Germans Or Foreigners Attitudes Towards Ethnic Minorities In Postreunification Germany:

Germans or Foreigners? Attitudes Toward Ethnic Minorities in Post-Reunification Germany R. Alba,P. Schmidt,M.

Wasmer,2004-01-02 This book examines contemporary attitudes towards ethnic minorities in Germany These minorities include some of immigrant origin such as Italians Turks and asylum seekers and the principal non immigrant minority Jews While the findings demonstrate that intense prejudice against minorities is not widespread among Germans many of whom in fact can be considered immigrant and minority friendly a crystallization of attitudes is also evident that is attitudes towards immigrants are strongly correlated with anti Semitism and with other worldview dimensions such as positioning in the left right political spectrum In this sense the fundamental question of whether immigrants and other minorities should be regarded as fellow citizens or ethnic outsiders remains relevant in the German context **Foreigners, minorities and**

integration Sarah Hackett,2015-11-01 This book explores the arrival and development of Muslim immigrant communities in Britain and Germany during the post 1945 period through the case studies of Newcastle upon Tyne and Bremen It traces Newcastle s South Asian Muslims and Bremen s Turkish Muslims from their initial settlement through to the end of the twentieth century and investigates their behaviour and performance in the areas of employment housing and education At a time at when Islam is sometimes seen as a barrier to integration and harmony in Europe this study demonstrates that this need not be the case In what is the first comparison of Muslim ethnic minorities in Britain and Germany at a local level this book reveals that instances of integration have been frequent It is essential reading for both academics and students with an interest in migration studies modern Britain and Germany and the place of Islam in contemporary Europe **Challenging**

Multiculturalism: European Models of Diversity Raymond Taras,2012-12-17 Tackles the challenge of dismantling the multicultural model without destroying diversity in European society Have Europeans become hostile to multiculturalism When people vote for anti immigration parties do they also support their anti multiculturalism policies And are right wing extremists becoming the storm troopers of the struggle against diversity In recent years European political leaders from Angela Merkel to David Cameron have discarded the term multiculturalism and now express scepticism criticism and even hostility towards multicultural ways of organising their societies Yet they are unprepared to reverse the diversity existing in their states These contradictory choices have different political consequences in the countries examined in this book The future of European liberalism is being played out as multicultural notions of belonging inclusion tolerance and the national home are brought into question **After the Nazi Racial State** Rita Chin,Heide Fehrenbach,Geoff Eley,Atina

Grossmann,2010-02-22 An investigation of the concept of race in post Nazi Germany Thucydides' Meditations on Fear Raymond Taras,2023-09-12 Understanding contemporary global politics by connecting them to the meditations of a classical Greek philosopher may seem farfetched and counterintuitive But for political theorists policymakers the new influencers journalists and engaged students Thucydides ancient wisdom provides insights into diagnosing and even undermining an

endemic of political fear spreading across the world's borders. With his help, this book probes six case studies of aspiring great powers and the brittle identities that they may have unwittingly constructed. Raymond Taras questions the motives of the manipulators of fear, whether found in authoritarian states or increasingly in backsliding liberal democratic ones. The urgency of returning to and respecting tolerance in states establishing relations with arriving refugees and migrants takes on critical importance.

Immigration Dialectic Harald Bauder, 2011-11-19 Immigration is an integral part of national identity in settler societies such as Canada. But in countries where identity is defined more in ethnic terms such as Germany, the presence of immigrants has only recently begun to be acknowledged. Taking these two countries as case studies, *Immigration Dialectic* explores the impact of immigration on national identity as imagined through media-based discourse. Harald Bauder argues that while both countries rely on negative depictions of immigrants to construct a positive image of the self, the ways in which Canada and Germany construct national identity in relation to representations of immigrants are significantly different. Bauder introduces a sophisticated framework of Hegelian dialectics for the growing interdisciplinary literature regarding media perspectives on immigration and national identity. Providing close analysis of themes such as belonging, economic impacts, and national security, *Immigration Dialectic* will appeal to anyone interested in contemporary discussions on immigration.

Teaching Migrant Children in West Germany and Europe, 1949-1992 Brittany Lehman, 2018-11-23 This book examines the right to education for migrant children in Europe between 1949 and 1992. Using West Germany as a case study to explore European trends, the book analyzes how the Council of Europe and European Community's ideological goals were implemented for specific national groups. The book starts with education for displaced persons and exiles in the 1950s, then compares schooling for Italian, Greek, and Turkish labor migrants, then circles back to asylum seekers and returning ethnic Germans. For each group, the state entries involved tried to balance equal education opportunities with the right to personhood, an effort which became particularly convoluted due to implicit biases. When the European Union was founded in 1993, children's access to education depended on a complicated mix of legal status and perception of cultural compatibility. Despite claims that all children should have equal opportunities, children's access was limited by citizenship and ethnic identity.

New Russian Nationalism Kolsto Pal Kolsto, 2016-03-24 Russian nationalism, previously dominated by imperial tendencies, prides in a large, strong, and multi-ethnic state able to project its influence abroad. It is increasingly focused on ethnic issues. In 2014, Russia's annexation of Crimea and the subsequent violent conflict in Eastern Ukraine utterly transformed the nationalist discourse in Russia. This book provides an up-to-date survey of Russian nationalism as a political, social, and intellectual phenomenon by leading Western and Russian experts in the field of nationalism studies. It includes case studies on migrantophobia, the relationship between nationalism and religion, nationalism in the media, nationalism and national identity in economic policy, nationalism in the strategy of the Putin regime, as well as a survey-based study of nationalism in public opinion.

