Flood, Frank Chapin Bray, 1908      **Current Problems** University of Minnesota, 1913      *Generational Shifts in Contemporary German Culture* Laurel Cohen-Pfister, Susanne Vees-Gulani, 2010 The concept of the generation in today's German culture and literature and its role in German identity In the debates since 1945 on German history and culture the concept of generations has become ever more prominent Recent and ongoing shifts in how the various generations are seen and see themselves in relation to history and to each other have taken on key importance in contemporary German cultural studies The seismic events of twentieth century German history are no longer solely first generational lived experiences but are also historical moments seen through the eyes of successor generations The generation seen as a category of memory thus holds a key to major shifts in German identity The changing generational perspectives of German writers and

filmmakers not only reflect but also influence these trends exposing both the expected differences between generational views and unexpected continuities. Moreover, as younger artists reframe recent history, older generations like the 1968ers are also contributing to these shifts by reassessing their own experiences and cultural contributions. This volume of new essays applies current discourse on generations in German culture to contemporary works dealing with major sociohistorical events since the Nazi period. Contributors: Svea Brünert, Laurel Cohen, Pfister, Friederike Eigler, Thomas C. Fox, Katharina Gerstenberger, Erin McGlothlin, Brad Prager, Ilka Rasch, Susanne Rinner, Caroline Schaumann, Maria Stehle, Reinhild Steingraber, Susanne Vees, Gulani. Laurel Cohen, Pfister is Associate Professor of German at Gettysburg College and Susanne Vees, Gulani is Assistant Professor of German and Comparative Literature at Case Western Reserve University. The Cambridge Companion to Modern German Culture, Eva Kolinsky, Wilfried van der Will, 1999-01-28. One of the most intriguing questions of our time is how some of the masterpieces of modernity originated in a country in which personal liberty and democracy were slow to emerge. This Companion provides an authoritative account of modern German culture since the onset of industrialisation, the rise of mass society and the nation state. Newly written and researched by experts in their respective fields, individual chapters trace developments in German culture including national identity, class, Jews in German society, minorities and women, the functions of folk and mass culture, poetry, drama, theatre, dance, music, art, architecture, cinema and mass media from the nineteenth century to the present. Guidance is given for further reading and a chronology is provided. In its totality, the Companion shows how the political and social processes that shaped modern Germany are intertwined with cultural genres and their agendas of creative expression. Jews in Today's German Culture, Sander L. Gilman, 1995. The Shoah seemed to have erased the historical Jewish presence in German culture. Since the late 1980s, however, a once silent and therefore relatively invisible Jewish community of the victims of the Shoah has been restructuring itself as a new generation of German Jews enters the mainstream of German cultural life. Sander L. **Nativist and Islamist Radicalism**, Ayhan Kaya, Ayşenur Benevento, Metin Koca, 2023-04-10. This book analyses the factors and processes behind radicalisation of both native and self-identified Muslim youths. It argues that European youth responds differently to the challenges posed by contemporary flows of globalisation such as deindustrialisation, socio-economic, political, spatial and psychological forms of deprivation, humiliation and structural exclusion. The book revisits social, economic, political and psychological drivers of radicalisation and challenges contemporary uses of the term radicalism. It argues that neoliberal forms of governance are often responsible for associating radicalism with extremism, terrorism, fundamentalism and violence. It will appeal to students and scholars of migration, minority studies, nationalisms, European studies, sociology, political science and psychology.
