German Ideology From France To Germany And Back

Lawrence D. Kritzman, Brian J. Reilly

German Ideology From France To Germany And Back:

German Ideology Louis Dumont, 1994 In Dumont's words the Frenchman sees himself as being a man by nature and a Frenchman by accident while the German feels he is a German in the first place and a man through his being a German Furthermore while individualism in the French fashion stresses equality and centers in the sociopolitical domain in Germany it focuses on the uniqueness the irreplaceability of the individual subject and the duty to cultivate it by self education Bildung

Germany and the Modern World, 1880-1914 Mark Hewitson, 2018-07-05 Re assesses Germany's relationship with the wider world before 1914 by examining the connections between nationalism transnationalism imperialism and globalization

Representing the German Nation Mary Fulbrook, Martin Swales, 2000-12-15 Modern Germany with its ruptures from late unification in 1871 through to the formation of two opposing German states provides a case study for an analysis of the issue of representations of identity in Germany since the war

The Columbia History of Twentieth-century French Thought Lawrence D. Kritzman, Brian J. Reilly, 2006 Unrivalled in its scope and depth The Columbia History of Twentieth Century French Thought assesses the intellectual figures movements and publications that helped shape and define fields as diverse as history and historiography psychoanalysis film literary theory cognitive and life sciences literary criticism philosophy and economics More than two hundred entries by leading intellectuals discuss developments in French thought on such subjects as pacifism fashion gastronomy technology and urbanism Contributors include prominent French thinkers many of whom have played an integral role in the development of French thought and American British and Canadian scholars who have been vital in the dissemination of French ideas

Expressivist Religious Zionism Shlomo Fischer, 2024-12-24 This book presents a new approach to the study of Religious Zionism In counter distinction to the prevalent fundamentalist approach it argues that mainstream of Religious Zionism is a romantic religious nationalist movement in which the modern idea of self expression and related notions such as the free and authentic self and the overcoming of alienation forms its philosophical core By showing how such notions are combined with conservative and un modern cultural and political goals such as the restoration of a messianic kingdom it provides a profoundly complex and nuanced account both of pervasiveness of modern notions in contemporary culture and of the modern aspects of conservative and even extremist religious and nationalist groups By uncovering the process of the sacralization of the nation the state the national destiny and territory it contributes to our understanding of religious nationalism globally It also shows how the violence and extremism perpetrated by Religious Zionism elements is not some atavistic holdover from the past but is in fact rooted in the drive to self actualization and constitutes modernist violence This book will appeal to researchers and students of Jewish studies Israel and the Middle East Its intended audience also includes researchers on religious nationalism and contemporary religious and national movements

Marx, the Young Hegelians, and the Origins of Radical Social Theory Warren Breckman, 2001-02-19 This is the first major study of Marx and the Young Hegelians in twenty years The

book offers a new interpretation of Marx's early development the political dimension of Young Hegelianism and that movement's relationship to political and intellectual currents in early nineteenth century Germany Warren Breckman challenges the orthodox distinction drawn between the exclusively religious concerns of Hegelians in the 1830s and the sociopolitical preoccupations of the 1840s He shows that there are inextricable connections between the theological political and social discourses of the Hegelians in the 1830s The book draws together an account of major figures such as Feuerbach and Marx with discussions of lesser known but significant figures such as Eduard Gans August Cieszkowski Moses Hess F W J Schelling as well as such movements as French Saint Simonianism and positive philosophy Wide ranging in scope and synthetic in approach this is an important book for historians of philosophy theology political theory and nineteenth century ideas

Anthropology, by Comparison André Gingrich, Richard Gabriel Fox, 2002 An international group of anthropologists take a fresh look at various neglected approaches to comparison and present new approaches that are relevant to the globalized world of the 21st century

Citizenship, Nationality and Migration in Europe David Cesarani, 2002-11-01 Throughout Europe longstanding ideas of what it means to be a citizen are being challenged The sense of belonging to a nation has never been more in flux Simultaneously nationalistic and racist movements are gaining ground and barriers are being erected against immigration This volume examines how concepts of citizenship have evolved in different countries and varying contexts It explores the interconnection between ideas of the nation modes of citizenship and the treatment of migrants Adopting a multi disciplinary and international approach this collection brings together experts from several fields including political studies history law and sociology By juxtaposing four European countries Britain France Germany and Italy and setting current trends against a historical background it highlights important differences and exposes similarities in the urgent questions surrounding citizenship and the treatment of minorities in Europe today

