Economic Growth And Development In Jordan Special Studies On The Middle East:

Economic Growth and Development in Jordan Michael P. Mazur, 1949 **The Economic Development of Jordan (RLE Economy of Middle East)** Bichara Khader, Adnan Badran, 2014-10-30 Jordan is one of the most important countries of the Fertile Crescent. Although it is not richly endowed with material resources, its political significance in the region gives it considerable authority. This book focuses on the economic development of Jordan over the last decade. It analyses the structural changes the economy has undergone and examines the experience of the key sectors. It also looks at the contribution of foreign aid and emigrant workers' remittances to the economy. The book concludes that there is a significant potential for the Jordanian economy, but the current political and economic problems facing it are daunting. First published in 1987.

The Arab-African Connection Victor T. Le Vine, Timothy W. Luke, 2019-07-11 Between June 1967 and the end of 1973, most independent Black African states abandoned their neutral position in the Middle East conflict, cut their ties with Israel, and gave full support to the political aims of the Arab states. Since the beginning of 1974, however, and despite attempts by the Arabs to shield their new allies from the adverse effects of the 1973-74 world oil and economic crises, the alliance has begun to fragment as the African states become transformed from partners to clients and dependents of the Arabs. This study examines the roots of the African conversion, the nature of the evolving relationship between the African and Arab states, and the reasons economic and political for the transformation of the alliance. Basic to that transformation, the authors argue, is a fundamental change in the international status and power of the Arab states, a change that has led them to cast their lot with the industrialized First World rather than with the poorer, less developed countries.

The Political Environment Of Economic Planning In Iran, 1971-1983 Hossein Razavi, Firouz Vakil, 2019-07-09 The Political Environment of Economic Planning in Iran 1971-1983: From Monarchy to Islamic Republic. Hossein Razavi and Firouz Vakil. Based on both research and first-hand experience, this book provides a politico-economic analysis of the operation of Iran's economy before and after the revolution of February 1979. The authors discuss the function and effectiveness of economic planning during the Shah's tenure and relate the shortcomings of plan preparation and implementation to the explosive psycho-economic instability of the regime. They then discuss the institutional problems that the revolutionary regime has been facing in operating the economy and foresee the possible consequences of its failure to appropriately deal with these problems. Finally, analyzing the economic postures of important opposition groups, the authors outline future prospects for economic planning in Iran.
