Citino, 2022-05-25 When Germany launched its blitzkrieg invasion of France in 1940 it forever changed the way the world waged war Although the Wehrmacht ultimately succumbed to superior Allied firepower in a two front war its stunning operational achievement left a lasting impression on military commanders throughout the world even if their own operations were rarely executed as effectively Robert Citino analyzes military campaigns from the second half of the twentieth century to further demonstrate the difficulty of achieving decisive results at the operational level Offering detailed operational analyses of actual campaigns Citino describes how UN forces in Korea enjoyed technological and air superiority but found the enemy unbeatable provides analyses of Israeli operational

victories in successive wars until the Arab states finally grasped the realities of operational level warfare in 1973 and tells how the Vietnam debacle continued to shape U S doctrine in surprising ways Looking beyond major power conflicts he also reveals the lessons of India s blitzkrieg like drive into Pakistan in 1971 and of the senseless bloodletting of the Iran Iraq War Citino especially considers the evolution of U S doctrine and assesses the success of Desert Storm in dismantling an entrenched defending force with virtually no friendly casualties He also provides one of the first scholarly analyses of Operation Iraqi Freedom showing that its plan was curiously divorced from the realities of military history grounded instead on nebulous theories about expected enemy behavior Throughout Citino points to the importance of mobility especially mobilized armor in modern operational warfare and assesses the respective roles of firepower training doctrine and command and control mechanisms Brimming with new insights Citino s study shows why technical superiority is no guarantee of victory and why a thorough grounding in the history of past campaigns is essential to anyone who wishes to understand modern warfare Blitzkrieg to Desert Storm provides that grounding as it addresses the future of operational level warfare in the post 9 11 era

Tobruk David Mitchelhill-Green,2021-07-28 Tobruk was one of the greatest Allied victories and one of the worst Allied defeats of the Second World War The eight month long 1941 siege a defiant stand by the so called Rats of Tobruk captured the world s attention Conversely the fall of Tobruk in June 1942 came a shock to the Allies in the wake of Japan s entry into the war and a string of defeats in the Far East It rocked the foundation of Winston Churchill s premiership revived the flagging hopes of the German people and fanned the flames of Arab unrest It furthered Rommel s ascendancy and marked a turning point in Anglo American relations and the fight against Nazi Germany Tobruk Fiercely Stand or Fighting Fall presents a new perspective asking why the remote fortress successfully fought off repeated attacks in 1941 before tragically falling to Rommel s Axis forces in just 24 hours in mid 1942 It begins with Italy s invasion of Ottoman held North Africa in 1911 before introducing key individuals Rommel Mussolini and Morshead to examine how their WWI service shaped later events From Mussolini s ill fated invasion of Egypt in September 1940 the book explores the capture of Tobruk in January 1941 by the Australian 6th Division the ensuing siege of its sister 9th Division and the fortress disastrous capitulation

Employment of the Engineer System in Arid Mountainous and Desert Areas--a Concept Paper Paul G. Cerjan,Theodore G. Stroup,1981 The employment of the Engineer system is examined for desert and arid mountainous terrain Geographic focus for the paper is the Mediterranean basin along North Africa the Arabian Peninsula Southwest Asia and the horn of Africa Such terrain presents the military engineer a terrain spectrum not heretofore considered in the last two or three decades Historical research provides lessons learned from WW II 1967 and 1973 wars Impact on system elements mobility countermobility survivability and general engineering vis a vis the terrain is discussed Considerations and recommendations are offered for each system element for realistic and timely implementation rather than long development processes and large resource outlays Engineer force structure considerations are postulated for a deployment into an austere

arid area Additional considerations are presented for areas of doctrine equipage and training Commanders and staff officers of engineer and engineer supported units should be able to garner ideas and techniques from paper discussion for potential near term contingency missions and projects focused on desert and arid mountainous terrain areas **Tobruk 1942** David Mitchelhill-Green,2016-10-06 Tobruk was one of the greatest Allied victories and one of the worst Allied defeats of the Second World War The 1942 fiasco rocked the very foundation of Winston Churchill's premiership It revived the flagging hopes of the German people and fanned the flames of Arab unrest Furthering Rommel's ascendancy and souring relations within the British Commonwealth it marked a turning point in Anglo American relations in the fight against Adolf Hitler's Third Reich Utilising a wealth of primary and secondary sources Tobruk 1942 examines why the fortress fell to Rommel's Axis forces in just 24 hours when it held out against repeated attacks the previous year Comparing the 1941 and 1942 battles this book presents a new perspective on Tobruk the isolated Libyan fortress and symbol of Allied freedom which for a period in the war captured the world's attention **The 9th Australian Division Versus the Africa Corps** Ward Anson Miller,Combat Studies Institute (U.S.),1986 Describes the context of the 9th Infantry Division against tanks in the Battle of Tobruk Libya 1941 during World War 2 *Desert Operations Readings* ,1991 *The 9th Australian Division Versus The Africa Corps: An Infantry Division Against Tanks - Tobruk, Libya, 1941* Colonel Ward Miller,2014-08-15 Illustrated with 7 maps and 15 photos In April and May 1941 the previously successful blitzkrieg tactics of the German Army met defeat by the outnumbered Australian forces of the 9th Division at Tobruk The Australian infantry achieved victory through a successful all around defense against tank attacks in force By employing all available assets in a combined arms effort well supported light infantry forces defeated a heavier armored force The 9th Australian Division Versus the Africa Corps An Infantry Division Against Tanks Tobruk Libya 1941 provides the reader with a valuable historical context for evaluating how light infantry forces can confront armored attacks This CSI special study also reveals how light infantry forces operated and were supported and sustained in a desert environment a message that has continuing relevance for today's Army *German Artillery in Combat* Bob Carruthers,2013-01-21 This unique collection of contemporary combat accounts provides a primary source insight into the reality of artillery operations on the Eastern Front Mobile rail and towed artillery are all considered in this fascinating compilation This book is part of the Hitler's War Machine series a new military history range compiled and edited by Emmy Award winning author and historian Bob Carruthers The series draws on primary sources and contemporary documents to provide a new insight into the true nature of Hitler's Wehrmacht The series consultant is David McWhinnie creator of the award winning PBS series Battlefield **A Catalog of Books Represented by Library of Congress Printed Cards Issued to July 31, 1942** ,1942 *The Dynamic War* Alan Kinghorn,1967 **Historical Bibliography of Warfare in the Middle East** ,1972 A Catalog of Books Represented by Library of Congress Printed Cards.