Mephisto in the Third Reich Emanuela Barasch Rubinstein, 2014-12-11 The association of Nazism with the symbol of ultimate evil the devil can be found in the works of Klaus and Thomas Mann Else Lasker Schöler and Rolf Hochhuth He appears either as Satan of the Judeo Christian tradition or as Goethe's Mephisto The devil is not only a metaphor but a central part of the historical analysis Barasch Rubinstein looks into this phenomenon and analyzes the premise that the image of the devil had a substantial impact on Germans acceptance of Nazi ideas His diabolic characteristics the pact between himself and humans and his prominent place in German culture are part of the intriguing historical observations these four German writers embedded in their work Whether writing before the outbreak of WWII during the war or after it when the calamities of the Holocaust were already well known they all examine Nazism in the light of the ultimate manifestation of evil

European Multiculturalism Revisited Alessandro Silj, 2013-07-04 European Multiculturalism Revisited analyses the alleged crises of the main models of multicultural societies experienced by Europe since the end of World War II based on research conducted by local scholars in the UK Denmark the Netherlands Italy France and Germany Each chapter provides an historical account of how the model

developed and was implemented in the country in question followed by an in depth analysis of the factors that have led to the claim that the model has failed The questions being Did it actually fail And if it failed was it because of some intrinsic weaknesses or external circumstances This volume is a groundbreaking contribution to a topic of vital contemporary importance Marcel Gauchet and the Loss of Common Purpose Natalie J. Doyle, 2017-12-20 This book explores the work of Marcel Gauchet one of France's most prominent contemporary intellectuals to examine the contemporary crisis of European democracy It does so by examining the threats from ideological co radicalization associated with the combined impact of economic crisis and Islamic fundamentalism It locates Gauchet's ideas in the context of French intellectual history and notes the significant influence upon it of the social and political theories of Cornelius Castoriadis and Claude Lefort and its reaction against those of Foucault The book reviews the entire scope of Gauchet's writings from the early publications to the most recent publications on the new world of neo liberal individualism economism and globalization The book reveals how Gauchet's work overcomes many of the misunderstandings affecting current discussions of controversial topics including the European Union the nation state political Islam the paradoxes of democracy secularization and reactionary political movements It highlights the need for European societies to rediscover their political underpinnings their capacity to invent a new collective future starting from the nation state and to adapt to a new mode of international relations on a global scale To do so and to counter the threat of radicalization they must retrieve the lost common purpose encapsulated in the notion of democratic sovereignty Nationalism in Europe and America Lloyd S. Kramer, 2011-08-01 Examining the history of nationalism's pervasive influence on modern politics and cultural identities Lloyd Kramer discusses how nationalist ideas gained emotional and cultural power after the revolutionary upheavals in the late eighteenth century Atlantic world Nationalism in Europe and America analyzes the multiple historical contexts and intellectual themes that have shaped modern nationalist cultures including the political claims for national sovereignty the emergence of nationalist narratives in historical writing and literature the fusion of nationalism and religion and the overlapping conceptions of gender families race and national identities Kramer emphasizes the similarities in American and European nationalist thought showing how European ideas about land history and national destiny flourished in the United States while American ideas about national independence and political rights reappeared among European nationalists and also influenced the rise of anticolonial nationalisms in twentieth century Asia and Africa By placing nationalist ideas and conflicts within the specific cross cultural framework of Atlantic history and extending his analysis to the twentieth century world wars Kramer offers readers a thoughtful perspective on nationalism's enduring political and cultural importance throughout the modern world The Metaphysics of Race Amit Varshizky, 2024-11-04 This book seeks to reframe debates on the conflicting scientific and spiritual traditions that underpinned the Nazi worldview showing how despite the multitude of tensions and rivals among its adherents it provided a coherent conceptual grid and possessed its own philosophical consistency Drawing on a large variety

of works the volume offers insights into the intellectual climate that allowed the radical ideology of National Socialism to take hold. It examines the emergence of nuanced conceptions of race in interwar Germany and the pursuit of a new ethical and existential fulcrum in biology. Accordingly the volume calls for a re-examination of the place of genetics in Nazi racial thought, drawing attention to the multi-register voices within the framework of interwar racial theory. Varshizky explores the ways in which these ideas provided new justifications for the Nazi revolutionary enterprise and blurred the distinction between fact and value, knowledge and faith, the secular and the sacred, and how they allowed Nazi thinkers to bounce across these epistemological divisions. This volume will be of interest to scholars of Nazi Germany and World War II intellectual and cultural history, the history of science and the philosophy of religion. **Schleiermacher and Palmer** Justin A.