Changing Times: Germany in 20 Th -Century Europe- Les Temps Qui Changent : L'Allemagne Dans L'Europe Du 20 E Siècle Jürgen Elvert, Sylvain Schirmann, 2008

Proceedings of the doctoral summer seminar Changing times Germany in 20th Century Europe Continuity Evolution and Breakdowns organised by the European Academy of Yuste Foundation in cooperation with the SEGEI network in the Royal Monastery of Yuste and Palace of Charles V 10th 15th September 2007 Actes du séminaire doctoral d t Les temps qui changent L Allemagne dans l Europe du 20e siècle Continuité évolution et rupture organisés par la Fondation Académie Européenne de Yuste et le réseau SEGEI dans le Monastère Royal de Yuste et le Palais de Charles Quint du 10 au 15 septembre 2007

The Uyghur Lobby Yu-Wen Chen, 2013-12-17 An upsurge in violence between Uyghur and Han in China's far western region of Xinjiang has gained increased media and academic attention in recent years as was evidenced in the July 2009 riots Numbering over eight million the Uyghur are China's fifth largest minority nationality and their mounting aspiration for obtaining more autonomy has contributed to the recent ethnic conflicts in the region This book looks at those who are seeking to preserve the Uyghur identity and support the secession of Xinjiang from China in order to create their own independent state by exploring the global operations and sister groups of the Uyghur diaspora umbrella organization the World Uyghur Congress WUC It examines the networks of the WUC the coalitions it has formed the strategies the organization pursues to raise public awareness about Uyghur issues around the globe and looks at the actors that have emerged as key players in the contemporary WUC network Further this book shows that the Uyghur lobby is not a unified movement but that the local groups that it consists of are highly constrained by the broader domestic politics of their host countries a fact which has a significant impact on the lobby's ability to realize its strategic and political ambitions In turn Yu

Wen Chen gauges the impact of the WUC on public opinion and policymakers in the world's democracies and shows how since Uyghur organizations have been given legitimacy by liberal democracies and international governmental organizations they can no longer be considered merely splintered members of a far flung diaspora locked in a one sided struggle with Beijing. Indeed Uyghur activists can and do use their hard won legitimacy as legal migrants and asylum seekers to influence politics in their host countries. This unique and timely study reveals how an issue concerning a Chinese minority has been catapulted onto the wider global political stage and as such it will be of great interest to students and scholars working on Chinese politics, the Uyghur issue and minority and ethnic politics, social movements, human rights and international politics more broadly.

Methods, Theories, and Empirical Applications in the Social Sciences Samuel Salzborn, Eldad Davidov, Jost Reinecke, 2012-03-30. The volume addresses major features in empirical social research from methodological and theoretical perspectives. Prominent researchers discuss central problems in empirical social research in a theory driven way from political science, sociological or social psychological points of view. These contributions focus on a renewed discussion of foundations together with innovative and open research questions or interdisciplinary research perspectives.

Political Psychology of Turkish Political Behavior Cengiz Erisen, 2016-04-14. The primary motivation for this book is to focus on something crucial that is missing in Turkish political science: well founded theories on the Turkish voter and empiricism in scholarly research. Given the absence of such theories one could ask what then the best model is for explaining a Turkish citizen's vote choice and political behaviour and what schools of thought Turkish political science has. Unfortunately it is not possible to offer a satisfactory response to either question at this point and among the clear deficiencies in the current literature the primary one is the lack of a robust model explaining how Turkish citizens form their political attitudes, engage in political participation or cast their votes. With these important questions in mind this book aims to generate an interest in the theoretical and methodological tools that one can employ to conduct research contributing to the needs of the literature, particularly in political behaviour and political psychology. This book expands our understanding about the processes and the mechanisms of Turkish political behaviour and contributes to the foundations of theory building in the literature. This book was published as a special issue of Turkish Studies.

The Next Generation Richard Alba, Mary C. Waters, 2011-04-01. One fifth of the population of the United States belongs to the immigrant or second generations. While the US is generally thought of as the immigrant society par excellence it now has a number of rivals in Europe. The Next Generation brings together studies from top immigration scholars to explore how the integration of immigrants affects the generations that come after. The original essays explore the early beginnings of the second generation in the United States and Western Europe, exploring the overall patterns of success of the second generation. While there are many striking similarities in the situations of the children of labor immigrants coming from outside the highly developed worlds of Europe and North America, wherever one looks, subtle features of national and local contexts interact with characteristics of the immigrant groups themselves to create

variations in second generation trajectories The contributors show that these issues are of the utmost importance for the future for they will determine the degree to which contemporary immigration will produce either durable ethno racial cleavages or mainstream integration Contributors Dalia Abdel Hady Frank D Bean Susan K Brown Maurice Crul Nancy A Denton Rosita Fibbi Nancy Foner Anthony F Heath Donald J Hernandez Tariqul Islam Frank Kalter Philip Kasinitz Mark A Leach Mathias Lerch Suzanne E Macartney Karen G Marotz Noriko Matsumoto Tariq Modood Joel Perlmann Karen Phalet Jeffrey G Reitz Rub n G Rumbaut Roxanne Silberman Philippe Wanner Aviva Zeltzer Zubida and Ye Zhang *Germany on the Road to Normalcy* W.
