Is Germany Moving Towards a Multicultural Society?](#)

Samuel Skipper, 2017 The topic of immigration is never simple Questions such as who belongs to society and how do you define national identity or what values are needed to maintain a coexisting society are extremely difficult to answer Global migration introduces unprecedented challenges for conceptualising the integration of immigrants On a European scale Germany can be said to represent the first destination for immigrants since its unification in 1989 On a global level Germany is the second largest immigrant receiving country after the United States Nevertheless only recently has Germany recognised and admitted that it is an ethnically and culturally diverse society Before the 1998 elections successive governments have always stuck to the maxim that Germany is not a country of immigration The infamous phrase came under increased pressure with the electoral victory of the Red Green coalition in 1998 New laws regarding immigration integration and citizenship were on the agenda with the aim of replacing the traditional ethnocultural model of German nationhood with a more liberal and modern model by moving away from the concepts of Volk and ius sanguinis The conservative CDU however accused the Schroder government of trying to jeopardize German cultural identity causing a fierce debate known as the Leitkultur Guiding culture debate On the one side of this debate there were the conservative CDU politicians who viewed Germany in ethno nationalist terms while on the other members of the Green Party and the SPD who attempted substituting the volkish tradition with a multicultural model of citizenship that guaranteed universal human rights The aim of this study is to assess which of these two models are currently prevailing in moulding immigration and integration policy Has the progressive left achieved its objective of moving away from the traditional ethnocultural and assimilationist model defining citizenship towards a more inclusive multicultural model **Atlas of a Tropical Germany** Zafer ?enocak, 2000-01-01

*From Old Regime to Industrial State* Richard H. Tilly, Michael Kopsidis, 2020-10-26 In *From Old Regime to Industrial State* Richard H. Tilly and Michael Kopsidis question established thinking about Germany's industrialization While some hold that Germany experienced a sudden breakthrough to industrialization the authors instead consider a long view incorporating market demand agricultural advances and regional variations in industrial innovativeness customs and governance They begin their assessment earlier than previous studies to show how the 18th century emergence of international trade and the accumulation of capital by merchants fed commercial expansion and innovation This book provides the history behind the modern German economic juggernaut      *Memory, Politics, and Yugoslav Migrations to Postwar Germany* Christopher A.

Molnar, 2019-01-11 This historical study persuasively links the reception of Yugoslav migrants to West Germany's shifting relationship to the Nazi past essential reading Tara Zahra author of *The Great Departure* During Europe's 2015 refugee crisis more than a hundred thousand asylum seekers from the western Balkans sought refuge in Germany This was nothing new however Immigrants from the Balkans have streamed into West Germany in massive numbers since the end of the Second World War In fact Yugoslavs became the country's second largest immigrant group Yet their impact has received little critical attention until now *Memory Politics and Yugoslav Migrations to Postwar Germany* tells the story of how Germans received the many thousands of Yugoslavs who migrated to Germany as political emigres labor migrants asylum seekers and war refugees from 1945 to the mid 1990s With a particular focus on German policies and attitudes toward

immigrants Christopher Molnar argues that considerations of race played only a marginal role in German attitudes and policies towards Yugoslavs Rather the history of Yugoslavs in postwar Germany was most profoundly shaped by the memory of World War II and the shifting Cold War context Molnar shows how immigration was a central aspect of how Germany negotiated the meaning and legacy of the war Irregular Migrants Alice Bloch, Milena Chimienti, 2013-09-13 A new era of international migration has been accompanied by increasingly restrictive immigration controls to manage migration to more developed countries The consequence has been fewer routes to enter and or stay in countries in a regularised way and as a result an increase in the numbers of undocumented migrants In this situation undocumented migrants especially in relation to immigration controls and internal security have come to occupy an important role on the policy agenda of many nation states The control and regulation of undocumented migrants has become an increasingly politicised issue This edited collection brings together cutting edge scholarly research papers to explore undocumented migration at the international national and individual levels Starting with an overview of the literature on undocumented migration this book explores some of the key areas of research and policy in this area This includes the making of undocumented migrants the journey and processes experiences of being undocumented at the individual level collective action and return This fascinating book explores the many facets of undocumented migration and of being an undocumented migrant in different geographical contexts that include Europe Southern Africa Central America and North America This book was originally published as a special issue of Ethnic and Racial Studies