Davis, 2019-09-11. Twenty-first century Protestantism is radically different from the Protestantism of the Reformation. The challenges of modernity affected all aspects of Christianity, and the more successful attempts to combat these challenges came about as a result of two rather different yet similar theologians in the nineteenth century. This work provides an exhaustive look at Friedrich Schleiermacher, the father of modern liberal Protestantism, and Phoebe Palmer, the mother of the Holiness movement. The trend of liberalism is to strip away all but what is essential to Christian life, while the Holiness movement sought to make all of life applicable to the Bible and God. While these two movements may appear contradictory, they are grounded in a shared source of experiential Protestantism, commonly known as Pietism, and develop their theological systems from this starting point. This study includes not only their theologies but also biographies that introduce the reader to these two luminaries. Liberalism and holiness, as created by Schleiermacher and Palmer, lay the foundation for Pentecostalism, fundamentalism, neo-orthodoxy, and the interdenominational movements of the nineteenth century. Only from this vantage can we understand the modern Protestant mindset. The Bellum Grammaticale and the Rise of European Literature

Mr Erik Butler, 2013-04-28. The now forgotten genre of the *bellum grammaticale* flourished in the sixteenth and seventeenth centuries as a means of satirizing outmoded cultural institutions and promoting new methods of instruction. In light of works written in Renaissance Italy, ancien régime France, and baroque Germany, Andrea Guarna's *Bellum Grammaticale* (1511), Antoine Furetière's *Nouvelle allégorique* (1658), and Justus Georg Schottelius' *Horrendum Bellum Grammaticale* (1673), this study explores early modern representations of language as war. While often playful in form and intent, the texts examined address serious issues of enduring relevance: the relationship between tradition and innovation, the power of language to divide and unite peoples, and canon formation. Moreover, the author contends that language wars illuminate the shift from a Latin-based understanding of learning to the acceptance of vernacular erudition and the emergence of national literature. *Moses Hess and Modern Jewish Identity* Ken Koltun-Fromm, 2001-07-31. Koltun-Fromm's reading of Hess is of crucial import for those who study the construction of self in the modern world, as well as for those who are concerned with Hess and his contributions to modern thought. A reading of Hess that is subtle, judicious, insightful, and

well supported David Ellenson Moses Hess a fascinating 19th century German Jewish intellectual figure was at times religious and secular traditional and modern practical and theoretical socialist and nationalist Ken Koltun Fromm's radical reinterpretation of his writings shows Hess as a Jew struggling with the meaning of conflicting commitments and impulses Modern readers will realize that in Hess's life as in their own these commitments remain fragmented and torn As contemporary Jews negotiate multiple often contradictory allegiances in the modern world Koltun Fromm argues that Hess's struggle to unite conflicting traditions and frameworks of meaning offers intellectual and practical resources to re-examine the dilemmas of modern Jewish identity Adopting Charles Taylor's philosophical theory of the self to uncover Hess's various commitments Koltun Fromm demonstrates that Hess offers a rich textured though deeply conflicted and torn account of the modern Jew This groundbreaking study in conceptions of identity in modern Jewish texts is a vital contribution to the diverse fields of Jewish intellectual history philosophy Zionism and religious studies Jewish Literature and Culture Alvin H Rosenfeld editor Published with the generous support of the Koret Foundation

The Anthropology of Welfare Iain Edgar, Andrew Russell, 2002-03-11 Academic applied anthropology and professional interest social workers carers Original for the first time this book links the latest research in Anthropology with that in Welfare and Community Care Applied Anthropology is a growing field Keele University now has an applied anthropology and health unit Sussex Goldsmiths Oxford Brookes and Hull Universities are all developing programmes in applied anthropology

Freud and the Institution of Psychoanalytic Knowledge Sarah Winter, 1999 Combining approaches from literary studies and historical sociology this book provides a groundbreaking cultural history of the strategies Freud employed in his writings and career to orchestrate public recognition of psychoanalysis and to shape its institutional identity

Nietzsche's Political Skepticism Tamsin Shaw, 2010-07-21 It is difficult to spell out the precise political implications of Nietzsche's critique of morality He himself never did so in any systematic way Tamsin Shaw argues there is a reason for this that Nietzsche's insights entail a distinctive form of political skepticism

The Ethics of Modernity Richard Münch, 2001 Based on intensive long term study this comparative book traces the role of ethics in the formation of modernity in four Western nations the US Britain France and Germany Münch's analysis spans several centuries of historical and political development While ethics has played a clear role in the West's transition to modernity he shows that its role has varied substantially and that it has influenced the development of each nation's political and social institutions The book begins with an assessment of the ethics of the West in contrast with the East Münch then looks at the formation of the ethics of modernity from ancient Judaism to ascetic Protestantism and modern secularized culture The Ethics of Modernity builds a systematic reconstruction of the ethical formation of modernity in its different stages and variations concluding with current globalization trends

Getting the books **German Ideology From France To Germany And Back** now is not type of challenging means. You could not forlorn going next books store or library or borrowing from your connections to read them. This is an no question simple means to specifically acquire lead by on-line. This online statement German Ideology From France To Germany And Back can be one of the options to accompany you bearing in mind having extra time.

It will not waste your time. allow me, the e-book will certainly appearance you additional thing to read. Just invest little period to right of entry this on-line proclamation **German Ideology From France To Germany And Back** as with ease as evaluation them wherever you are now.
