Germans In Missouri 1900 1918 Prohibition Neutrality And Assimilation:

The Germans in Missouri, 1900-1918 David W. Detjen, 1985 Throughout its existence the National German American Alliance was not only an important cultural institution in the German American community but also one of the principal organized opponents ethnic or otherwise to those organizations in the state agitating for the control or prohibition of liquor It is hard to conceive of any history of the political struggles over prohibition and temperance legislation of the time ignoring the efforts of the Alliance in opposition to such legislation Yet it is surprising how little has been written on the National German American Alliance and its state and local affiliates There have been a number of books and articles on either the national organization or one or the other of its local branches But few of those studies have analyzed closely the significance of the anti prohibition activism of the Alliance in the minds of its members and supporters and in the minds of its opponents For many German Americans the anti prohibition agitation of the Alliance was the principal justification for its existence Another purpose of this book is to describe the Weltanschauung of the Alliance leadership and its reaction to the pressures of assimilation as it endeavored to meet the challenge of preserving German culture in an ethnic community rapidly being assimilated

Germans as Minorities during the First World War Professor Panikos Panayi, 2014-07-28 Offering a global comparative perspective on the relationship between German minorities and the majority populations amongst which they found themselves during the First World War this collection addresses a theme of major concern to historians of twentieth century Europe Emerging from a long term co operative project which culminated in International Colloquium at De Montfort University in 2011 the book brings together scholars from throughout the world who have worked on aspects of the subject over many years Divided into two sections the volume opens with three overview chapters which provide a background to the second section of ten chapters in which the individual case studies tackle key questions These include the extent to which an established German community existed before the outbreak of the First World War and whether it survived the conflict how public opinion the press parliament and ordinary citizens reacted towards the presence of German enemy aliens in their midst how governments treated their German populations during the First World War why nation states and their populations throughout the world behaved in a similarly intolerant manner towards Germans in their midst whether the War represented a significant turning point in the evolution of nationalism and xenophobia and if there was a copycat element amongst both state behaviour and the attitudes of populations towards Germans throughout the world from New Zealand to Russia By exploring these and related issues the collection uses the example of the experience of Germans to see whether the First World War can be regarded as a turning point in the mistreatment of minorities one that would lead to even worse manifestations of racism later in the twentieth century
