German Travel Cultures:

German Travel Cultures Rudy Koshar, 2000-10-01 Travel guidebooks are an important part of contemporary culture but we know relatively little about their history and importance to the evolution of tourism Germany not only produced the first international standard for travel handbooks the Baedeker but also became a major tourist destination early in the twentieth century This is the first comprehensive discussion of the history of tourist guidebooks for any modern nation Selecting representative texts the first Baedeker to unified Germany guides to Berlin sex life and sites of Nazi martyrdom a tour guide for the German worker and American tourbooks to West Germany this fascinating study relates the history of tourist literature to the formation of distinct travel cultures oriented to specific audiences tastes and ideologies *Germany as a Culture of Remembrance* Alon Confino, 2017-03-01 An acknowledged authority on German history and memory Alon Confino presents in this volume an original critique of the relations between nationhood memory and history applied to the specific case of Germany In ten essays three never before published and one published only in German Confino offers a distinct view of German nationhood in particular and of nationhood in general as a product of collective negotiation and exchange between the many memories that exist in the nation The first group of essays centers on the period from 1871 to 1990 and explores how Germans used conceptions of the local or Heimat to identify what it meant to be German in a century of ideological upheavals The second group of essays comprehensively critiques and analyzes the ways laypersons and scholars use the notion of memory as a tool to understand the past Arguing that the case of Germany contains particular characteristics with broader implications for the way historians practice their trade *Germany as a Culture of Remembrance* examines the limits and possibilities of writing history **Monarchy, Myth, and Material Culture in Germany 1750-1950** Eva

Giloi, 2011-07-21 A fascinating study of how ordinary German subjects collected and consumed royal relics and memorabilia

Philosophy, Travel, and Place Ron Scapp, Brian Seitz, 2018-12-11 This book continues the exploration of themes either neglected or devalued by others working in the field of philosophy and culture The authors in this volume consider the domain of travel from the broadest and most diverse of philosophical perspectives covering everyday topics ranging from commuting and vacation travel to immigration and forced relocation Our time in transit our being in transit and our time at rest whether by choice or edict has always been at issue always been at play and has always been in motion if you will for our species The essays collected here explore the possibilities of the material impact of being able to move or stay put as well as being forced to go or prevented from leaving **Encyclopedia of Consumer Culture** Dale Southerton, 2011-09-15 The

Encyclopedia of Consumer Culture is the first reference work to outline the parameters of consumer culture and provide a critical scholarly resource on consumption and consumerism Bavarian Tourism and the Modern World, 1800-1950 Adam T. Rosenbaum, 2016-02-15 During the nineteenth and early twentieth centuries the tourism industry of Bavaria consistently promoted an image of grounded modernity This romanticized version of the present reconciled continuity with change

tradition with progress and nature with science In an era of rapid and unprecedented change simultaneously nostalgic and progressive grounded modernity produced an illusion of continuity It helped make the experience of modernity more tangible by linking impersonal and abstract ideas like national identity with familiar experiences and concrete sights Bavarian Tourism and the Modern World 1800 1950 examines the connections between Bavarian tourism and the turbulent experience of German modernity during this period It gauges Germany's long and often unsettling journey to modernity using Bavarian tourism and travel as a lens Closely examining guidebooks brochures postcards and other tourist propaganda Adam Rosenbaum argues that by pointing visitors to the past tourism illuminated the present and produced signposts to the future

Turizm Anne E. Gorsuch, Diane P. Koenker, 2018-09-05 In the Soviet Union and the eastern bloc the idea of vacation was never as uncomplicated as throwing some suitcases in the car and heading for the beach The emphasis was on individual self improvement within the framework of the collective an approach manifest in everything from the scheduling of physical exercise to the group tours organized for factory workers Party cadres and other segments of society Like other Soviet style utopian projects socialist tourism which was often heavily laden with rules and prescriptions was a consciousness raising project part of the vast effort to forge new socialist men and women *Turizm* is the first book to examine the history of tourism in Russia and eastern Europe from the tsarist period to the age of Soviet and east European mass tourism in the 1960s and 1970s The contributors to this volume address topics including the roots of socialist tourism the role of tourism in the making of nations and maintenance of empire and ways in which the men and women of the margins of Europe understood themselves in relation to Europe Especially interesting are chapters that show how individuals pursued their own consumerist goals within the framework of collective tourism obliging the regimes to adapt Illustrated with period photographs and promotional materials *Turizm* will appeal not only to historians of the region but also to anyone with an interest in consumer culture travel leisure and nation building

