Teaching German in Twentieth-century America David P. Benseler, Craig W. Nickisch, Cora Lee Nollendorfs, 2001 Teaching a foreign language and culture is always a challenge but it has been especially problematic to teach the German language and culture in the United States in the twentieth century The tradition of Germany's great poets and thinkers of the past has been joined by a starker legacy Through explorations of such topics as the world wars the Holocaust women in the language teaching profession Jewish contributions and technology's impact on scholarship this volume inspects the fascination and frustrating relationships of the two cultures as they interact through the teaching of German in American educational systems from small liberal arts colleges to large and famous universities This volume resulted from a conference Shaping Forces in American Germanics held in Madison Wisconsin in September 1996

Practicing Progress Richard E. Schade, Dieter Sevin, 2007 The essay reads an Enlightened and modern critique of progress in Mozart's *Così fan tutte* With numerous references to other operas and texts and with a storyline that emphasizes inevitable yet mutable aspects of human nature *Così* presents an ambivalent picture of the ways in which even the most disinterested and best informed attitude toward the past can affect the future At the same time the opera seems to embrace the notion of freedom of choice without rejecting tradition or repetition The essay also comments on the performance of *Così* in Zurich in 2000 conducted by Nikolaus Harnoncourt who often works with authentic period instruments
