in suffering and death He was confident that eventually his work would be recognized a confidence that enabled him to weather laboring in relative philosophical obscurity for some forty years What initiated the dawn of Schopenhauer's fame was a review of his philosophy that appeared in a British journal in 1853 and ever since that time Schopenhauer drew a readership one broader than most Western philosophers He is read not simply and solely by professional philosophers but also by the wider learned world Indeed some have claimed that he is the most widely read Western philosopher This second edition of Historical Dictionary of Schopenhauer's Philosophy contains a chronology an introduction an appendix and an extensive bibliography The dictionary section has over 300 cross referenced entries on all of Schopenhauer's books significant philosophical ideas and concepts as well as entries covering significant figures in his life and those influenced by this thinking This book is an excellent access point for students researchers and anyone wanting to know more about Arthur Schopenhauer

Schopenhauer and Indian Philosophy Arati Barua, 2008 It is hoped that this book will recreate an interest in Schopenhauer's philosophy in India and abroad with a new perspective There is a recent revival of Schopenhauerism or at least a rediscovery of certain very original and fundamental ideas of Schopenhauer in the contemporary academic world Schopenhauer has been rightly described as a bridge between Western and Indian philosophy

In this regard Prof Kossler President of Schopenhauer Gesellschaft writes I think in his Schopenhauer s thinking lies a way of bridging cultural differences but that requires a thorough investigation of the relations between the two which can only be carried out in co operation with scientists of both cultures Hence this kind of research oriented volume will further foster mutual understanding between the Eastern and Western philosophical traditions Indian philosophy already owes so much to Schopenhauer in the sense that he paid homage to the Vedas Upanisads and Buddhism Hence the significance of the book would have to be judged in terms of a tribute to Schopenhauer It will be an honour to the memory of Schopenhauer one of the first Western thinkers who brought recognition to Indian Philosophy in the west The most important aspect of the book is that the list of paper contributors is composed of an international team which includes selected Schopenhauerian scholars from Australia Japan USA Canada Germany and India who are working on this theme for a long time But the significance is that the serious research works of these international scholars will be combined for the first time in one single book Its specialty lies in the fact that the Indian scholars are participating in a large number in this book

Friedrich Nietzsche (1844-1900) Jürgen Backhaus, Wolfgang Drechsler, 2006-10-11 Nietzsche Economy and Society The Closed and the Open Questions a b J rgen G Backhaus and Wolfgang Drechsler a University of Erfurt Germany b Tallinn University of Technology Estonia Nietzsche s impact and in uence anywhere in and on our civilization was and is immense This has by now been widely recognized in almost all areas even in the hard sciences see Babich 1999 but Nietzsche is still completely understudied in the eld of economics This is all the more surprising because in uence paths both serious e g Joseph A Schumpeter and pop ones e g Ayn Rand seem obvious and because in some of his works especially *M schliches Allzumenschliches* 1878 1886 a focus on economics is hard to miss It would thus be only likely that he had some sort of signi cant in uence there yet one can nd hardly any references in the Nietzsche or economics 1 literature on what kind of in uence that might have been or still is To remedy this situation the idea to plan an exploratory conference on Nietzsche and Economics arose Because of the dif cult and indeed unusual topic we found it necessary to even start with a pre conference where the issues questions sources and possible approaches would be discussed This pre conference took place in Heilbronn in the framework of the Heilbronn Symposia on Economics and the Social Sciences in June 2000

The Quest for God in the Work of Borges Annette U. Flynn, 2011-11-03 This book argues that the quest for God though largely unheeded by the critical canon was a major and enduring preoccupation for Borges This is shown through careful analysis both of his essays with their emphasis on his philosophical theological explorations and of the narrative articulations which are his stories It is in the poetry of his middle and closing years however that Borges search is most manifest as it is no longer obscured Spanning different periods of his life and different literary genres Borges work attests to a maturing and evolving quest The book reveals Borges engagement as an active and evolving process and its chronological structure allows the reader to trace his thought over time Flynn shows that the spiritual component in Borges writing drives key texts from the 1920s to the 1980s Offering an interpretation

that unlocks a fuller significance of his work she shows how Borges reflections on time and identity are symptomatic of a deeper spiritual searching which can only be answered by a Divine Absolute

Jews and the American Soul Andrew R. Heinze, 2004 What do Joyce Brothers and Sigmund Freud Rabbi Harold Kushner and philosopher Martin Buber have in common They belong to a group of pivotal and highly influential Jewish thinkers who altered the face of modern America in ways few people recognize So argues Andrew Heinze who reveals in rich and unprecedented detail the extent to which Jewish values often in tense interaction with an established Christian consensus shaped the country's psychological and spiritual vocabulary Jews and the American Soul is the first book to recognize the central role Jews and Jewish values have played in shaping American ideas of the inner life It overturns the widely shared assumption that modern ideas of human nature derived simply from the nation's Protestant heritage Heinze marshals a rich array of evidence to show how individuals ranging from Erich Fromm to Ann Landers changed the way Americans think about mind and soul The book shows us the many ways that Jewish thinkers influenced everything from the human potential movement and pop psychology to secular spirituality It also provides fascinating new interpretations of Sigmund Freud Alfred Adler and Western views of the psyche the clash among Protestant Catholic and Jewish moral sensibilities in America the origins and evolution of America's psychological and therapeutic culture the role of Jewish women as American public moralists and more A must read for anyone interested in the contribution of Jews and Jewish culture to modern America

