Smith, 1991-06-20 Examining the ways in which politics and ideology stimulate and shape changes in human science this book focuses on the cultural sciences in nineteenth and early twentieth century Germany The book argues that many of the most important theoretical directions in German cultural science had their origins in a process by which a general pattern of social scientific thinking one that was closely connected to political liberalism and dominant in Germany and elsewhere before the mid nineteenth century fragmented in the face of the political

troubles of German liberalism after that time Some liberal social scientists who wanted to repair both liberalism and the liberal theoretical pattern and others who wanted to replace them with something more conservative turned to the concept of culture as the focus of their intellectual endeavors Later generations of intellectuals repeated the process motivated in large part by the experiences of liberalism as a political movement in the German Empire Within this framework the book discusses the formation of diffusionism in German anthropology Friedrich Ratzel s theory of Lebensraum folk psychology historical economics and cultural history It also relates these developments to German imperialism the rise of radical nationalism and the upheaval in German social science at the turn of the century Let's Go Germany 13th Edition

State Succession in Cultural Property Andrzej Jakubowski,2015-06-04 The demise and rebirth of states brings with it a set of very complicated legal issues among which is the question of how to deal with that state s cultural heritage whether within its boundaries or not Through a historical analysis of state dissolution and succession and its impact on cultural heritage from 1815 to present day the work will identify guiding principles to facilitate the conclusion of agreements on the status of cultural property following the succession of states Studying primary materials and evidence of state practice that has not been available before the work will propose a novel approach to state succession from the perspective of the emerging interest of the international community to safeguard cultural heritage State succession is one of the most obscure areas of international law since its rules are characterized either by their absence or their inconsistency This book explores to what extent the principles and practice of state succession correspond to the evolution of the concept of cultural heritage in international law It provides an extensive analysis of the alternations of the international practice and legal doctrine of state succession to tangible cultural heritage since the formation of the European nation states in the nineteenth century through the experience of decolonization to the post Cold War dissolution of multinational states The book has been awarded Prize of the Professor Manfred Lachs Foundation and Kozminski University in Warsaw for the best monograph in public international law published by a Polish author in 2015 in the category of debuts On 24 November 2016 the book *State Succession in Cultural Property* by Andrzej Jakubowski was awarded the Prize of the Professor Manfred Lachs Foundation and Kozminski University in Warsaw for the best monograph in public international law published by a Polish author in 2015 in the category of debuts **Nature** Sir Norman Lockyer,1915 **Intercultural Service Learning** Petra