German Soldiers and the Occupation of France, 1940-1944 Julia

S. Torrie, 2018-10-11 Occupations past and present Consuming the tastes and pleasures of France Touring and writing about occupied land Capturing experiences and photo books Rising tensions Westweich perceptions of softness among soldiers in France Twilight of the gods *Modernizing Tradition* Adam C. Stanley, 2008-12-15 In the turbulent decades after World War I both France and Germany sought to return to an idealized prewar past Many people believed they could recapture a sense of order and stability by reinstituting traditional gender roles which the war had thrown off balance While French and German women necessarily filled men's roles in factories and other jobs during the war those who continued to lead active working lives after World War I risked being called modern women Far from a compliment this derogatory label encompassed everything society found threatening about women's new place in public life smoking working women who preferred independence and sexual freedom to a traditional role in the home Society felt threatened by the image of the modern woman yet also realized that conceptions of femininity needed to accommodate the cultural changes brought about by the Great War In *Modernizing Tradition* Adam C Stanley explores how interwar French and German popular culture used commercial images to redefine femininity in a way that granted women some access to modern life without encouraging the assertion of female independence Examining advertisements articles and cartoons as well as department store publicity materials from the popular press of each nation Stanley reveals how the media attempted to convince women that with the help of newly available consumer goods such as washing machines refrigerators and vacuum cleaners being a mother or a housewife could be empowering even liberating A life devoted to the home these images promised need not be an unmitigated return to old fashioned tradition but could offer a rewarding lifestyle based on the wonders and benefits of modern technology Stanley shows that the media carefully limited women's association with modernity to those activities that reinforced women's traditional roles or highlighted their continued dependence on masculine guidance expertise and authority In this cross national study Stanley brings into sharp relief issues of gender and consumerism and reveals that despite the larger political differences between France and Germany gender ideals in the two countries remained virtually identical between the world wars That these concepts of gender stayed static over the course of two decades years when nearly every other aspect of society and culture seemed to be in constant flux attests to their extraordinary power as a force in French and German society Tourism and Travel during the Cold War Sune Bechmann Pedersen, Christian Noack, 2019-09-11 The Iron Curtain was not an impenetrable divide and contacts between East and West took place regularly and on various levels throughout the Cold War This book explores how the European tourist industry transcended the ideological fault lines and the communist states attracted an ever increasing number of Western tourists Based on extensive original research it examines the ramifications of tourism from sun and sea package tours to human rights travels in key Eastern European locations including East Berlin the Soviet Union Yugoslavia and Albania The book's analysis of the politics culture and history of tourism to the East offers important new perspectives on European tourism in the twentieth century

Seeing Hitler's Germany K. Semmens, 2005-03-23 Seeing Hitler's Germany is the first fully researched wide ranging study of commercial tourism under the swastika. The book demonstrates how effectively the Nazi regime coordinated all German tourism organizations. At the same time it emphasizes the apparent normality of many everyday tourist experiences after 1933. These certainly helped some Germans and many foreign visitors to overlook the regime's brutality. However, tourism also celebrated the most racist chauvinist aspects of the new Germany which in turn became a normal part of being a tourist under Hitler. While violence and terror have continued to dominate many recent studies of the Third Reich, this book takes a different view. By investigating a range of normal experiences such as taking a tour, visiting a popular sightseeing attraction, reading a guidebook or sending a postcard, Seeing Hitler's Germany deepens our understanding of the popular legitimization of Nazi rule.

Club Red Diane P. Koenker, 2013-04-26 The Bolsheviks took power in Russia 1917 armed with an ideology centered on the power of the worker. From the beginning, however, Soviet leaders also realized the need for rest and leisure within the new proletarian society and over subsequent decades struggled to reconcile the concept of leisure with the doctrine of communism, addressing such fundamental concerns as what the purpose of leisure should be in a workers state and how socialist vacations should differ from those enjoyed by the capitalist bourgeoisie. In *Club Red*, Diane P. Koenker offers a sweeping and insightful history of Soviet vacationing and tourism from the Revolution through perestroika. She shows that from the outset the regime insisted that the value of tourism and vacation time was strictly utilitarian. Throughout the 1920s and 30s the emphasis was on providing the workers access to the repair shops of the nation's sanatoria or to the invigorating journeys by foot, bicycle, skis or horseback that were the stuff of proletarian tourism. Both the sedentary vacation and tourism were part of the regime's effort to transform the poor and often illiterate citizenry into new Soviet men and women. Koenker emphasizes a distinctive blend of purpose and pleasure in Soviet vacation policy and practice and explores a fundamental paradox: a state committed to the idea of the collective found itself promoting a vacation policy that increasingly encouraged and then had to respond to individual autonomy and selfhood. The history of Soviet tourism and vacations tells a story of freely chosen mobility that was enabled and subsidized by the state. While Koenker focuses primarily on Soviet domestic vacation travel, she also notes the decisive impact of travel abroad, mostly to other socialist countries, which shaped new worldviews, created new consumer desires and transformed Soviet vacation practices.

Space and Time under Persecution Guy Miron, 2023-09-19 A new history of how the Nazi era upended German Jewish experiences of space and time from eminent historian Guy Miron. In *Space and Time under Persecution*, Guy Miron considers how social exclusion, economic decline, physical relocation and later forced evictions, labor and deportation under Nazi rule forever changed German Jews' experience of space and time. Facing ever mounting restrictions, German Jews reimagined their worlds, devising new relationships to

traditional and personal space new interpretations of their histories and even new calendars to measure their days For Miron these tactics reveal a Jewish community's attachment to German bourgeois life as well as their defiant resilience under Nazi persecution

Enacting Brittany Patrick Young, 2017-03-02 Brittany offers an excellent example of a French region that once attracted a certain cultivated elite of travel connoisseurs but in which more popular tourism developed relatively early in the twentieth century It is therefore a strategic choice as a case study of some of the processes associated with the emergence of mass tourism and the effects of this kind of tourism development on local populations Efforts to package Breton cultural difference in the late nineteenth and early twentieth centuries marked a significant advance in heritage tourism and a departure from what is commonly perceived to be a French intolerance of cultural diversity within its borders This study explores the means by which key actors middle class associations businesses governmental bodies cultural intermediaries pursued tourist development in the region and the effect this had on Breton cultural identification Chapters are arranged thematically and consider the rise of rural tourism in France and the preservation display and enactment of Breton culture in its most visible locations the natural landscape of Brittany Breton dress early heritage festivals and religious Pardons The final chapter explores the staging of Breton culture at the Paris World's Fair of 1937 and the roots of state sponsored mass tourism Beyond those interested in the history of French tourism this study will also be invaluable to historians and social scientists concerned with understanding the dynamics involved in the emergence of mass tourism its causes and consequences in particular locales in the present as well as in the past