A Beginner's Guide to Nietzsche's Beyond Good and Evil Gareth Southwell, 2009-02-11 A concise and very readable summary of Nietzsche's Beyond Good and Evil geared toward students embarking on their studies and general readers It is an ideal companion for those new to the study of this challenging and often misunderstood classic Offers clear explanations of the central themes and ideas terminology and arguments Includes a glossary of difficult terms as well as helpful biographical and historical information Illustrates arguments and ideas with useful tables diagrams and images and includes references to further readings Forms part of a series of Guides designed specifically for A level philosophy students by an experienced teacher and founder of the popular website Philosophy Online

Schopenhauer on Self, World and Morality Arati Barua, 2018-01-05 This volume is a unique collection of philosophical essays on various aspects of Schopenhauer's understanding of the nature and character of the world through the classical philosophies of the Vedanta and Buddhism and classical and modern thinkers like Bharti Tagore and Wittgenstein It includes reflective insights about Schopenhauer and the metaphysics of the world the self and morality from scholars who have pioneered the philosophical study of the relation between Schopenhauer and Indian schools of thoughts and intellectual history This insightful volume is a good academic resource for further research in comparative philosophy of Schopenhauer and the Indian tradition

Handbook of Psychiatry in Palliative Medicine Harvey Max Chochinov, William Breitbart, 2023 Written by internationally known psychiatry and palliative care experts the Handbook of Psychiatry in Palliative Medicine addresses the psychological and spiritual challenges faced by patients and

their families This edition is an essential reference for all providers of palliative care *Franz Brentano and Austrian Philosophy* Denis Fisette,Guillaume Fr  chette,Friedrich Stadler,2020-12-05 The book discusses Franz Brentano s impact on Austrian philosophy It contains both a critical reassessment of Brentano s place in the development of Austrian philosophy at the turn of the 20th century and a reevaluation of the impact and significance of his philosophy of mind or descriptive psychology which was Brentano s most important contribution to contemporary philosophy and to the philosophy in Vienna In addition the relation between Brentano phenomenology and the Vienna Circle is investigated together with a related documentation of Brentano s disciple Alfred Kastil in German The general part deals with the ongoing discussion of Carnap s Aufbau Vienna Circle Lecture by Alan Chalmers and the philosophy of mind with a focus on physicalism as discussed by Carnap and Wittgenstein Gergely Ambrus As usual two reviews of recent publications in the philosophy of mathematics Paolo Mancosu and research on Otto Neurath s lifework Jordi Cat Adam Tuboly are included as related research contributions This book is of interest to students historians and philosophers dealing with the history of Austrian and German philosophy in the 19th and 20th century **The World as Will and Representation** Arthur Schopenhauer,1966-01-01 The German philosopher explains his thoughts about intellectual perception and abstract representation and critically analyzes Kant s ideas and teachings Bibliogs **The City of Grace** David Wadley,2019-11-29 In this sweeping appraisal of the urban condition David Wadley argues that anything less than high level resolution in modelling the well being of inhabitants is wasting precious time Humanity is encountering rising entropy caused by unsustainable economic and demographic expansion Supported by a strong interdisciplinary backdrop featuring systems and crisis theories The City of Grace tackles these obstacles by picturing gracious function and graceful form in a human scale settlement In an attempt to salvage things lost in the teleology of urban development over the last 100 years the outlook is both heterodox and contrarian How long can we all go on in the present way In addressing grace a more elevated concept than those focusing previous urban analyses this manifesto aims not to placate or please but instead to get humanity to face the encompassing realities it tries so hard to forget **Sociological Theory** Bert N. Adams,R. A. Syd  ,2001-01-30 This concise text covers both classical and contemporary social thought It traces the major schools of thought over the past 150 years as they appear and reappear in different chapters and looks at important new voices in social theory The treatment of individual theories and theorists is balanced with the development of key themes and ideas about social life **Sects and Sectarianism in Jewish History** Sacha Stern,2011-04-21 Several Jewish groups from Antiquity until today have been traditionally identified as sects or as sectarian most famously the Qumran community and the Qaraites This volume questions the appropriateness of this interpretation of social and religious movements in Jewish history Regulating how We Die Linda L. Emanuel,1998 Addressing the subject of euthanasia medical ethicist Dr Linda Emanuel assembles testimony from leading experts to provide not only a clear account of the arguments for and against physician assisted suicide and euthanasia but also historical

empirical and legal perspectives on this complex and often heart rending issue Music and Esotericism Laurence Wuidar, 2010-05-15 This collection of essays analyzes the relationships that exist between esotericism and music from Antiquity to the 20th century investigating ways in which magic astrology alchemy divination and cabbala interact with music The volume seeks to dissolve artificial barriers between the history of art music science and intellectual history by establishing an interdisciplinary dialogue about music as viewed against a specific cultural background The synthesis of scientific and historical contexts with respect to music explored here on a large scale for the first time opens up a wealth of new approaches to music historical research music performance and musical composition Each chapter presents either a unique example of music functioning within esoteric and scientific traditions or a demonstration of the influence of those traditions upon selected musical works L ouvrage analyse les relations entre l esotisme et la musique de l Antiquit au 20 me si cle tudiant comment la magie l astrologie l alchimie la divination et la cabale ont interagit avec la musique Il vise d passer les fronti res entre l histoire de l art l histoire de la musique et l histoire des sciences et des id es afin de nouer un dialogue interdisciplinaire sur la musique autour de contextes historiques et scientifiques pr cis L ouvrage offre une premi re synth se sur les rapports entre esotisme et musique ainsi que diverses pistes de recherche poursuivre
