Chapman, 2019-01-21 In Expressionism and Poster Design in Germany 1905 1925 Kathleen Chapman re defines Expressionism by situating it in relation to the most common type of picture in public space during the Wilhelmine twentieth century the commercial poster Focusing equally on visual material and contemporaneous debates surrounding art posters and the image in general this study reveals that conceptions of a modern image were characterized not so much by style or mode of production and distribution but by a visual rhetoric designed to communicate more directly than words As instances of such rhetoric Expressionist art and posters emerge as equally significant examples of this modern image demonstrating the interconnectedness of the aesthetic the utilitarian and the commercial in European modernism

Comparing Ernst Ludwig Kirchner and Georg Baselitz Joséphine Hengstwerth, 2019-10-30 Essay from the year 2019 in the subject Art Visual artists grade 72% Birmingham City University course Fine Art language English abstract German art seldom has been easy It is often reminded with its nation's history sometimes expressing its glory but just as often decrying its tumult and suffering Homburg 2003 In times of war a nation or the whole world is brought into chaos and uncertainty Throughout the past hundred years our world has suffered many conflicts and tensions including the first and second world war 1914 1918 1939 1945 and the cold war 1947 1991 In times of war artists feel a great need to respond in their own way

Throughout history there have been many different ways of making art during war. For instance, *Liberty Leading the People* by Eugène Delacroix from 1830 is one example of a war painting from the French Revolution. With the female personification of liberty walking over dead bodies and holding up the French flag as the main focus, the painting is heroic and triumphant. Other artists use art as a form of propaganda, protest, or as a way of expressing their individual feelings in response to war, suffering, and destruction. Two German artists considered expressionist from two different generations experiencing similar forms of devastation are Ernst Ludwig Kirchner (6 May 1880–15 June 1938) and Georg Baselitz (born 23 January 1938). Their role as expressionist artists and the influence of war is the focus of the following discussion.

Voices of German

Expressionism Victor H. Miesel, 2003-05-14. Between 1900 and 1933, Expressionist artists created some of the most dramatic and enduring images of the twentieth century. This volume brings together the thoughts and aspirations of the individuals who brought about this revolutionary epoch in the visual arts. It offers readers the opportunity to engage at firsthand with key writings by the most significant artists of the Expressionist era.

German Expressionist Sculpture

Stephanie Barron, 1983. The volume presents a survey of German expressionist sculpture. Expressionism was a modernist movement initially in poetry and painting, originating in Germany at the beginning of the 20th century. Its typical trait is to present the world solely from a subjective perspective, distorting it radically for emotional effect in order to evoke moods or ideas. Expressionist artists sought to express meaning or emotional experience rather than physical reality. The term is sometimes suggestive of emotional angst. The Expressionist emphasis on individual perspective has been characterized as a reaction to positivism and other artistic styles such as naturalism and impressionism. This work contains more than one hundred and twenty examples of German Expressionist sculpture by thirty-three artists. Included are sculptures by artists recognized for their work in this medium: Ernst Barlach, Wilhelm Lehmbruck, Georg Kolbe, Renee Sintenis, Gerhard Marcks, as well as sculpture by such figures as Kathe Kollwitz, Ernst Ludwig Kirchner, Erich Heckel, Karl Schmidt-Rottluff, Emil Nolde, Max Beckmann, Egon Schiele, and Otto Freundlich, whose reputations are based on their painting and graphic oeuvres. A significant number of works by lesser-known artists who belonged to the second generation of Expressionism in the twenties among them Herbert Garbe, Conrad Felixmüller, Paul Rudolf Henning, William Wauer, and Christoph Voll are also examined. Included in the catalog are examples of the artists' varied writings as well as evaluations by contemporary critics, scholars, writers, and poets. Seven essays and excerpts from contemporary texts published in translation for the first time highlight the German Expressionists' concern with particular materials and their attraction to African and Oceanic art.

Prints and Drawings: Essays Robert Gore Rifkind, Center for German Expressionist Studies, Stephanie Barron, Bruce Davis, 1989. *German Expressionism* Dorothy Price, 2020-06-24. This book presents new research on the histories and legacies of the German Expressionist group Blaue Reiter, the founding force behind modernist abstraction. For the first time, Blaue Reiter is subjected to a variety of novel interdisciplinary perspectives ranging from a philosophical enquiry into its

language and visual perception to analyses of its gender dynamics its reception at different historical junctures throughout the twentieth century and its legacies for post colonial aesthetic practices The volume offers a new perspective on familiar aspects of Expressionism and abstraction taking seriously the inheritance of modernism for the twenty first century in ways that will help to recalibrate the field of Expressionist studies for future scholarship Blaue Reiter still matters the contributors argue because the legacies of abstraction are still being debated by artists writers philosophers and cultural theorists today

examination of the women artists whose inspired search for artistic integrity and equality influenced Expressionist avant garde culture Women Artists in Expressionism explores how women negotiated the competitive world of modern art during the late Wilhelmine and early Weimar periods in Germany Their stories challenge predominantly male oriented narratives of Expressionism and shed light on the divergent artistic responses of women to the dramatic events of the early twentieth century Shulamith Behr shows how the posthumous critical reception of Paula Modersohn Becker cast her as a prime agent of the feminization of the movement and how K the Kollwitz used printmaking as a vehicle for technical innovation and sociopolitical commentary She looks at the dynamic relationship between Marianne Werefkin and Gabriele M nter whose different paths in life led them to the Blaue Reiter a group of Expressionist artists that included Wassily Kandinsky and Paul Klee Behr examines Nell Walden s role as an influential art dealer collector and artist who promoted women Expressionists during the First World War and discusses how Dutch artist Jacoba van Heemskerck s spiritual abstraction earned her the status of an honorary German Expressionist She demonstrates how figures such as Rosa Schapire and Johanna Ey

contributed to the development of the movement as spectators critics and collectors of male avant gardism Richly illustrated Women Artists in Expressionism is a women centered history that reveals the importance of emancipative ideals to the shaping of modernity and the avant garde German Expressionism Rose-Carol Washton Long,Ida Katherine Rigby,Nancy
